SOVEREIGN BANK ORGANIZED

Archibald Campbell, M.P., Presided at Yesterday's Meeting of the Shareholders.

BOARD OF DIRECTORS ELECTED.

There Have Been 15,331 Shares of Stock Subscribed. Representing \$1,533,000.

Organization of the new Sovereign Bank of Canada was effected at a meeting of the shareholders yesterday in the tempor ary office, 14 West King-street. Archibald Campbell, M.P., Toronto Junction, presided and D. M. Stewart, the general manager, the bank were approved, and a motion was passed, conveying thanks to the Trust and sistance to the provisional directors in connection with the preliminary work. T. P. Coffee made an appropriate reply.

On being called upon, Mr. Stewart reviewed the history of the institution since undertaken a short time ago, and reported that the total subscriptions thus far received amounted to 15,331 shares, or \$1,-533,000. It was decided, to meet the wisnes of the subscribers as far as possible, to made an allotment of \$1,300,000, instead of \$1,000,000, as at first intended, the authorized capital being \$2,000,000. The stock is distributed among 660 persons, or about 19 shares to each person. Mr. Stewart mentioned that the Sovereign was the first bank to get a charter inder the amended Bank Act, and in compliance with the requirement deposited \$250,000 with the Finance Minister and Receiver-General some five weeks ago. He reported that the Toronto office would be open for business on May 1, and pointed out that his alm would be to secure à safe and sound business for the shareholders, rather than to do a very large business at the risk of incurring losses. He had every expectation that the bank would do very well, but asked the shareholders to be lenient in the matter of looking for heavy dividends from the very outset. They would come, he was certain, in a short time.

The appointment of the bank staff and also of outside agents, was deferred until a later meeting.

Mr. W. Mortimer Clark, K.C., and Hon. 533,000. It was decided, to meet the wishes

also of outside agents, was deferred until a later meeting.

Mr. W. Mortimer Clark, K.C., and Hon. G. T. Baird of New Brunswick were appointed scrutineers, and the following directors were elected: H S. Holt, Montreal, president Montreal Light, Heat and Power Company; A. A. Allan, Toronto, A. A. Allan & Co., wholesale furriers etc.; Archibald Campbell, M.P., Toronto Junction, Queen City Flour Mills, President Equity Fire Insurance Co., etc.; James Carruthers, Montreal, James Carruthers & Co., grain exporters; Randolph Macdonald, Toroato, Manning & Macdonald, contractors, director Crown Life Assurance Co.; Hon. Peter McLaren, Senator, Perth, Director Toronto General Trusts Corporation; Hon. D. McMillan, Senator, Alexandria, director Merchants' Fire Insurance Co.; John Pugsley, Toronto, Pugsley, Dingman & Co., and Henry R. Wilson, New York, President Lincoln Trust Company.

CHANGE COURSE OF G.T.R. From Darlington sto Bowmanville and Port Hope to Newtonville,

Ottawa, April 23.-A meeting of the Railway Committee of the Privy Council was held this morning, Hon. A. G. Blair presiding. In regard to the application of the Crow's Nest Southern Railway to cross the British Columbia Southern Railway (C.P.R.), at Elko and at the mouth of Morrissey Creek, Messrs. J. A. Genmili and G. G. S. Lindsey, Toronto, who appeared for the applicants, announced that an agreement between the two railway companies had been reached. The committee accordingly granted the application, subject to the rules of the agreement.

The Canadian Pacific Railway Company asked for approval of the construction of a branch line along Hubert and Main-streets, Smith's Falls, to the manufactory of the Frost & Wood Company.

The committee intimated that the the application of the Crow's Nest

Wood Company.

The committee intimated that the approval asked for might be granted to the limitation that trains must only be run between 6 and 8 o'clock a.m. and 5 and 7 o'clock p.m. In the meantime, a government engineer will visit 'Smith's Falls and report as to the suitability of the location.

No one appearing to object, an order was granted approving of proposed changes in the location of the G.T.R. Line from Darlington' to Bowmanville, and from Port Hope to Newtonville, in connection with the company's plans for double-tracking.

