

HAMILTON NEWS MARKET BUILDING OFFERED HAMILTON

Board of Control to Take Up Matter at Meeting This Morning.

Hamilton, March 11.—The offer of the Hamilton Stone & Brick Co. to place at the disposal of the city for Market Hill purposes its building on King William street, between John and Catharine streets, will be considered by the board of control tomorrow morning.

Eventually, York street will have to be cleared of obstructions, if it is to continue as part of the general highway scheme, but members of the council say that this is a problem for the far future, and that other matters now require attention.

Engineers Gray and Bain, who have been collaborating in the preparation of a report on beach pumping conditions, have practically completed their labor, it being announced today that the lengthy document would be placed in the hands of the board of control tomorrow.

It is believed that the 40 hotelmen in this city will "carry on" despite the fact that the proprietors claim that the "standard hotel business is a white elephant and the making in the business hardly makes ends meet."

London, March 12.—German airplanes raided Paris Monday night. The first alarm was given at 9.10 o'clock, when seven squadrons of German airplanes were reported on their way to Paris.

REV. BEN H. SPENCE ON VISIT TO OTTAWA

He is Probably Taking up Banning of Book with Authorities there.

Rev. Ben H. Spence has gone to Ottawa presumably to take up with the minister of justice and the chief censor the matter of the publication and circulation of two thousand copies of "The Parasites," which had been banned by the censor.

While in England last year, Mr. Spence obtained from Arthur Mee, a copy of the manuscript which he brought to Canada, re-edited it, added parts from "The Fiddlers" and ordered 1,000 copies published by the Methodist Book Concern.

He took this to Atwell Fleming and Company and ordered 2,000 copies of it, in magazine form. On the front page of the issue it is stated that it is put out by the authority of the Ontario branch of the Dominion Alliance, and that it is written by Arthur Mee and Mr. Spence.

Mr. Spence states that he has no copies will be circulated until he returns from Ottawa.

Central Branch Great War Veterans' Association, Hear Comrade Haight on the Matter.

The Central Branch of the G. W. V. A. at last evening's meeting held at Columbus Hall, Linden and Sherbourne streets, discussed the government scheme to help returned soldiers on the land, and listened to an address on the matter from Comrade Haight.

He expressed his emphatic opinion that if anyone thought that the government was offering him a snap the scheme was not for him. But for the ambitious and fit man, the scheme, which was as yet only in embryo, had excellent possibilities.

Up to date the Land Settlement Committee has not gathered any details which could be of service, but Major Ashton was now on his way to the west, and when he returned in a month's time he would probably be in a position to give pertinent information and advice.

Comrade Jefferys expressed himself as sick and tired of the political machinery which had characterized the election to office of members of parliament, and he moved a resolution calling for the abolition of lobbying and accessories. Among other things his motion called for the granting of a sum of only \$1,000 to aspirants for parliamentary honors, and also for the prohibition of contributions from any companies or corporations for election purposes.

Received Bar for Having Kept His Party Together While Being Heavily Shelled.

Lieut. Gerald Guiou Wins Added Honor

Lieut. Gerald Guiou, who yesterday was reported as having received an added bar to his previous military decorations because he kept his company together when heavily shelled, holding a trench against an attack, which his right flank was in the air, was a member of the 18th gradation class at McMaster University. He left Toronto with the Third University Company, which went overseas to reinforce the trenches in the Ypres sector. Light Infantry. He is an Ottawa man, but had studied in Toronto for one year prior to enlisting.

McKendree University points with pride to the fact that there is not a single one of the men who entered as freshmen in the class of '18 but who has either enlisted for overseas military service or is in some department of war-service activity.

to employ these large forces in his hands because the British are strongly holding their lines and the Canadian British are, man to man, the better troops. He is also raising to secure military equipment, perhaps, and other important outposts for observation. His activity in the Ypres sector certainly betrays his nervousness about the allied intentions.

If the Germans could definitely establish that the British higher command had brought up large forces to this front, then they might make a dash for the allied strategy for this campaign would be similar in some points at least to the allied strategy in the last campaign, or the strategy in the present time the enemy would enable the Germans to meet it with adequate counter-preparations. Up to the present time the enemy has been unable to carry out the allied plans of campaign, so he has to keep large forces massed as reserves at strategic points along his entire front in readiness to proceed anywhere at the sound of the alarm. If he knew definitely where the allies were going to carry out a serious offensive, he could reinforce his defensive forces with the bulk of these reserves so as to have them near the critical point. If the allies proceed with the strategy of envelopment, the classical offensive strategy, they will have large concentrations of mass as last year near the coast of Belgium.

President Wilson has telegraphed a message to the meeting of the Russian congress of soviets at Moscow. He pledges the United States to do its utmost to secure for Russia more complete sovereignty and independence in her own affairs, and full restoration to her great role in the affairs of Europe and the modern world. He expresses the sympathy of Americans with the Russians at this moment when the German power has been thrust in to turn back the whole struggle for freedom and to substitute the wishes of Germany for the purpose of the Russians. The United States, he says, is not now in the position to render the direct and effective aid it would wish to render. This message is a last effort to prevent the ratification of the peace with Germany, or at least to increase the opposition to it in Russia, even to a point where the German government is determined on peace and he was strong enough to retire Trotsky, who became a late convert to the carrying out of the war, it is improbable that Japan will move until the soviets accept the German terms.
