apparent that the fire was of incendiary origin. The St. Eugene mine and mill will have to be closed down for several months, as it will be impossible to erect w being constructed by the C. P. new buildings and provide new machinery in less time. The direct loss to the company in buildings and machinery will be in the neighborhood of \$30,000, but 's Bridge for a distance of forty
At the present time they are just
and as many men as possible will be embut the timbers are burned from the top to about half way down, and will have to be replaced. There is unmistakable evidence that the fire was of incendiary

origin. Two men went through the buildings and carefully examined everything ten minutes before the fire broke out. When they were in the building there was not the slightest indication of a fire anywhere. That the buildings should be in a blaze within ten minutes of this visit is remarkable, and only explicable upon the theory that the fire was started by some miscreant, who had been watching his opportunity. Forty gallons of oil was created in the control oil was created in the control of oil was created in the control oil was created in the con of oil were stored in the part of the buildings where the fire broke out, and undoubtedly someone must have set fire first saw clear evidence that such had been the case. Oil had been deliberately and, as it appears to be on the same been the case. Oil had been deliberately lead as the l. X. L., that is proof of the spilled on the floor and was then all

VANCOUVER NEWS.

Twelve Year Old Boy Crushed to Death -The Northern Telegraph Line.

The regular meeting of the Ministerial Association was held on Monday, Rev. W. E. Prescott, the newly-elected presipointed to report on the feasibility of holding union services in different parts of the city on Thanksgiving Day, which falls on the 26th of this mouth. The committee will report at an adjourned

ber of the tidal survey branch of the de-

ny's property at Quilchena they have cipality of South Vancouver. The boy its owners as to the ultimate success of some 700 tons. The Last Chance pany's property at Quilchena they have been doing considerable development was amployed on the farm, and when bringing home the cows was prompted by this cariosity to inspect an overshot water couver on my way to Victoria, I saw Mr.

T. J. Smith, one of the head officials of the company, and he said they were thoroughly satisfied with what had been done, and expected to proceed with regular coal and shafts were sunk to bed rock on the mining very shortly.

"Proceeding to Bear Creek, on the Full of the wheel and the frame. Life tween the wheel and the frame. Life was extinct. It is presumed that in look-Law & Armstrong, of Vancouver, the ing into the machinery, the wheel startwagon road to the property which has ed, dragging him in. No one was near when the accident occurred. Report was made to the coroner, Dr. W. J. Me-Guigan, who decided that an inquest was well two ago. On completion of the road, they will get in machinery and supplies, so I

J. E. Gobell, who left last spring on 000 in the erection and operation of their mountain, a few miles from Phoenix. In am told, and continue development all an inspection trip of the Dominion telegraph line between Ashcroft and Dawson, returned on Sunday. He was maksoil, returned on Sinday. He was making record time along the line, when he met with the accident on June 24th, in which he broke a leg in two places.

After spending a couple of months in the hospital at Hazelton, he went on to Dawson, and came direct from there to Various that this properties above and below have been exploited sufficient to determine their values, it is only reasonable mine their values, it is only reasonable to suppose that this property carries the he B.
