that of fruit? We know soils affect the On All Subjects of Current Note flavor of fruits and vegetables. Sir Walter Scott's excuse for making the ife of Napoleon so long was that he did not have time to make it shorter. An agricultural professor ought to be able

to understand a problem in agriculture with-out first translating it into a dead language and then translating it back into English. THE DAIRY.

arrived at Cheago for exhibition at the Columbian fair is a milking machine from Statement of the City of 175fr.

It is believed that the world's populavacuum principal, and when adjusted to the cow the milk flows in a continuous stream.

The machine does the work without assistance.

The apparatus is said to be the first one ever throught to the control of the cont

has been long ago demonstrated." From the principal on which it works, and the pumps and pipes which it necessarily requires, we have no such good opinion of it. If we had named Hare, and the present one, a lady

They had just dined, and the host hands have no such good opinion of it. If we had one of those cows that wor't dry off we might try this machine on her, feeling assured that it would be effective for this purpose. The London Dairymen's Journal does not seem to London Dairymen's Journal does not seem to the London Dairymen's Journal does not see have a very high opinion of it when it says:
"It appears to please the cult of the dairy
"It appears to please the cult of the dairy udges and has been awarded a medal, but it

use. Some day the miking of cows by other methods than hand milking may be discovered, but this bemedaled machine is certainly not the desiratum. We saw a poor cow pumped with it, and after the machine had from 78 to over 100.

His own camel there that screwed its mouth and eyes around awfully; and sister said it looked experience is, that sipping half a wine glass of cold water will raise his pulse from 78 to over 100.

Prevention is better than cure; take fore-thought.

Often the shorter article is worth the more money.

Feed onion to your hens and it will flavor the eggs.

Skimmed milk is good bone and musclemaking food.

Bees can feel a vibration if they cannot hear a sound.

The more birds in the orchard the more perfect apples.

Every taithful worker is helping to better the world.

The more birds in the orchard the more perfect apples.

The deprivation of exercise, is not disease. That, from such an atmosphere healthful milk can not be gathered. Nothing is quicker to gather disease germs from the air than the pride-type of the period of her usefulness and render her milk unwholesome. The deprivation of exercise is true, but still only one of a long series. We repeat that out-of-door exercise, sunlight and pure air are absolutely essential to the making food.

Bees can feel a vibration if they cannot hear a sound.

The more birds in the orchard the more perfect apples.

Every taithful worker is helping to better than cure; take fore-thought.

The deprivation of exercise is turn, but still only one of a long series. We repeat that out-of-door exercise, sunlight and pure air are absolutely essential to the particular to the faults, but in all her virtues. Don't let your city cousin hear you use bate English, or speak with a twang. - Don't let your city cousin see you over a sected some two years ago, near Bala, Noath Wales, where the Queen and Princess Beatrice visited. About 200,000 gallons of Welsh whisky are already in the hands of various merchants all over England and Wales, so it will be possible for the many lovers of the most popular applied to the many lovers of the most popular and the country girls and country flowers are not a hothouse of the city.

The distillery, a very fine building, was rected some two years ago, near Bala, Noath Wales, where the Queen and Princess Beatrice visited. About 200,000 gallons of Welsh whisky are already in the hands of various merchants all over England and Wales, so it will be p

months. If ever a fair and rigid inspection of dairy cattle is made it will be found that a very large per cent. of the diseased cows are located in just such stables. This has been located in just such stables. This has been considered in just such stables. This has been located in just such stables. This has been located in just such stables. This has been so with tuberculosis and by the time the winter is over the germs of the disease will have been inhaled again and again by every other cow in the the winter and that a day's invalid the the lady's invalid thild at night I never should have ment for it is true, then, that if my dog had not disturbed that lady's invalid their day's invalid that aldy's invalid that lady's invalid their day's invalid that lady's invalid th

When the birds do not get the insects take the fruit.

Common sense is against the practice.

It as packing of the modern creameryman, an exchange says: "No man in the whole the room allotted them.

The size of the flock should be adapted to the room allotted them.

Fovis are good in an orchard, but don't let them roost in the trees.

Without the atoms there would be no molecules. Save while we may.

Pleasant surroundings favor the maintenance of a pleasant disposition.

In looking after the well-being of stock, don't overlook that of the family.

Skimmed milk is not a bad summer diet; it answers for both food and drink.

Writers could often improve their productions by using fewer words and more ideas.

Turnips are natural food for sheep, but nature does not grow them without cultivation.

By washing sheep no more is received for the wool, and all the labor, etc., goes for nought.

The greatest recompense for work lies in the development secured in conscientions by using sheep no more is received for nought.