The G. T. P. also applied for approval of a proposed change in the location of its line, so as to place the City of Brantford on the main line. It transpired, however, that, altho the City of Brantford is favorable to the application, sufficient notice has not wet here either the contract the contract of the matter the contract of the matter the contract of the co

sent.
The Woodstock, Thamesville and Ingersoll Electric Railway Company made application for a level crossing over the Grand Trunk Railway on the over the Grand Trunk Rankay on the Ingersoll-road. At present the former railway crosses underneath the latter. The application is opposed by the Grand Trunk, on account of the danger to life involved, but approved by the municipality. The committee took the application into consideration

application, sufficient notice has not yet been given, so the matter was allowed to stand over for the pre-

East End Items.

An inquest was held at the jail yesterday morning on the body of John Gunshener, aged 37, who died there on Tuesday afternoon. Dr. Duncan presided, and the verdict was death from natural causes.

Mr. John Jordan has resigned his position as organist of St. Matthew's Church to take a similar position at St. John's, Norway.

We are glad to learn that the people of the East End are not all asleen when we learn that a fully signed and writified petition for a brick pavement

bertified petition for a brick pavemen on Grant-street has been handed to the City Clerk. The man whose good judg-ment has won the influence of his neighbors to secure such a pavement

Lackawanna Washington Excursion The next cheap excursion to Washington will be the Easter excursion, good going on all trains March 21st, and for return Easter Monday. You can spend Easter at Washington, Philadelphia or Atlantic City. For rates, time of trains, etc., consult nearest Lackawanna Agent, or write Fred P. Fox, Division Passenger Agent, Buffalo, N. Y. 246

No person should go from home without a bottle of Dr. J. D. Kellogg's Dysentery Cordial in their possession, as change of water, cooking, climate, etc., frequently brings on summer complaint, and there is nothing like being ready with a sure remedy at hand, which oftentimes saves great suffering, and frequently valuable lives. This cordial has gained for itself a widespread reputation for affording prompt relief from all summer complaints.

Becoming More Popular. "The Pick of the Bunch" is an appropriate appellation for the Grandas cigars. These cigars are of the very highest quality, and are becoming more

highest quality, and are becoming more and more popular every day. Owing to the purity of their constituents, they are conductve to good health and con-soling to the mind of the smoker. ed To Go to St. Louis.

Ottawa. April 22.—Mr. William Hutchinson, ex-M.P., who was Commissioner for Canada at the Buffalo Exposition, will act in a similar capacity at the St. Louis Exposition in 1903.

Deutschland Lost Rudder. Plymouth, April 23.—The Deutsch-land passed the Lizard at 4.10 o'clock p.m. She signalled: "Lost rudder Tuesday,400 miles westward of Bishop Rock. Steering well with engines."

NATIONAL TRUST COMPANY, Limited, Toronto, Montreal, and Winnipeg.

OBJECTS OF THE COMPANY The Atlantic Pulp and Paper Company, Limited, has been organized in order to take advantage of the unrivalled facilities for the manufacture of pulp and paper at New Richmond, on the Baie des Chaleurs, and by its

charter, has powers of the fullest description. It is confidently believed that pulp and paper can be more economically manufactured there than any

It will be seen that the facilities possessed by this Company assure a

1. WOOD SUPPLY .- No paper mill in Canada has greater advant-

point of cheapness in the production of paper never attained before, while the situation of the mills on the Atlantic seaboard makes it possible to ship to all foreign ports by water without trans-shipment. As the Company proposes to confine itself almost exclusively to the export trade, it will readily be seen that this gives it further advantage over all other companies.

ages in point of situation. Many companies do not own their own limits, being entirely dependent on outside purchases, and subject to fluctuations of supply and price. Other companies owning limits have to transport their wood from great distances by water or rail. Thus we find mills at Mer-

riton and Niagara Falls are bringing their pulpwood from Central Quebec.

Some prosperous paper companies even buy their pulp in the manufactured state. The mills of the Atlantic Pulp and Paper Company, Limited, willi be built about two miles from the limits, where there will also be a very large

mill-pond capable of holding several million logs. The Little Cascapedia River flows from end to end through the center of the limits and the large number of tributary streams does away with the greater part of the hauling usually entailed in getting out pulp wood, thereby greatly decreasing

2. WATER POWER .- Mr. George F. Hardy of New York, the foremost

American authority on this subject, has made a thorough examination of the water power that can be developed on the Little Cascapedia River at a point

immediately adjoining the proposed mill site, and his report shows that sufficient power can be developed to run mills of even greater capacity.

