The Miller Millers say: Winter wheat
conditions are considerably better than a year
ago. Contradictory reports from Kansas
and prospects for that state and Nebraska
are for yields equal to last year. Cutting
has begun in Texas and is expected to
start in Tennessee next week.

CHICAGO, May 28.—Patten has taken
in and paid for 3,000,000 bushels wheat this
month.

Chicago Cattle.
J. P. Bickell & Co. say at the close of
the market:
Wheat—Daily session, confined entirely
to professional dictation, closing about
unchanged. Trade awaiting expiration
of May option. Cash premiums main-
tained and receipts well taken. We con-
tinue to advise scaling operations until
something more definite regarding the
movement of winter wheat. Buy Septem-
ber and December on all good declines.

Wheat—The market opened easier, in
sympathy with the decline abroad. Ar-
rived one shipment, a receipt of 1,500
bushels, against 2,200 last year. The
early selling was on reports of large
world's shipments. Later the market
rallied on good commission house buying
and on Snow's report of the condition in
the principal wheat countries of Kansas.
A better feeling was reported in Liver-
pool on the decline. Our opinion on the
market is unchanged.

J. R. Helms & Co. wired R. B. Holden:
Wheat—Market opened a shade lower.
There was some good local buying. The
mission houses on both sides. We re-
ceived the usual amount of crop news,
but the majority showed some improve-
ment. We can see no good reason to
change our views. Wheat is a purchase
on all good reaction. We believe that
bears overdid themselves yesterday. The
favorable weather conditions have given
them more encouragement.

Corn—The local professionals chief
seller, but market recovered quickly and
closed at a good advance, especially for
May.
Oats—The market showed a big liquida-
tion.
