In Chancery this morning before Mr. Justice Grimmer the matter of a certain agreement was argued in the case of Colpitts vs. Colpitts, husband and wife, belonging to Albert county. This agreement, it was said, had been entered into between them by which the husband paid the wife \$150 with the intention of its being a separation settlement. The wife said she did not understand it as such and petitioned that the agreement be set aside. A decree to this effect was granted. R. St. J. Freese and G. W. Fowler, K. C., for the plaintiff and J. F. H. Teed for the defendant.

TIMES BETTER HERE.

Rev. George Scott and Mrs. Scott returned this morning from Hamilton, Ontario, where they had been spending their vacation with Mr. Scott's brother, who is mechanical superintendent and constructional engineer with the Canada Steel Company, Ltd. The steel company's plant occupies 800 acres and in normal times they employ about 3,500 men. Now, however, Mr. Scott said, they are scarcely a third of that number and there is a likelihood of further curtailment in the staff in the near future. One of the new communitarians in Hamilton reported that in his district eight out of every ten men were idle. Times in St. John are better than in any part of the west that he could hear about.

**HEN THIEF IS
BEATEN TO DEATH**

Marauder at Chapel Grove Caught After Series of Depredations.

Beaten over the head with a club until life was extinct was the fate meted out to a hen thief at Chapel Grove Saturday. For some weeks farmers have missed valuable hens and scores of young chickens and a concerted effort was made to bring the culprit to justice. The whole matter was enshrouded with mystery as every precaution made by the residents to protect the hens was unavailing. Large and heavy wire were found upturned and setting hens and broods of chickens kept disappearing. At first it was thought that it was the work of a human being, but later evidence pointed to some large animal. Traps were set in and about the place but they did not deter the marauder. Many were found sprung, but no sign of the thief and the mystery remained unsolved. Last Thursday Clarence Edwards lost a setting hen valued at \$20, which he procured in the United States, and with it several chickens. This was the second raid on his henery, although he had surrounded his run with heavy wire netting and placed the hen under a large packing case. He found the case thrown to one side, the hen gone and chickens missing. By following the trail of feathers he discovered that the animal took his prey to a nearby brook there to enjoy his repast with liquid refreshments. He scattered traps in and about the brook, and Saturday morning found that the thief had been caught. It turned out to be one of the largest raccoons ever seen in that district. It had a long and heavy body, and a set of teeth which would make short work of many larger than a hen. When Mr. Edwards approached the trap the animal endeavored to bite him so he took up a heavy piece of wood and killed it. When other countrymen learned that the animal, which had been causing them so much trouble, had been caught there was general rejoicing.

**BRIEF SESSION
OF THE COUNCIL**

**Com. Jones Reports Newman
Brook Excavation Completed—Matter of Traffic Control at Foot of Waterloo Street.**

This morning's committee meeting of the common council was a brief one and only a few matters of routine nature were discussed. The mayor and all the commissioners were present.

Commissioner Bullock reported regarding the application of J. J. Goldie for return of his \$100 deposit on the purchase of the Monahan House in Lancaster. Mr. Goldie contended that there was no driveway. The city engineer reported there was a good driveway on one side of the house. Mr. Bullock's motion that the deposit be returned was carried.

Commissioner Thornton said that a man should be stationed at Brindley street to control the traffic diverted by the closing of the lower end of Waterloo street, while paving is being done in Brussels street.

Commissioner Frink said the concrete work would be done that far today, but the granite block had not arrived.

Mr. Thornton thought that the public works should look after the matter.

Dr. Frink said that similar conditions existed at Bentley street. He said that as soon as the concrete was in the track section, he could have the tracks planked over. He promised to take the matter up with the road engineer.

Commissioner Jones reported that the Newman Brook excavation was completed and ready for the covering that will do away with the Newman Brook bridge. He said the work was done at considerable under the estimate, and there was sufficient money to go ahead with the culvert.

Commissioner Frink thought the excavation should be extended further into the marsh which is drained by the brook. Mr. Jones agreed to have the engineer report on the matter.

Replying to Commissioner Thornton, the mayor said that M. P. Fennell, secretary of the port of Montreal board of harbor commissioners was coming to St. John to talk on the matter of harbor commission.

Adjourned.

**SAVED LIFE AT
BRENNAN'S COVE**

**Wm. Watson Rescued Ralph
Estey, Who was in Serious
Trouble.**

It is reported that drowning accident was narrowly averted at Brennan's Cove, opposite Green Head, St. John county, yesterday when Ralph Estey of Pokokot got beyond his depth and found he could not reach shore unaided. William Watson, also of Pokokot, swam to his rescue and brought the lad ashore and he soon recovered his strength and was able to go home.

It appears that young Estey, a lad of nine or ten years of age, was learning to swim and was taken out in a boat some distance beyond his depth. Under the impression that he could swim the distance to the shore he jumped over the side of the boat and started for the beach. Soon, however, he found himself almost exhausted and called for help. Watson, hearing his cries, swam swiftly to him, reaching him after he had gone down twice and assisting his ashore. After a little while he was able to go to his home little the worse for his experience. Watson was much commended by bystanders for his bravery.
