**Hurlbut's** are better for the children's health

**SHOES** may determine your child's health in later life. So Hurlbut's are built with absolutely correct shape for the development of little, growing feet. Their flexible soles—absence of tacks and ridges—the ventilated, soft and cosy Cushioned Insole that absorbs jar and jolt—make them "The Ideal Shoe for Children."

Hurlbut's are without doubt the highest quality of children's shoes made to-day—the fact that they cost more per pair is entirely offset by the far longer time they last and keep their shape, and by the comfort and perfect fit they give.

**MATTERS BEFORE HOSPITAL BOARD**

At a meeting of the board of commissioners of the General Public Hospital last night a resolution was passed requiring the presentation of a signed application card before treatment can be given in the out-patient department, as too many patients who can afford to pay receive free treatment. The matter of better fire protection was taken up by Commissioner Thornton and it was referred to a committee on the probable cost as there is no appropriation for such expenditure. Dr. Hedden, superintendent, submitted a report. Alexander McMillan, chairman of the committee to look into the matter of visiting, reported that some changes had been made in the rules.

Miss M. C. Scott, superintendent of

nurses, and Miss Dorothy Hutton, dietitian, also gave reports. J. King Kelley, submitted plans of two lots in Ritchey street which he thought the board should purchase but this matter was left over until the next meeting. Mrs. McLellan spoke of some improvement on the front steps as several people had fallen there.
