Montreal, June 16.—Organized labor in the annual convention of the American Federation of Labor here today called upon congress to curb profitteering, endorsed President Samuel Gompers' non-partisan political program, approved the Irish republic and requested withdrawal of armed forces from Ireland, and laid the foundation for another steel strike.

The federation declared war on the Kansas code of industrial relations and anti-strike legislation now before the legislature in Colorado and Nebraska.

The recent railroad strike was condemned by the federation as a "reactionary movement to discredit the recognized organizations in the railway service. Any union giving moral or financial aid to such walkouts was threatened with revocation of charter. Congress was urged by a vote of the convention to enact legislation for the absolute exclusion of Japanese and other Asiatic immigrants and "picture brides."

The wheat and oats are growing rapidly and the blades are plump and luscious. They look like onion shoots, so fat and full of moisture are they. Only in one small district in the south of the province, that lying immediately north and east of Lethbridge and MacLeod, has there been any damage reported. This has been due to the high winds there during the last week."
