The following officers were re-appointed: President, Mrs. Brodie; Secretary, Miss Carty, Treasurer, Mrs. Hart.

The Ramabai Association was organized in Boston ten years ago. The movement is named after Pundita Ramabai Dongre Medhavi, Poona, India, ayoung native woman of India who became a widow and was subject to some of the tortures that come to the widows of that country. Ramabai came to this country over ten years ago to organize a society to look after these helpless women, and the result of her labors has been the creation of 77 circles, three of which are in Canada.

A reception will be tendered Ramabai when she arrives in the city in June.

| Angle | Angl In view of the generally good trade conditions stocks should, barring accidents, sell higher. At the same time it is to be remembered that the commission houses are at present so loaded up that the market is not in a position to stand up under any reverse to the American arms. Within the past week or two the public has again possessed itself of considerable holdings, and until the "little fellows" are "shaken out" the market is likely to continue rather nervous. For this reason there are those who would like to see a temporary set-back for the United States, just to "clear up" the situation.

situation.

On Wall-street to-day the list showed weakness. There was some local selling by people afraid to carry loads over Sunday in view of the uncertainty of the war, and the nervousness was increased by selling orders from London, which sent declines in American radis of from ½ to 1½ per cent., the latter loss being in C.P.R. The market firmed up before the close, and the differences between Friday's and to-night's final figures are only fractional.

On the Toronto board little trading was recommended. Sales at 1 p.m.: Bank of Commerce, 5 at 140½; Cable, 50 at 174½, 25 at 174½; Toronto Railway, 25 at 95½; Hamilton Electric, 10 at 69½; People's Loan, 1, 3 at 31.

On the Toronto board little trading was done, and the list closed much where it stood a week ago to-day. The Montreal Exchange was closed.

Consols closed % lower in London. In Paris 3 per cent. rentes are quoted at 102f 72½c.

At Paris Spanish 4's closed at 33 15-16.

toward the close of the session, on the report that Leiter was a large buyer to-day of July, September and December, and the prices of all options quickly advanced July selling up to \$1.07, Sept. to 90%c, and Dec. to \$5%c. The close was fractionally lower.

Corn and Oats—Both markets sympathized to a large extent with wheat and ruled lower during the early part of the session, Baldwin & Guerney were large buyers of July corn, aggregating upwards of a million bushels, and Bartlett, Fraser & Patten led the selling. The break in oats early was caused by commission houses selling on stop orders. Receipts were heavy, 959 cars corn and 300 cars oats. Both cereals firmed up on the close of the session, and closing prices were about the best of the day.