The greatest recompense for work lies in the development secured in conscientions with the state of the development secured in conscientions with a great deal depends of the advertise-name that which the advertise-name that he development seemed to do not acknowledge that advertise-name the supplied with brass mediate from the manter of cattle than he who is where he can meet seel patern over gdy in the year. In deed the model creamery manager must be an altorud not element to fulfil his mission in the highest manner. Such a manager in the manter of such that of the family.

We see it stated that Signal's Lily Flagg, which recently completed the phenomenal record of 1,047\(\frac{2}{2}\) pounds of putter in a year, with 850 pounds. She made 197\(\frac{2}{2}\) pounds of grain besides hay and passion the formal pounds of the trees.

Turnips are natural food for sheep, but mature does not gr The greatest recompense for work lies in that gives two pounds of butter where only a the development secured in conscientiously half pound was given before."

The young maidens who trip gaily with their skipping ropes will probably be livrets, without which they are not worth

For Impoverished Blood. Plant a patch of pop-corn for the children. The parents may enjoy it too. Yellow rice is best.

Botany in the field is interesting after you learn the terms; in the text it is a dry, memorizing task.

We are told that one of the first things raised in the world was Cain. It has proved productive.

For Impoverished Blood.

B. Jardine, North Sidney, C. B., writes:
"I suffered from weakness and impoverished blood, and only found relief in Pink Pills. I heartily recommend them." All dealers or by mail at 50c. a box or 6 boxes for \$2.50. Dr. Williams' Med. Co., Brockville, Ont., and schenectady, N. Y. Beware of imitations.

Fagle—Hello, Cumso! what's in the wind to-day!

pumped with it, and after the machine had finished her off, her drover milked a pailful out of her without any trouble.' Finish her off with it a few times and a very small pail will hold her mess of milk.

Exercise the Cows.

We are in accord with the Jersey Bulletin on the question of no exercise of cows. "The objection that we urge against close confinement is that it tends to impair the healthfulness of the cow, shorten her life, curtail the

milk can not be gathered. Nothing is quicker to gather disease germs from the air than Prisms in the windows fill the room with fesh milk. And we can think of no more effective place for poisoning milk than the foul and fetid air of a stable, recking with the fifth and effluvia exhaled from the lungs, skin and Don't set the posts too far apart in making wire fence.

In a Bohemian village a couple were married on the same day that the bride-groom's parents celebrated their silver medding and his grandparents their and effluvia exhaled from the lungs, skin and excreta of a score or more of cows for six months. If ever a fair and rigid inspection of dairy earther is made it will be found that a should have given up the profession of arms to become a a minister; if I had not met a certain lady I never found that a should have given up the profession of arms to become a a minister; if I had not met a certain lady I never found that a should have given up the profession of arms to become a minister; if I had not met a certain lady I never found have known that present if I had not met a certain lady I never found have known that present if I had not met a certain lady I never found have known that present if I had not met a certain lady I never found have known that present if I had not met a certain lady I never found have known that present if I had not met a certain lady I never found have known that present if I had not met a certain lady I never found have known that present if I had not met a certain lady I never found have known that present if I had not met a certain lady I never found have known that present if I had not met a certain lady I never found have known that present if I had not met a certain lady I never found have known that present if I had not met a certain lady I never found have known that present if I had not have known that present if I had not

Your boy has an excuse for following your bad example.

There is such a thing as overdoing—unnecessary medling.

We are apt to be too suspicious, and thereby do injustice.

Khad words reach the heart without the process of digestion.

July chickens find a good market in that he does exert in the course of the day an anomnous amount of muscular force, but in that he does exert in the course of the day an enormous amount of muscular force, but in the way of exercise, no. We do not know what friend Crosby feeds his cows on but it was a july chickens.

Be punctual and save your own time as well as that of others.

It Brought Back The UmBrellas.

A man was denouncing newspaper advertising to a crowd of listeners.

Last week, said he, 'I had an um brella stolen from the place provided for them by the side of my pew at church. As a mathematical fact it may demonstrate that he does exert in the course of the day an enormous amount of muscular force, but in the way of exercise, no. We do not know what friend Crosby feeds his cows on but it as be monstrous tough chewing if it gives them all the exercise they need. The assertion that there are no facts in favor of giving the first of the course of the day and is exclusively reserved for official announcements.

Special permission is required to give an assault-at-arms, but nothing is said about premission to fight a duel. If anyone comes them by the side of my pew at church. As a mathematical fact it may demonstrate that week,' said he, 'I had an um brella stolen from the place provided for them by the side of my pew at church. As a mathematical fact it may demonstrate that week,' said he, 'I had an um brella stolen from the place provided for them by the side of my pew at church. As a mathematical fact it may demonstrate that week,' said he, 'I had an um brella stolen from the place provided for them by the side of my pew at church. As a mathematical fact it is used unvertising to a crowd of listeners.

'Last week,' said he, 'I had an um brella stolen from the place prov
