Where Shall I Invest My Money?

This is a question that often bothers us when we have any surplus money. Some people are born rich and do not have to provide for independence, others are looking for investments that will bring them in good dividends. The Silver Black Fox Industry in P. E. Island has made thousands of investors wealthy. In 1913 alone, 30 companies paid to their shareholders an average cash dividend of 105 p. c. Is there any other industry that would do this? 1914 dividends will be even greater than before. Now is the time to invest. Send in your application today to the St. Lawrence Silver Black Fox Co., Ltd. Head Office—Charlottetown, P. E. Island

Sharpe & Son Jewelers and Opticians 21 King Street, St. John, N. B.

THE HISTORY OF THE INDUSTRY

If you inquire, you will find that the majority of rich men in P. E. Island have made their money in the Fox industry, which, while yet in its infancy, shows the probability of making a great many more rich men. This being the case, you should not let this opportunity of increasing the earning powers of your money pass without giving it your careful consideration. Directors ALL Reliable Men This is a most important feature when you consider that these are the men that you must look to for a square deal. Read the list over carefully and you will certainly conclude that an investment here is as safe with better prospects than money in the bank. This Company has only a limited amount of stock for sale. Secure yours today. This is a gilt-edge proposition.
