Canadian Manufacturers As- Voting Will Take Place on New Rails Laid on Over 1,200 Miles sociation Will Urge Annulment of Law

Toronto, Nov. 1 .- F. W. Wegenast, for Vancouver, where he will represent the manufacturers before the commislaws. He is instructed to urge particularly the annulment of the British Columbia Companies' Act, which the assoclation regards as a most drastic piece of legislation, tending to injure interprovincial trade to a great needless extent and thus being detrimental to the general interests of the Dominion.

MCNAMARA TRIAL.

Only Ten Veniremen Remain Out of New Panel of Forty.

Los Angeles, Cal., Nov. 1.-Ten venfremen out of a panel of forty sum moned in the McNamara murder trial, remained when Judge Bordwell finished their preliminary examination to-day. The others presented excuses which the court considered valid, especially in

view of the probable length of the trial. Three veniremen remained from the preceding venire. Almost immediately after the opening of the regular court Rowe Holland, is preparing a series Your letter of yesterday in regard to ression, District Attorney Fredericks of articles on the western Canadian the voters list is duly to hand. withdrew opposition in the present state to the defence's challenge against Thomas E. An Innovation in Oil Heaters

The Perfection Smokeless Oil Heater, with its drums enameled in turquoise, is an ornament to any room, whether in the country or city home.

No home is quite complete without a Perfection Oil Heater. It is a necessity in the fall and spring, when it is too warm to start the regular heating apparatus, and too cool to be without heat. In the midst of winter it is often convenient as an auxiliary heater, as there are always some cold corners in a house.

The enameled heater always presents a nice appearance, as the enamel will not tarnish or burn off. It is not an "enamel paint," but it is the same as the enamel of your cooking utensils.

The Perfection is the most reliable and convenient portable heating device you can find. An automatically-locking flame spreader prevents turning the wick high enough to smoke.
