"It was generally accepted," the newspaper adds, "as an indication of a change in the attitude of the clericals. Even the Herr Groeber defended the chancellor, numbers of his auditors had a feeling that his words were a mere formality, and that the centre in actuality is facing a new orientation, which will prepare the Fround for an understanding with both the other majority parties."

Oaklawn Cemetery to Have Permit if Board of Health Approves, Says Council.

The expected opposition to the projected Oaklawn Cemetery at Willowdaie ded not materialize at yesterday afternoon's session of the township council board of health, held at the township offices, 40 Jarvis street. The board recommended that the Oaklawn Cemetery Inc., be permitted to use Lot 20 of Concession 1 (50 acres), as a cemetery provided the provincial board of health gave a permit for this purpose.

Opponents of the scheme claimed that a road should run thru the cemetery from Finch avenue south.

The plans, as they stand today, shoyed that the cemetery was bound by Yonge street on the west and Finch avenue on the north, but that there was no parallel road to Yonge for a distance of at least 2300 feet, and that the south. It was also contended that the new cemetery should have profited by the experience of Mount Pleasant Cemetery, which had for years clamored for a road thru from east to west.

The trustees of the new cemetery are John Firstbrock, E. F. B. Johnson, K.C.; Herbert Waddington, F. C. L. Jones, E. C. Hill and Gideon Grant, and both Mr. Grant and Mr. Jones were present at yesterday's session.

# UPON INACTIVE FRONT

London, Sept. 26.-The new allied thrust in the west comes on a front which has not been very active since the Germans failed to advance in Champagne in the defeated offensive of July 15, east and west of Rheims. French soldiers are attacking in Champagne, which runs from Rheims eastward to the Argonne, west of Verdun. The Americans are moving forward east of the Champagne sim-ultaneously with General Petain's

men.

Great possibilities might result from a successful allied advance on the front east of Rheims as the German communications would be severed and the formidable enemy position from Arras to Laon endangered with the important southern end outflanked. The length of the attacking front is not disclosed, but it may possibly be from Rheims eastward past Verdun to southwest of Metz.

In local operations between Cambrai and St. Quentin on the western front, the British are pushing further into the Hindenburg line and capturing points vital to the defence of St. Quentin. West and north west of St. Quentin the British have advanced in the regions of Selency and Gricourt.

## GERMAN PAPERS WRECKED.

Rio Janeiro, Sept. 26.—German newspapers at Porto Alegre, in the State of Rio Grande do Sul, early this week, so aroused the populace by criticizing Brazilian affairs that attacks were made on the plants of three newspapers. The plant of The Jornal da Tarde, formerly the Vaterland, according to reports received here, was wrecked and burned. Heavy police guards were thrown about the offices of The Gazeta Popular and The Deutsche Volksblatt, and the crowds were kept at bay until the excitement subsided.
