BILL HEAVILY BOMBARDED IN COMMITTEE

Continued from Page 1.
city bills were ready for consideration, adding "these are not contentions," C. J. Morrissey, M. L. A. for Northumberland, remarked "Who made that mistake?"
The committee room rocked with laughter following this interjection.
SIMONDS SEVERAGE.
The committee considered the bill relating to sewerage in the Parish of Simonds. Reporters Taylor was in opposition and Commissioner Wigmore in support. The bill was taken into private consideration.
The committee considered the bill to amend the Municipalities Act re: County of Warden. The bill was heard in support which was referred to private consideration.
TWO AGREED TO.
The committee also considered the bill relating to the Saint John Assessment Act and the bill relating to Saint John debentures and the bill relating to property of inmates of the Saint John Municipal Home, which were agreed to.
The bill relating to town of Hartland assessment stands for further consideration.
The committee also agreed to a bill relating to city of Fredericton assessment, a bill relating to building restrictions in the city of Fredericton and the bill relating to Saivage Corps and Fire Police in the city of Fredericton.

Here With Horses To Sell in Nova Scotia

Each bringing a carload of horses from Alberta, A. E. Armstrong of Medicine Hat and J. D. Marr of Calgary, arrived here this morning over the C. N. R. on their way to Nova Scotia, where they expect to dispose of their horses.
Mr. Armstrong said the last winter had been very hard on cattle in Southern Alberta. During January there had been a thaw and when the cold returned the grass was coated with ice so that the cattle could not dig through to the grass, on which they feed during the winter. Thousands of cattle and horses had died and the farmers and ranchers suffered heavy financial loss.

TO END TODAY

The X ray demonstration at the General Hospital will come to an end this afternoon. Dr. A. S. Kirkland said this morning that it had been most successful and those attending had received a great deal of very valuable information on radiographic work.

Notices of Births, Marriages and Deaths, 50 cents.

This Photo Was Sent By Wire

Dorothy Ellingson, her father and brother (left to right) in court in San Francisco where the girl's sanity is being tested following the murder of her mother. The picture above is the first ever sent commercially over a wire and marks the beginning of a new era in transmission of news pictures. It was put on the wire at San Francisco by N.E.A. Service and relayed to Cleveland and New York by the American Telephone and Telegraph Company. A photograph is filed and sent in the same manner as one files a word message. Thus it is possible to print in New York a picture on the same day the photograph is made in California.

Eight Years Ago Today Canada Won Fame on Vimy Ridge

Eight years ago today members of the Canadian forces in France were engaged, along with other allied troops, in the great drive which resulted in the wresting of the heights of Vimy from the grip of the Germans. The battle was one of the fiercest of the Great War and the fact that Canadians bore the brunt of the attack and were successful in reaching the objectives named for them, won lasting renown for Canada.
Many Canadians lost their lives in that great battle and the anniversary of the battle of Vimy Ridge, April 9, 1917, is a date that will always have an important place in the history of the Dominion.

WEST INDIES CONFERENCE OTTAWA, April 8.—The Canadian West Indies conference, with a view to arranging a new trade and transportation agreement between these countries, will be held in Ottawa on June 19 next.

COMES HERE TO WED Thos. Owens of Winnipeg to Meet Bride, Passenger on S. S. Montrose.

Thomas Owens, of Winnipeg, arrived in the city last evening to meet the prospective Mrs. Owens, who will reach the city on the Montrose on Saturday. The wedding will take place immediately on the arrival of the steamer and they will leave on Saturday evening for Winnipeg.
Mr. Owens, who is a railroad man with the C.N.R., said this morning that this was his first visit to the Maritime Provinces, but he did not think it would be his last, as he had been charmed with the country and proposed coming here later in the season.
Conditions in the west, he said, were just about the same as here, but on every hand there could be seen signs of improvement.
He predicted a bumper crop and said the acreage planted to grain would be in excess of last year. In Manitoba there had been quite an increase in the acreage of flax and this was becoming one of the principal crops of the province.