This report can be seen at the office of the undersigned, or at any office of the National Trust Company, Limited.

purity the water in the river is suitable for making the finest grades of paper without the expense of filtering, which is almost invariably required

4. COST OF LABOR.—The labor employed in the mills and woods cost less than probably any other American mill, as far as known, as competent men in this section of the country, on account of the cheapness of living.

5. TRANSPORTATION CHARGES.—The shipping facilities of this

6. MANAGEMENT.—The Company has been fortunate in securing the

PROPERTIES

3, WATER SUPPLY .- Pure and clean water is one of the most important factors in connection with pulp and paper-making. The bed of the Little Cascapedia River is rocky, and owing to its crystal-like clearness and

The essentials to the success of such a concern are: 1. Cheap and unlimited pulp wood;

6. Efficient management.

Cheap and unlimited paip wood;
 Adequate water power cheaply developed;
 Pure water for the manufacturer;
 Cheap labor;
 Low transportation charges;

N.B.—Since the Prospectus of the Company was issued (about the First of April), the Company has received two offers for the purchase of its entire output of paper. These offers are entirely unsolicited, and are from parties whose standing is such as to guarantee the performance of any contract they may undertake. One of these offers covers the first year of production, and the other covers the first three years. Either offer, if accepted, would be sufficiently profitable to assure the payment of the full dividend on the Preferred Stock, provide the amount required by the Charter for a Reserve Fund, and leave a balance sufficient to pay a large dividend on the Common Stock, if no unforeseen contingencies should arise. This does not include profits estimated from the sale of sulphite pulp or from the saw mill, which, it seems reasonable to suppose, would be sufficient to cover all unexpected contingencies. PROSPECTUS

The following is an extract from one of the reports:

"I have been working in the lumber woods for twenty years or more, and have traveled and examined limits in the State of Maine, New Brunswick, and Quebec, and worked in Wisconsin and Minnesota, and I am sure this is the best pulp limit I have ever seen or traveled over."

On the basis of any one of these reports a conservative estimate shows that there is sufficient pulpwood now on the limits to supply the proposed mills for more than 65 years. As spruce wood will replace itself in from twenty-four to thirty years, it will be seen that there is sufficient wood on the limits to afford a perpetual supply to a mill double the capacity of that now contemplated.

The freehold property consists of twenty acres where the saw mill, dwellings, and office are situated, and 356½ acres on the bank of the Little Cascapedia River, where it is proposed to build the Pulp and Paper Mills.

THE PULP AND PAPER MILLS

A Paper Mill with a daily capacity of 54 tons.

A Ground Wood Pulp Mill with a daily capacity of 50 tons, and

A Sulphite Pulp Mill with a daily capacity of 40 tons.

Mr. George F. Hardy has estimated the cost of erecting the Pulp and Paper Mills and of developing the water power at \$950,000. The balance from the sale of the Preferred Stock will be sufficient to complete the payments for the limits, water power, saw mill, etc., provide working capit and leave a substantial balance for contingencies.

THE SAW MILL

There is on the property a saw mill, equipped with the latest improved machinery, capable of turning out from 35,000 to 40,000 superficial feet of sawn lumber in ten hours, and is equipped with all necessary power, gearing, shafting, etc., for the installation of another saw, which would double the capacity.

MARKETS The markets will be chiefly foreign, including the Eastern States and Great Britain. In view of the expected advances in the price of paper in the Eastern States it is probable that the greater part of the output will be marketed there. Situated as the mills will be on the seaboard, paper can be laid down in Liverpool and New York, duty paid, at such a price as

Freight quotations can be seen at the offices of the National Trust

Company, or the undersigned. ESTIMATE OF BUSINESS AND PROFITS

Estimating the cost of pulp wood at \$2.25 a cord, careful estimates made for the Company show that the ground wood pulp should not cost over \$5.89 a ton, and sulphite pulp not over \$16.00 a ton. The actual cost of newspaper from pulp, estimated at these prices, should not be over \$16.94

a ton. This is after making all necessary allowance for depreciation and renewal of plant, and all charges of management and selling.

