George Winter Released.

George Winter, formerly of the Marlboroughs, has been released by the Troy State League team. He has been offered the position of manager by the Twin State and Colonial Leagues.

Made 100 Home Runs.

Pittsburg, June 23—The home run made by Hans Wagner, the Pittsburgh National's veteran shortstop, in the second inning of the thirteen-inning contest with Philadelphia at Forbes Field yesterday was the 100th of his career.

It also brought his total number of hits to 818.

Wagner made his first home run in the major league while with Louisville of the National League in 1897.

Wannamaker for Giants.

Hanover, N. H., June 22—Captain "Bugs" Wannamaker of Melrose, the Dartmouth varsity backstop, today signed a contract with the New York Giants, and will report to Manager McGraw

July 1. Rumor had slated Wannamaker for the Giants, but he has dodged any charge of professionalism being preferred against him by postponing definite negotiations with the New York club until the completion of Dartmouth's schedule.

Will Not Trade Magee

Manager Stallings of the Boston Braves denies that he is going to trade Magee. He branded the story emanating from St. Louis as a falsehood.

Various new additions to the Braves' list of players for trying out purposes reported to the club this week. They comprise the Shannon twins, Maurice and Joe, and "Rube" Cram. The two former players are mere kids in age and cannot be told apart. Both are red-headed, one being an infielder while the other is an outfielder and first baseman. The latter made a hit with Boss Stallings by the way he stands up at the bat. At Seaton Hall, the Orange, N. J., prep school, Maurice hit for .408 while Joe made his 67.

Jack Dunn, manager of the Richmond Internationals, was after both boys, but President Coffey of the Boston club won out. It is intended to find a good minor league berth for the pair after Manager Stallings has given them a good looking over.

The same holds good of Cram, the Melrose boy who made a fine record as a pitcher while at Brown University, Dartmouth. The latter will report in a few days and an attempt will be made at his request to place him with an international league club. George Davis, the Braves pitcher, was out in his log yesterday in practice and will accompany the team when it departs on its second eastern invasion Thursday night.

Star Negro Pitcher

The unwritten law that a negro cannot play in the major leagues has kept at least three promising pitchers from taking the little hillock in the grounds where the people look down from all sides. Donaldson, Kansas City senior pitcher, pitched thirty innings without allowing a hit or a run. When McGraw saw Donaldson pitch in Cuba, he said "If the unwritten baseball law did not bar negroes from the major leagues or if Donaldson were a white man, I would think I was getting a bargain at that."

In addition to his record of no hits or no runs in thirty innings, Donaldson has struck out twenty-five men in a twelve-inning game, more than two strikes-out an inning.

Wickware, a Chicago semi-professional, struck out nearly 200 batters in 30 games. In one game he fanned 15 batters in his last 20 games he allowed on the average only 2 runs to the game. Yet throws what is known as the "bean ball," a shot that darts straight for the batter's head and then swerves to cross the plate.

Cuba has another negro pitcher, Mendez, who is known in Havana as "Black Matty" because he pitches like Matthewson.

Toronto Club Hard Hit

The Toronto Ball Club has been hit hard by the Federals, the latter taking away Benny Meyer, "Bill" and Hugh Bradley, Eddie Holey, "Dionny" Hearene, Clinton Rogge, Bert Maxwell and "Roxey" Roach. Perhaps no other minor league in the country has been hit so hard as President McCaffery and his associates, but the local club is still supplying good baseball to its patrons, and today has the nucleus of one of the best teams in the International.

Wiltse Released.

New York, June 23—George Wiltse, former left-handed pitcher of the New York Nationals, was today unconditionally released as manager of the Jersey City club of the International league.

Wiltse was made manager of the club last winter.

It is said that President Barrow has been dissatisfied with the poor showing made by the Jersey City club. Joe Veagar, an infielder, procured from the Montreal club, is acting manager.

Harvard Wins Series.

Harvard won the series with Yale by adding a 5 to 2 victory at Cambridge on Wednesday. It was a sixth inning success.

Johnson Backs Toledo Team

Toledo, O., June 22—President Ban Johnson, of the American League, will purchase \$25,000 worth of stock in an American Association Ball Club for Toledo, if local business men will raise the remainder of the amount necessary to obtain the Cleveland team. Johnson made this offer while attending a banquet tendered him and President Tetter of the National League here last night.

