Table with columns: Leave, Arrive, Detroit, Chicago &c.

This makes the connections and routes with early morning trains for points in Michigan, Ohio, Indiana, and West, North and South-west.

NOTICE. Notice is hereby given that a Bill will be introduced at the next session of the Legislature of New Brunswick.

WANTED. A second class female teacher wanted to teach in district No. 9 Parish of Atwick, New Brunswick.

Cook's Cotton Root Compound. It is especially used monthly by over 2,000,000 ladies.

NOTICE. Notice is hereby given that the Maritime Fish Producers' Association, Limited, propose building blocks on the south side of the Miramichi River.

NOTICE. The Maritime Fish Producers' Association, Limited, propose building blocks on the south side of the Miramichi River.

BUILDING STONE. The subscriber is prepared to furnish, for building and other purposes, all kinds of stone.

Miramichi Advance.

CHATHAM, N. B., MARCH 30, 1899.

At last accounts, the House of Commons was still discussing the address in reply to the speech from the throne.

Mr. Hazen was somewhat illogical as well as unjust in the legislature on Thursday last in denying to the Government the credit of the advantageous loan effected by Provincial Secretary Tweedie last winter.

Mr. Hazen will admit, however, we think, that the solvency of individuals or governments seeking loans—their management of the business under their control—has much to do with the terms on which they can borrow.

By the way—People who read the meaningless resolution in reference to certain bridges in the province, of which Mr. Hazen gave notice the other day in the legislature, are wondering if that is the course he thinks the public will be satisfied with after his long letter in the press just after that humiliating fiasco known as the Moncton Convention.

pounds of quartz taken out of one vein by Mr. Humble of Stanley a few months ago having been sent away for crushing, and yielding \$170 per ton in current and uncontracted, public attention is directed to the fact that in May 1891 Dr. Bailey, of the New Brunswick University—a high geological authority—read a paper before the Royal Society, in which amongst other interesting statements based on scientific observation he said:—

"A second locality which has been mentioned as probably gold-bearing is that of the valley of the Nashwaak river above Stanley. Here the general aspect of the rocks recalls portions of the auriferous coast-belt of Nova Scotia. Black, pyritic slates constitute a noticeable feature, and with these, especially well exposed, there are also abundant, though little has been done to test their character. The rocks from a portion of a belt extending across a large part of the breadth of the province, and at various points exhibit like features. The resemblance of the New Brunswick rocks to the districts described (Nashwaak Valley, Tobique region, St. Stephen) to those of the coast belt of Nova Scotia is so marked that it is not surprising that both are alike gold-bearing, even had not the previous metal been proved to occur in the former as well as in the latter. It is therefore highly desirable that further efforts be made of a systematic kind and by competent explorers, to ascertain to what extent the auriferous quartz lodes of New Brunswick, and if possible to make the basis of profitable mining. The fact that the rocks are believed to be rocks of equivalent age is also sufficient in Nova Scotia, in the New Brunswick and in Quebec, and in more remote regions, gives great encouragement to the belief that the probabilities referred to will eventually be confirmed."

Owing to the recent discoveries, hundreds of acres are being secured at the Crown Land office, Fredericton, under the mining act, and prospectors by the thousand will soon be going over them. So many are the applications and promising the outlook that the government has proclaimed the region a gold mining district under the act, and New Brunswick's Klondike is attracting great attention.

The Globe, which is unreasonably favored by the Post-Grand Moncton Convention policy says:— "There is nothing very remarkable in the Local opposition platform, and explanation of several of the planks will be necessary to make it clear where a government led by Mr. Hazen would act in a different manner from the government led by Mr. Emmerson and the requirements of the public."

What a difference access or defeat makes in the faith of such papers as the Globe! But it will go on endeavoring to undermine Mr. Emmerson's government all the same.

The usual formalities connected with the organizing of a newly-elected legislature were observed at Fredericton on Thursday last, Chief Justice Tuck swearing in the members of the House of Assembly.

Lieut. Governor McClellan proceeded to the Legislature at 3 p.m., with Sheriff Stealing and Coroner Coulthart as vanguard, and was escorted in uniform by the usual militia officers in uniform.

A guard of honor received him in front of the Parliament building and a salute was fired from the cannon stationed on the river bank. The galleries were crowded chiefly by ladies, many of whom, however, appeared to have left their good manners at home, for they talked audaciously loud while the Speech was being read and other opening proceedings conducted to such an extent, at all events, to render at times so far forgetting themselves.

His Honor having retired to the House to elect a Speaker, retired temporarily whereupon—

Hon. Geo. F. Hill Charlotte County's veteran representative, was on motion of Premier Emmerson, seconded by J. Douglas Hazen, leader of the Opposition, unanimously elected Speaker, and having, in a most felicitous manner expressed his thanks was heartily congratulated on the honor conferred upon him.

Then, His Honor, Governor McClellan, re-entered the chamber read the following SPEECH.

Mr. Speaker and Gentlemen of the Legislature Assembly: It gives me great pleasure to welcome you as the Peoples' Representatives, returned at the recent General Election.

We have great cause for thanksgiving that the many blessings which our people have in the past enjoyed are through the mercies of the Lord preserved to us in this new Parliament. You are already aware that since the last Session of the Legislature Her Majesty has been pleased to appoint me Governor-General of Canada. I am sure that you will join with me and the people in extending the warmest and most cordial greetings to His Excellency, in whom we shall, I feel assured, find a constitutional and able successor to the late Lord Minto.