The following estimate of the annual output of the nillis has been prepared by Mr. Wm. M. McIntyre, a practical pulp and paper manufacturer, and is believed to be conservative and well within the mark, and includes allowances for salaries and contingencies: 5. TRANSPORTATION CHARGES.—The shipping facilities of this Company are certainly unequalled by any similar enterprise in Canada, the situation of the mills on the Baie des Chaleurs giving every possible advantage for export trade, which is probably the most profitable field. Arrangements can be made with Atlantic steamship lines to run steamers from New Richmond for eight months in the year, as required. During the winter months favorable winter rates have been arranged with the Railway Companies to St. John and Halifax, New Richmond being on the line of the Atlantic and Lake Superior Railway, which will be connected.

16,902 tons of newspaper at \$37.00 a ton ton f.o.b. at mills 248,835.00

- \$874,209.00 16,902 tons of newspaper, at \$16.94 a ton 286,819.88 8294½ tons of sulphite pulp at \$16 a ton 286,819.88

Available for Reserve Fund and further Dividends ... \$350,177.12

services of Mr. Wm. M. McIntyre, formerly Mechanical Superintendent with the Laurentide Pulp Company, Limited, who will act as Manager of the construction and operation of the mills. Mr. McIntyre has had over twenty years' experience in pulp and paper-making, and is regarded as an authority on the manufacture of pulp and paper. The ground wood pulp and the balance of sulphite pulp will be censumed in the paper mill of the Company. The estimated profits from the operation of the saw mill are not in-The properties and limits acquired by the Company contain about three hundred and two square miles, or one hundred and ninety-three thousand two hundred acres, more or less. The wood is principally spruce, and there is also a large quantity of cedar, pine, birch, balsam, balm of Gilead, and The estimated profits from the operation of the saw mill are not included in these figures, but owing to the enormous quantities of cedar on the limits, substantial profits should be made from the manufacture of railway ties, shingles, etc. The Laurentide Pulp Company, Limited, in its annual report, June 30th, 1900, stated that the Company's saw mill added to the year's profits an amount equal to its entire cost, although it was operated for only three months of the year, and estimated that the future profits from this source would cover the interest on the entire bond issue of the poplar. The Company has reports on this property made by five different expert Rangers, acting independently. Copies of these may be seen at any office of the National Trust Company, Limited, or at the office of the

ISSUE OF STOCK

For the acquiring of the said property, equipment of the pulp and paper mills, the development of the water power, building the railway siding to the mills, and the furnishing of sufficient working capital, the present issue of Preference Stock is made. The whole of the Seven Per Cent. Cumulative Preference Stock has been authorized to be issued on the following terms:

For every two shares of Seven per cent. Cumulative Preference Stock subscribed and paid for, there will be allotted by way of bonus one share of fully paid Common Stock.

The Seven Per Cent. Preserred Stock is Cumulative, carries yearly dividends, and has priority over the Common Stock as to both divide

After the payment of the dividend on the Preferred Stock, and before any payment of dividend on the Common Stock, a further sum of one per cent. must be applied to a Reserve Fund, under the charter. This fund will be for the further assuring of the dividends on the Preferred Stock. Application will be made in due course for the listing of the shares of the Company on the Toronto and Montreal Stock Exchanges.

Applications for Preferred Shares should be forwarded to the NATIONAL TRUST COMPANY, Limited, Toronto, Montreal, or Winnipeg; or to SUTHERLAND & CAMERON, Brokers, Ottawa, Canada. Checks, drafts, etc., are to be made payable to the NATIONAL TRUST COMPANY, Limited.

If the whole amount applied for be not allotted, the surplus paid on deposit will be appropriated towards the sum due on allotment. Where no allotment be made, the deposit will be returned in full. Further information and Forms of Application can be obtained at the offices of SUTHERLAND & CAMERON, 48 SPARKS STREET, OTTAWA, CANADA, or the NATIONAL TRUST COMPANY, LIMITED, TORONTO, MONTREAL, and WINNIPEG. We offer the Preferred Stock for sale on the above terms.