Diamond Sparkles.

Some of the National League clubs are below the twenty-one player limit and plan to cut the squad still lower. The managers say they can get along with fewer men.

Pat Moran has a rule that the Phillies when on the road must be out of the dining room by nine o'clock each morning. Frank Chance had a similar rule. Some managers allow the players to get up and eat at any hour up to noon.

Casey, the Providence catcher, leads the Internationals in slugging. He boasts of a .41 average. Gilbooley, a former Yankee, is hitting for .385. Frank Treasdale is in the .300 class with .307.

George Stallings apparently made a good transaction when he secured Ragan from the Robins. Pat has won five games and lost but one this year. He is the winning twirler on the Braves' staff to date.

OFFICIAL PHOTOGRAPHS OF DARDANELLES EXPEDITION

The S. S. River Clyde, which, loaded with troops, was run ashore on the beach Seddel Bahr. She is now known familiarly as "The Wooden Horse," in allusion to the famous and somewhat similar expedition of the Greeks at Troy.

"Sholess Joe," but nobody who ever watched him closely could possibly refer to him as "Sholess Joe." The Cleveland slugger should be drawing a royalty from the tobacco trust.

In Campbell a former Pirate, now with the Newark Feds, has ousted Lee Magee from the leadership in betting in that organization and is leading the league with an average of .361.

The Brooklyn manager is doubtful for 389 and Benny Kauf is fifth in the list with .338.

Harry Wolverton, former manager in an automobile accident in San Francisco several days ago. He was cranking his machine and it started before he was able to get out of the way. The car dragged him a block and crashed into a telegraph pole. He suffered fracture of three ribs and internal injuries.

TURF

St. Stephen Races, July 1.

(St. Croix Courier).

A lot of interest is centered in the observance of Dominion Day in St. Stephen. The horse racing at the park will commence at 2, with a good field of starters assured in both classes.

The races will be mile heats, best three in five.

The 216 trot and pace, for a purse of \$1250.00, has the following entries:

Lady Fondly, 2:14 1/2, Hugh Lee, Mattie March, 2:14 1/2, Chas. Cone, Pinto, 2:31 1/2, D. Groves.

Miss Lightfoot, 2:21, W. H. McDunn.

Horsemen expect that this will be one of the fastest races ever seen in this section, for the horses are all speedy and well matched. Lady Fondly holds the track record, but there are others who would like to win that honor and therefore will be made next Thursday.

Bingen the Great is in the race and is in great shape and will need to be watched in Mattie March. Chas. Cone has a new one, and Bert McBride's Lady Ashbrook is also new to this section and they add a considerable element of doubt to the outcome.

The 222 trot and pace for a purse of \$1000.00 has the following entries:

Eugene, 2:31 1/2, Chas. Cone, Pinto, 2:31 1/2, D. Groves, Climax, 2:35 1/2, H. Hartford, Black Bear, 2:39 1/2, George McBride, Weary Willie, 2:39 1/2, H. Haley, Pills, 2:33 1/2, H. R. Haley.

Plan Big Endurance Race

New York, June 23—The National Fair and Exposition Association has announced that a twenty-two mile endurance race between trotters and runners under saddle is to be one of the features of the third annual fair at Empire City Park, from August 30 to September 11.

The gate permitted will be the walk and trot for trotters and the walk and gallop for runners, each starter to carry 100 pounds. It is a bone of contention among horsemen as to which type of horse could cover the distance in the shortest time.

RING

News of the Boxers.

According to letters received from English boxers who have been made prisoners by the Germans, the Britishers are allowed to do boxing in the detention camp.

Pat Moran has a rule that the Phillies when on the road must be out of the dining room by nine o'clock each morning. Frank Chance had a similar rule. Some managers allow the players to get up and eat at any hour up to noon.

Casey, the Providence catcher, leads the Internationals in slugging. He boasts of a .41 average. Gilbooley, a former Yankee, is hitting for .385. Frank Treasdale is in the .300 class with .307.

boxer who knows how to hit does not need bandages. The trouble is that some scrappers do not know how to deliver a blow so that they will not hurt their hands.

Exceptions to Rule.

