Socialists declare the present conditions must change, everything as radically wrong, and a complete tearing down is necessary before reconstruction. But I seriously question if a majority of our good women realize that such is the case. Christian women simply wish to love and obey.

"At the present hour, however, there are many grounds of legitimate complaint among women. Many noble-heated women are forced by circumstances to leave their natural sphere of action, the home, in order to earn an honorable existence. They are forced into public professions. Now this is not a healthy condition of things, and if we should look for the cause, what is at the bottom of this dissatisfaction?