The expressions of welcome which we so warmly receive from the members of the Legislature, and which we experienced at the departure of the Earl of Aberdeen, whose untiring zeal and devotedness to the service of the people of Canada, signally characterized his administration and served in a marked degree to cement the bonds which unite us to our people to the Empire.

It is a source of regret that the late Lord Minto, during the past year, Trade and Commerce, and the extent to which the Dominion of the Empire has been extended throughout the Empire and the World, the courage the trust that there will be no less a devotion to the service of the people of Canada, signally characterized his administration and served in a marked degree to cement the bonds which unite us to our people to the Empire.

The efforts already put forth by my Government, to stimulate and advance the Agriculture of the Dominion, and to have been fraught with such favorable results, that further advances in this same direction are earnestly desired, and will be presented to you propositions to develop and promote that branch of animal husbandry which has so long been the glory of the Dominion, and which has so long been the glory of the Dominion, and which has so long been the glory of the Dominion.

The efforts already put forth by my Government, to stimulate and advance the Agriculture of the Dominion, and to have been fraught with such favorable results, that further advances in this same direction are earnestly desired, and will be presented to you propositions to develop and promote that branch of animal husbandry which has so long been the glory of the Dominion, and which has so long been the glory of the Dominion.

The efforts already put forth by my Government, to stimulate and advance the Agriculture of the Dominion, and to have been fraught with such favorable results, that further advances in this same direction are earnestly desired, and will be presented to you propositions to develop and promote that branch of animal husbandry which has so long been the glory of the Dominion, and which has so long been the glory of the Dominion.

gratified to learn that my Government has the strongest encouragement to hope that a speedy and satisfactory settlement will be effected in the near future.

It is, in the estimation of gentlemen of the Eliastamp, highly improper for statesmen who are politically opposed to personally associate. It is probable that Sir Wilfrid will never be forgiven by Mr. Ellis for doing so.

Mr. Ellis was not quite right either. Mr. Ellis was also invited. Still, our Ottawa advice is that the ex-postmaster is not without his consolations at the Dominion capital, hence his depreciation of references to "the proceedings and performances of the individuals."

A Judas Kiss. The Globe, which is unreasonably favored by the Post-Grand Moncton Convention policy says:— "There is nothing very remarkable in the Local opposition platform, and explanation of several of the planks will be necessary to make it clear where a government led by Mr. Hazen would act in a different manner from the government led by Mr. Emmerson and the requirements of the public."

What a difference access or defeat makes in the faith of such papers as the Globe! But it will go on endeavoring to undermine Mr. Emmerson's government all the same.

would have given the people a secret ballot and that would have enabled employees, especially government employees, to vote without such shameful intimidation and coercion as had prevailed in St. John, Moncton and other places. He hoped that in future all public works would be let by competition. Referring to the recent election, Mr. Hazen contended that while the government had won a sweeping victory, the number of seats adequately represent the proportion of votes polled by their candidates. The effect of the Moncton convention was good for no other reason than that it aroused an interest in provincial affairs that had not been taken for many years.

THE OPPOSITION PLATFORM. Mr. Hazen's platform in relation to the opposition in the present house would take its stand upon lines like these:— (1)—Such amendments in the election act as will secure a secret ballot so that no elector will be obliged to vote according to the dictates of their conscience and judgment without fear of intimidation or coercion.

(2)—That in the event of the construction of any public work be entered into by the government for the same be first put to a vote of the electors, and that the franchise be so extended as to include all those who are desirous of being so enfranchised.

(3)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(4)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(5)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(6)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(7)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(8)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(9)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(10)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(11)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(12)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(13)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(14)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(15)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(16)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(17)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(18)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(19)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(20)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(21)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(22)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(23)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(24)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(25)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(26)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

(27)—That the franchise be so extended as to include all those who are desirous of being so enfranchised.

great party and he intimated that it was a case of "the survival of the fittest."

Proceeding Mr. Emmerson dwelt upon the government's agricultural policy, the favorable position taken now by Canadian products in the markets of the mother land, and the success of the new dairy school and of the winter-butter-making experiments.

There were indications that the province was on the eve of great progress in agricultural and mining development. It was true that the government were not in position to expend the people's money in these explorations, but they could offer such inducements in the way of franchises and areas that hundreds of thousands of dollars would be brought into the province, under conditions that the people would receive their fair share of the profits that might be realized. He was satisfied that if the government had not by such a policy met the views of the honorable gentlemen opposite, they would at least meet the views of the people. He felt sure that the measures which were being introduced into the session would be such as to show how very important a matter this was, and he ventured the hope that when the matter was discussed by the house in all its details, there would be a consensus of opinion that the action of the government had been in the best interest of the province.

He did not share Mr. Hazen's view that it would be impossible to divert immigration to the province. The geological survey of this province had produced more results, and he thought it would be necessary for the province to have a survey such as had not yet been had in order that its natural resources and features might be accurately indicated. If that information could be placed in a concise form much good would be accomplished. The Premier next adverted to the Eastern Extension claims and the prospect of their settlement, and censured Hazen for not having when at Ottawa shown zeal in promoting this matter.

THE OPPOSITION PLATFORM. Mr. Hazen's platform in relation to the opposition in the present house would take its stand upon lines like these:— (1)—Such amendments in the election act as will secure a secret ballot so that no elector will be obliged to vote according to the dictates of their conscience and judgment without fear of intimidation or coercion.
