TINWARE AND GRANITE, great-est bargains ever offered.
Come and see the new goods opened this week.

McLean's Department Store, 565 Main Street.

FAST COALING

Of the Canadian Pacific Railway Company's Steamship Empress of China.

On a recent voyage of the Canadian Pacific Railway Company's steamship Empress of China, when owing to a delayed departure from Vancouver she was required to make a fast passage, the coaling agents at Nagasaki, Japan, were asked to make a special effort to coal the ship with despatch.

They responded so well that the ship received into her bunkers 1,210 tons of coal in 3 hours 15 minutes, or 572 tons per hour, which is the record of the port.

As this coal was all handled from lighters to the ship by Coolies—men, women and children—in small baskets, an appreciation may be had of the feat performed.

HORRIBLE ACCIDENT.

BIRMINGHAM, Ala., Sept. 1.—While rounding a curve on a high embankment near Perry, Ala., at 9.30 o'clock this morning, the engine and four cars of an excursion train on the Southern Railway leaped from the track and rolled over and over down the incline, smashing the coaches into kindling wood and causing the instant death of twenty-one persons and the injury of eighty-one others. Physicians say that at least 29 of the injured cannot live.

THE USUAL THING.

Stranger—"How did this out-of-the-way place ever get the reputation of being a health resort?"

Native—"Why, my dear sir, at least three prominent men have died here."

PARIS, Sept. 1.—The Canadian colony of Paris gave a banquet tonight to Sir Wilfrid Laurier, prime minister of Canada. M. Ribot, a former French premier, presided. The two hundred guests present included Lady Laurier, W. S. Fielding, Canadian minister of finance, and a number of prominent French statesmen.

TO WORK UP PULP.

One Sulphite, One Pulp and Two Paper Mills Are Projected in Temiscamingue District.

(Ottawa Journal.)

J. Carling Kelly when seen today with reference to the item published in yesterday's Journal concerning the paper mill combination, said: "You state that I have about 2,000 square miles instead of 2,000 acres of pulp will be required."

Mr. Kelly further said: "I may as well tell you that this scheme is one of the largest with which the Canadian public have ever had anything to do. There will be four mills, one sulphite, one wet pulp and two paper, of the combine in the Temiscamingue district, besides the eleven at present running in England. They will be situated on the Ottawa river and the contract has already been awarded. I am not prepared to say to whom just yet. That will come out at the proper time. The stock will be up to the public in November 1st in London, England."

MISSIONARIES WARNED OUT.

PLAINFIELD, Ind., Aug. 28.—Word has been received from Everett Morgan and his wife formerly residents of Plainfield, now missionaries at Cotover, Mex., that natives of that place have warned them that unless they shall leave the city by September 15, they will be put to death.

Mr. and Mrs. Morgan were sent by the board of foreign missions of the western yearly meeting of the Friends, about four years ago and have been at that place about a year. They, with Miss Sarah Lindley are the only Americans in the city.

Appeals for protection in their behalf have been sent to the authorities. They will probably leave the city on the date mentioned but hope to return later.

FALL CLOTHING EXHIBIT.

All interested in dressing well at small expense will do themselves an injustice if they miss seeing our FALL AND WINTER CLOTHING FOR MEN AND BOYS. All are invited to call at the store that is making many new friends each day and wants to add you to the number.

RECORD BREAKER.

About 15,000 People at the Exhibition Yesterday.

Big Programme For Today—Halifax Man's Opinion of the Show.

A few hours this morning worked miracles about the grounds. The disagreeable dampness caused by yesterday's heavy mist is all gone and the owners of the different tents and caravansaries are throwing wide their windows, opening wide their doors to let a little sunshine in. Even with the weather against the success of the show the attendance yesterday was a record breaker. Some 15,000 people came through the turnstiles. One of these machines went on strike yesterday and had occasional relapses, when it would jump back a couple of hundred or so. As a result an exact count is impossible but making all allowances the crowd totalled well up to the 15,000 mark. Two or three more days like that and the management will wear the smile of satisfied men. May that smile soon come. Today opened auspiciously for their hopes and the people came into the grounds during the morning in little groups that quickly ran up. The morning attendance is never large, although it is one of the best times for sight seeing. Exhibitors are busy getting their booths in order, and the vendors of soft drinks are busy packing away the bottles which yesterday contained liquids, which cooled and refreshed the inner man. The extent of the people's thirst can be partially realized by a glance at the huge pile of empty bottles, and by the sad and abandoned look of the soda fountain.