MANLESS AIRPLANES FOR THE NEXT WAR

France Experiments With Monsters Controlled by Men on the Ground.
LONDON, April 8.—Robots of the air are foreseen here as a part of the next war.
The spectre arises out of France's experiments with manless aerial machines. The specialists visualize the eventual evolution of a weird craft like a metal flying-fish, with as many as six circular, staring "eyes" or glass. A ground operator will "steer" this canny machine by wireless, exactly as though he were sitting up aloft within its hull. When he moves a lever at the ground station, the "robot" in the air will move precisely as though a human hand had made the requisite movement in its cockpit.
The "eyes" of the machine will focus on photo-electric cells, which become conductors of electricity when light is shining on them, according to the experts' reported plans. Whatever the machine thus "sees" will be transmitted by wireless, and reproduced upon similar screens in the distant land-locked station.
Aeronautical circles here already are picturing a battle of two such craft. They portray the machines wheeling and manoeuvring for position, their automatically-controlled guns opening fire, and one of them crippled and shot down in a bloodless victory. A crash, but nobody hurt, and no parachuting! Altogether, British aviation students are being led by their French friends across the Channel to believe that the next war will be the most uncanny business the mind of man has ever conceived, with Frankenstein monsters rushing across land and sea and whirling at vast heights through the sky.

KLAN ORGANIZER IS HELD FOR ATTACK

Girl Accuses Former Dragon on Five Charges of Alleged Assault.
INDIANAPOLIS, April 7.—D. C. Stephenson, former grand dragon of the Ku-Klux Klan in Indiana, was indicted on five charges of conspiracy with an alleged attack on a Madge Oberholzer, of Indianapolis. Indictments also were returned against Earl Kinck and Earl Gentry, said to have been companions of Stephenson.
Stephenson gained prominence as organizer of the Klan in 21 Northern states.
The grand indictments charge Stephenson with assault and battery, with intent to kill assault and battery with intent to rape, malicious mayhem, kidnapping and conspiracy to kidnap Gentry and Kinck, who are charged with conspiracy to kidnap, and with conspiracy to kidnap.

COOK OFF TO PRISON

FORT WORTH, Tex., April 8.—Dr. Frederick A. Cook said an revolver, but not good-by, to Fort Worth.
"I'll be back some time," the physician-explorer-writer-oil promoter convicted told friends who saw him depart for Leavenworth prison. "Texas has been the scene of my bitterest trouble, but I plan to make it my home and practice medicine here when I am free again."
His departure to serve a sentence of fourteen years and nine months for fraudulent use of the mails terminated his stay of more than sixteen months in the Tarrant County Jail.

Chicago Elevator Youth, 21, Will Wed Iowa Poetess, 50

British United Press.
CHICAGO, April 8.—Against a tropic background of massive ferns and fragrant Easter lilies in the conservatory of a Chicago public park, Mrs. Ida Campbell, fifty years old, will Saturday wed the bride of 21-year-old James Weaver.
Mrs. Campbell, writing under the pseudonym "Dilly," became widely celebrated 19 years ago as a poetess in her home city of Des Moines, Iowa.
Young Weaver, now employed as a developer in a top office building, has wandered about the country playing the clarinet in bands.
The romance of the couple began five months ago when Weaver arrived in Chicago and rented a furnished room at the home of the quiet little blonde widow. "It was a joke, at first," he said. "Miss Campbell writes poems, that's how we became interested in each other."

SERVICES OF HOLY WEEK ARE BEGUN

Priests From Outside City Come to Cathedral For Special Ceremonies.

The special Holy Week services at the Cathedral were begun last evening with the chanting of the Te Deum. This morning pontifical mass was celebrated by His Lordship Bishop LeBlanc who also blessed the oils that will be used by the priests of the various parishes in baptism and extreme unction during the next year. The Blessed Sacrament was borne in solemn procession to the repository in the Virgin's Chapel there, to remain until the mass of the Pre-Sanctified on Good Friday.
Visiting Priests.
There was a large congregation at mass this morning and the ceremony was very impressive. His Lordship Bishop LeBlanc was assisted by Rev. Fr. Guerin of St. Joseph's University as high priest; Rev. William M. Duke as deacon, and Rev. Simon Oram of Riverside, as sub-deacon. Deacons of honor were: Rev. F. F. Walker of East St. John, Rev. Joseph B. Ward of Sussex, Rev. Harold L. Coughlan of St. Martin's, and Rev. J. E. Brown of the Cathedral. Rev. W. Holland of St. George's, Rev. Henry Cormier of Moncton, and Rev. Miles P. Howland of Kingsclear are also here for Holy Week.
At St. Peter's.
The commemoration of the passion was also begun in St. Peter's church last evening. The Matins and Lauds of the office were chanted, and the choir assisted in the Te Deum service.
