Remember, that if each one of you will just do a little towards this job of moving it will be light on all of us.

Dominion Organizer Wilson addressed a good audience at this place recently, which surely opened the eyes of both farmers and laborers of the methods by which they are being separated from the fruits of their toil by the capitalist system. At the close of the meeting, preliminary steps were taken to form a S. D. P. Local at this place. Thinking caps have been in great demand here since Organizer Wilson's visit. We will no doubt organized earlier the place of taking an active

SECRETARIAL

For the benefit of those locals not fami-iar with the organization, who have writ-en in for information, we desire to soint out and make the following short

In 1910, Local No. 24, Toronto, S. P., of C., seceded and became the necleus of what is still known as the S. P. of N. A. This organization, although in existence these four years, still consists of one local, and can be located at 185% Queen street West.

Their Press Committee drew up a set of resolutions setting forth the position and manifesto of the party, which we understand was denied space in the "Western Clarion," the party organ of the S.P. of C., hence the request for addresses.

E. Winch, secretary P. E. C., B.C., in his quarterly report, shows 450 members in good standing, a decrease of 225 since last report, which would indicate that one-third of the members are out of work and unable to keep up their dues. This report is for the English locals only, placed to the standard of the english locals only, placed to the english local to the english locals only, placed to the english locals only placed to the english locals only placed to the english locals only placed to the engl

J. W. Alquist, in his quarterly report for the Finnish comrades, shows 8,251 members, of which only 1,880 are in good standing. This would indicate a very large percentage of unemployed; 264 business meetings and 182 propaganda meetings held; stamps purchased 5517.40; assessment stamps for organization \$273.70; special assessment, \$330.62; supplies purchased, \$134.15; literature, etc., \$1,116.33; contributions, \$710.73. Total, \$3,118.93.

The Finnish comrades are active proga-andists, and on the day of the revolu-ion will not be found wanting

The German comrades of Montreal report that they are being rounded up by the authorities. These comrades, although born in the Fatheriand, are peaceable citizens, glad that they are away from the scene of hostilities, deadly opposed to war. We can assure the Canadian authorities they need have no fear of these German comrades.

Local Brockville has come to life and renewed energy. They more than cleared expenses at the initial meeting of Grace V. Silver.

The Jewish comrades of Toronto re-cenlly had Prof. W. H. Barnard, of Chicago University, for a Friday and Saturday night meeting. Toronto com-rades are preparing for the municipal campaign.

Local Berlin hold meetings every Sunday at 7 p.m., at 55 King street East. A program has been prepared for the winter, extending into May. "Trusts and World Markets," "Organized Labor and the Class Struggle," "Fendalism and Feudal Wars," "Socialism and Science," "The Materialistic Conception of History and its Critics," "The Class Struggle and Its Critics," "The Nature of Progress," "The Purpose of the Socialistic Party," are a few of the inany subjects to be under discussion.

Comrade Grace V. Silver concluded her Canadian tour at Toronto on Nov. 14 and at Port Arthur on the 21st and 22nd. This comrade has just completed a tour Free to All Su

Twenty-seven of the twenty-nine were hall meetings, covered by either a collection or a small admission fee. Another noticeable feature was that with the exception of one street and one sgrall meeting the receipts were sufficient to cover all expenses. The financial results ranging from breaking even, some showing a balance of three and four dollars, to as high as twenty five dollars to the good.

high as twenty-five dollars to the good.

Comrade Silver's talks were clean cut and to the point. Her analysis of the cause of the war was in keeping strictly with Marxian Socialism. Her sarcastic comment on the roll played by the Christian church, Imperialism, and the hypocritical neutrality maintained by the United States, evidently stung deep with an occasional one present.