There is every reason to hope for another big crowd today. The Maine delegation will reach town about noon, and during the day excursion trains from all over the province are scheduled to arrive with their hundreds of passengers. The attractions for the day, too, are good. Outside of the band concerts and the amusement hall and grand stand programmes the Roses and Alerts will play on the grounds. Sanborn's horses will be exhibited and tonight if the weather is at all decent, there will be one of the finest displays of fireworks ever seen here. Richard Bowden, one of the men in charge is now pretty well accustomed to the disagreeable weather. He has just come up from Bermuda, where he gave two or three fireworks exhibitions and it rained every day of the time. The last display was put off in a tropical thunderstorm.

Judging some of the different horse classes commenced this morning and several of the cattle classes are also going under inspection. These classes are so large and so well filled that it is a rather difficult thing to make the awards.

HALIFAX MAN'S OPINION.

J. E. Wood, the energetic manager and secretary of the exhibition, was well satisfied with the entries exhibited yesterday. Mr. Wood was only in the city for a few hours, but as he had never previously attended a St. John exhibition he took this opportunity to spend the few hours of his stay in the city at the fair grounds. Mr. Wood was particularly pleased with the show especially the main building, which he considers much superior to the one in Halifax.

Speaking of the Halifax fair, Sept. 10th to 18th, Mr. Wood said he was well satisfied with the entries exhibited, the cattle entries being entirely beyond the capacity of the sheds. The horse show was to be a distinct feature of the fair. Following the example of Toronto there would be a grand parade of coach horses, drivers, hunters and hounds. Mr. Wood had been received from the naval and military commanders, the governor, etc., so this special feature promises to be a society event.

BY WAY OF EXPERIMENT.

Prof. Robinson of the Maritime Experimental Farm at Nappan, arrived this morning and W. S. Blair, who has had charge of the exhibit, will leave for home at noon. In speaking of the display made here, he said that it represents experiments in variety testing. The farm consists of three hundred and twenty acres, of which about one hundred acres is broken woodland. On this farm, situated at Nappan, these different tests are made for the benefit of the agriculturists. The experiments in grain have been carried on for a number of years and from these conclusions of considerable value have been drawn. They show the necessity of securing varieties known to do well in preference to holding on to seed grown for years and in the natural course of events run out. A variety such as black mesdag is one of the earliest oats with a stiff straw and is especially good for late ground. The Early Blossom is a white oat and a splendid yielder, but if proper attention is given to the American Banner variety it is not likely that anything better can be found. Experiments have proved that it is better for people to stick to one standard variety rather than take up with every new thing that comes on the market.

Forty varieties of strawberries are shown in jars. On the farm these varieties are grown in separate plots, and the experiments with them have been especially favorable to the Williams, Warfield, Crescent, Haverland, Dunlap and Grenville berries. At the farm they have found that it is impossible to control the midwest which affects the English gooseberries, but not the American. The Downing and Red Jacket have been found to be the best are good yielders and bring a large price.

Concerning potatoes Mr. Blair had this to say. It is hard to tell just what kinds are going to do best, as the soil and climatic influences determine

the yield and act differently on different varieties in different places. For the early market he advises something of the Early Ohio type, and for the later market something of the Carmen type.

GOOD FOR WOODSTOCK.

J. F. Tilley, provincial dairy superintendent, Woodstock, who is at the exhibition looking after the dairy department, received a telegram from Sherbrooke, stating that the \$300 prize offered by the Eastern Township banks had been awarded to the Woodstock butter factory. Mr. Tilley is of course mightily pleased.

FIRE WORKS TONIGHT.

