**MONEY IS TO FLOW IN**

**Million Outside Capital for Property Here, is Prediction - Courtenay Bay Sales**  
 The general interest in real estate investments in this city is shown by the readiness with which the first Courtenay Bay lots which were put on the market yesterday are being taken up. In the past it has been said that local citizens were the hardest to convince of the future prospects of the city, but there are very few doubters left; and the willingness to put up their money is the best test of the faith of the local people.  
 The first subdivision to be offered here is the Courtenay Bay Heights, owned by the Montreal syndicate. An attractive looking map shows a well laid out section with streets six to eight feet wide, and fifteen foot lanes at the rear of each street. It is the declared intention of the owners to open \$100,000 this spring in laying out the streets. They will also act as a development company and will erect buildings on the lots.  
 D. B. Donald, acting for local men who hold certain properties, left for Montreal last evening in response to a visit from a group of capitalists who are anxious to buy St. John property.  
 Men with money to invest in St. John have been found in Montreal, Toronto and Winnipeg, and it is only the beginning. Some of the men in touch with the turn of affairs are confident that a million dollars of outside money will be invested in St. John and the vicinity within the next month or two.  
 Since the sale of lots opened yesterday afternoon, \$50,000 worth have been disposed of to local purchasers.