How long does the average boxer hold his best form? As a rule, it depends on his defensive skill whether the period of his greatest earning power is long or short, but there have been many notable exceptions, writes Fred Keats in the New York Evening Sun. Such men as Battling Nelson and Jim Flynn who know nothing of the defensive tactics, are prominent among those who have lasted longer than usual.

Lesch Cross is another of those who refute the belief that the boxer who is easy to hit cannot remain near the top for any length of time. In a way, Cross' endurance is even more remarkable than that of Nelson and Flynn. The detail is a lean, emaciated, sallow complexioned fellow, whose appearance seems to indicate that he has just recovered from a long, wasting illness. Yet Cross has taken part in more battles than any other lightweight now in the ring for any length of time. In a way, he is still going strong.

As a boxer Cross is a joke. He has been an easy target for all the clever boxers and even the second raters have had little trouble landing on him. Yet he has been knocked out but once since he was a novice, although he has encountered all the hardest hitting men of his class.

Cross, however, although not a clever boxer, has a remarkable fighting brain. It is an easy matter to reach him with light blows, but few have been able to land more than one dangerous wallop in succession. When badly dazed his awkward defence carries him through safely, so that, unlike Flynn and Nelson, he has not been subjected to a prolonged battering. In most of his bouts, Cross has been groggy at one stage, although it seldom hurt so badly as he pretends. Cross is a great showman. He believes in keeping the spectators interested and when things are going lame he usually injects his well known stalling act in order to liven the proceedings at great talk.

Little Robert, says an exchange, rubbed into the kitchen one day and asked his mother what kind of pie she was making.

"Mamma," he said, "what did you say is the pie's middle name?"

BUT TWO CLASSES IN THE WORLD

One Germans, the Other Human Beings, Declares Kipling

London, June 25—In a speech today at Southport Rudyard Kipling divided the population of the world into two classes—human beings and Germans. He said that the Germans are determined to continue their lust for killing until they have imposed themselves over all humans. If the allies are beaten, he declared there will be no spot left on earth where the domination of this enemy may be escaped.

It is childish to suppose, he continued, that the western hemisphere will offer a refuge. If the Allies are defeated it will not be necessary for Germany to send a single battalions across the Atlantic, he declared, for the German orders would be obeyed forever. Civilization would be bankrupt, while Germany, acting as the receiver, would be taken over with the rest of the wreckage.

He said that he does not believe as some do that Germany as a force will

break up suddenly and dramatically. He said that the German people will either be victorious or will bleed to death almost where the battle lines are established today. Therefore, he declared, the allies must continue to pass their sons through the fire to Moloch until the Moloch has perished.

Cost of Living Is Doubled in Berlin

Food Prices Are Going Up Steadily Throughout Germany

London, June 25—The newspaper reader of Canada can gather a very mixed idea as to the real conditions of life in Germany if he reads the various accounts given by neutrals who from time to time come away and give an account of their political experiences.

The following prices are taken from the official Deutscher Reichsanwalt and Statistische Korrespondenz in the case of Berlin, and the weights given according to consumption data, derived from German sources.

Retail food prices in Berlin in March were up 50 per cent, compared with twelve months previously. On potatoes the rise was as much as 180 per cent, on split peas 200 per cent. Other big increases in retail prices were 45, 178

per cent, haricot beans, 102 per cent, and rice, 120 per cent.

The rise in prices of necessities in more common demand were: Rye bread, up 74 1/2 per cent; lard, 72 per cent; eggs, 74 1/2 per cent; eggs, 74 1/2 per cent; rice, 180 per cent. Bacon, as in England was the dearest meat with a 68 1/2 per cent increase. The increase in the price of pork was 48 1/2 per cent; of mutton, 10 1/2 per cent; of beef, 8 per cent.

Veal showed a decrease of 1 1/2 per cent in price. Other low percentages of increase were: Sugar, 8 per cent; coffee, 6 1/2 per cent; milk, 9 1/2 per cent. Butter, however, cost 17 1/2 per cent more. Compared with retail prices of provisions in Berlin during July, 1914, the increase on twenty articles of food was 40 per cent. In March, 1915 since February, 1915 the level of food prices had risen, 5 1/2 per cent in retail prices were 45, 178

per cent, haricot beans, 102 per cent, and rice, 120 per cent.