All Amusement Hall attractions are now ready.

William Manning of Manning and Durov, the clever one-legged acrobat, whose feats are one of the attractions of the show, dropped into the press room this morning. He remarked that there are some people who evidently would prefer one-legged men to sell pencils on the street rather than gymnastic exhibitions for about one hundred dollars a week, which show what a man handicapped in that way can do.

Among the lost articles in the exhibition office is a pocket book containing some money and a number of tickets.

The dollars was picked up by a small boy in Machinery Hall yesterday. He will come to the show often. The Danieles incubator in the poultry house hatched this morning. It has a large family of about one hundred. Incubator and chicks are both doing well.

The attraction for Friday is the Westminster Abbey Choir.

THIS EVENING.

7.30 p. m.—Band concert by the Artillery band. Second performance of the Wonderful Lukens, before the grand stand; stand splendidly lit.

8 p. m.—Darkness, followed by the most magnificent pyrotechnic display ever witnessed in St. John; two nights in one; specially set pieces, the bombardment of the Taku Forts, etc.

8.30 p. m.—Vaudeville performance in the New Amusement Hall, with many innovations and improvements. A great evening's enjoyment.

BOER GENERALS

Have No Authority to Dictate Terms to the Government.

NEW YORK, Sept. 2.—The Boer generals are warned that the British government will not consent for one moment to regard them as invested with any public or political functions, according to cable despatch from London to the Tribune. Anything they may have to say to Mr. Chamberlain will be listened to with courtesy, but all idea of negotiations between them and the government will be promptly and firmly repudiated. The altered tone of the London newspapers with regard to Botha, De Wet and De la Rey is caused by reports emanating from continental sources as to the attitude which they intend to adopt in their intercourse with the colonial office. These reports suggest that the three generals had been led by the influence of the Brussels group into a misconception of the real position which they now held toward this country. The Boer generals are credited with the intention of asking for eight million pounds for farm rebuilding and to restocking. The government's proposed grant is three million pounds.

THE WONDROUS WEST.

(Special to the Star.)

WINNIPEG, Sept. 2.—Reports from all sections of Manitoba and Northwest Territories indicate continued favorable weather conditions for harvesting operations. Frost occurred at one or two points in Manitoba Sunday night, but it is not thought any damage was done.

Practically all the Western Canada grain crops of 1901 are now been moved. The report of the inspector at Winnipeg shows 46,200,000 bushels of wheat inspected. The total yield of wheat is placed at sixty million bushels.

A special sale of black sateen undershirts is now going on at Dykeman's. It will pay every visitor to the city to call at this store.

FOUR MEN KILLED.

KANSAS CITY, Mo., Sept. 2.—An eastbound Rock Island cattle train and an engine and caboose collided head-on near Birmingham, Mo., ten miles east of Kansas City, last night, killing four trainmen and injuring three others.

The dead: James Speyer, engineer; Thomas Griffith, engineer; Clarence Mahardt, fireman; C. W. Ballinger, fireman.

The trains were running at full speed when they met. Both engines were demolished and the entire cattle train of thirty cars was overturned. Nearly three hundred of live stock were killed.

THE DEATH ROLL.

(Special to the Star.)

HAMILTON, Ont., Sept. 2.—Reginald Kennedy, president of the Almes Printing Company, died last night, aged 55. He had been ill only a short time of a complication of diseases.

FIFTY YEARS ON THE STAGE.

James H. Stoddard, the veteran New York actor, has in preparation "Recollections of a Player," which the Century Company will soon bring out. Mr. Stoddard has been identified with the American stage for about fifty years, and his book is the reflection of a singularly interesting career, as the public has learned through the chapters already printed in the Century. William Winter writes the introduction.

JERRY HUNTER

Captured After Wounding Half a Dozen Officers.

Reserves Were Called Out and House Was Surrounded—Wife Used Sabre.

NEW YORK, Sept. 1.—Twenty policemen armed with Winchester were standing guard tonight about a house at North Beach, in the Borough of Queens in which a negro desperado lay hiding, armed and defiant. The man who was besieged is Jerry Hunter, whose reputation is of the worst.

