

## PEARS.

Dr. BEADLE, Chairman of the Committee on the revision of the Pear Catalogue, presented the following Report at the annual meeting at Peterborough, and it was adopted.

This rating is solely for the use of Judges at Exhibitions, and not intended to be in any sense a guide for planters. In the rating here given the specimens of the several varieties are supposed to be perfect, free from the larvæ of the codling moth, from scab spots, curculio, indentations and all blemishes. Any specimens falling below perfection should be rated by the Judges at some figure less than the figure here given for perfect specimens, according to the degree of imperfection manifest in the specimen under consideration.

D. W. BEADLE,  
GEO. W. CLINE,  
W. H. DEMPSEY, } Committee.