This afternoon Hunter shot at a man who was walking along the beach, but failed to hit him. John McKenna was sent to arrest Hunter, and Hunter hid in the front of an ambulance. McKenna was lying in St. John's hospital, dying. Both his eyes were destroyed by a load of buckshot. Three other patrolmen were sent to effect Hunter's capture, and in an attempt to carry the house by storm Patrolman Arthur Brill received a load of buckshot in the face, destroying one eye. The charge struck him full in the face and chest. He is likely to die.

The reserves then were ordered out, but as it was growing dark it was deemed best to wait until daylight to capture the negro. Soon after the police had posted the guard Hunter opened fire on them. Four officers were wounded. After at least two hours of shooting on both sides Hunter set fire to the house, or it caught fire. Hunter's wife ran out by the front door and attacked the men with an old sabre. The excitement Hunter escaped by the rear, but he was run down.

Police Captain Darcy and three of his men are now on their way to the hospital in ambulances. Both Hunter and his wife were found to be wounded when they finally were overpowered. It is believed Hunter set fire to the house.

Dykeman's have their new jackets, tailor-made suits and skirts all in, and the display is a most attractive one.

BARTON ARRIVES.

Tells Toronto People Trade Preference Will Follow Imperial Conference.

(Special to the Star.)

TORONTO, Sept. 2.—Sir Edmund Barton, premier of Australia, and party arrived here late last night. They will remain for a couple of days.

TORONTO, Sept. 2.—Sir Edmund Barton, premier of the Australian commonwealth, who has arrived in Toronto, was interviewed regarding results of imperial conference and said: "The conclusions of the conference point to adoption of trade preferences by those of the self-governing colonies which have not yet acted in that direction." He would present such a plan to his legislature on his return. The conclusions also point to a recommendation to the imperial government and parliament to reciprocate so far as that is possible.

"I think," added Sir Edmund, "we were all very well satisfied with the results of the conference, and if as much progress is made in each successive conference we shall be doing well for the solidarity and strength of the empire."

TORONTO FAIR.

Lord Dundonald's Eulogy of Bruce Carruthers' Men.

TORONTO, Sept. 2.—The great industrial exhibition was opened yesterday afternoon by Lord Dundonald in the presence of a large attendance. The weather, which had been wet in the early morning, cleared off before noon and a finer day could not have been desired.

Lord Dundonald made an excellent impression by a happy speech which he addressed to the returned South African soldiers to whom he presented civic medals. Lord Dundonald praised the devoted gallantry of Lieut. Bruce Carruthers' troop at Hart's River. He remarked that "troops in camp depended on the posts placed out on guard," and said, "If these posts fight as these twenty-one men fought, seventeen of whom were killed or wounded, I shall always feel when I am surrounded by Canadians that I can go into camp, take off my belt and sit down."

D. R. A. MATCHES.

(Special to the Star.)

RIFLE RANGE, Ottawa, Sept. 2.—Rather unfavorable conditions for shooting characterized the opening of the second day of the D. R. A. meet this morning. There was a strong and variable wind from left rear, which made it difficult for the riflemen to get proper elevations, and militated against good scoring. The competition match is being shot today.

(See also page 2.)

BIG TIMBER SALE.

DULUTH, Minn., Sept. 2.—The Mitchell and McClure Lumber Co. have transferred to Algor, Smith & Co., for \$750,000, eighty million feet of standing pine, thirteen miles of railroad, camps, saw mills, teams, and other outfits. It is reported that the Diamond Match Co. is negotiating for the purchase of from two to three hundred million feet of standing pine in Northern Minnesota, for about \$2,000.

FRED H. DUNHAM,
408 Main Street, N. E.

THE DIFFERENCE.

Mrs. Dash—The idea of Mrs. Raah having society aspirations! Why, her father was a peddler!

Mr. Dash—Yes; she's entirely too forward. She ought to hang back until people have forgotten it. Now, in your case, my dear, it was your grandfather who was a peddler.
