MEN'S SPRING CLOTHING.

SOME FACTS WORTH THINKING OVER.

For several years we have handled Men's Clothing, Ready-to-Wear, that is different from ordinary Clothing—there has always been that "style" to our Clothes that the other doesn't have.

We have a convenient store—with the garments in wardrobes on hangers. And this convenience has been widely appreciated by men who are busy and whose time is valuable.

But it is THE EXCELLENCE OF THE CLOTHING and not the excellence of the store that is the important fact.

It is THE EXCELLENCE OF THE CLOTHING which, almost without exception, is bringing back here this season, the men who

without exception, is bringing back here this season, the men who bought clothes here last season—and bringing in their friends, too-GILMOUR'S CLOTHES for men are better than any other Clothes you can buy for the same prices. Not that we have tried to cut prices down, but that we have raised the standard of style

Our idea IS and HAS BEEN to build a men's clothing business ich will be permanent because of the SATISFACTION which Clothing gives.

When you come here we will fit you perfectly—if alterations are required, they are made by skilled hands with the distinct understanding that if the altered garment is not a perfect fit you

WINSTON CHURCHILL

The following is an appreciation of the character and life-work of Mr. Winston Spencer Churchill:

Mr. Churchill's accession to Cabinet rank gives him in form a position which, in fact, he had already won for himself, that of a Minister able to speak for a great Department of Slate. National suffrage for women, as an nounced two weeks ago has just passed its second reading lin the Pritish Parliament by the magnificent majorty of 271 to 92, a vote of nearly shows a great subject and a great opportunity. as Minister of Commerce. He is practical, and though he sometimes fails in ity of 271 to 92, a vote of nearly three to one in its favor. The personal matter one continues of the Government tyrdom so bravely undergone by heroic suffrageties, has aroused public attention, as never before, to the justice of woman's claim to equal political representation, and to the breach of faith by the Liberal party leaders for faith by the Liberal party leaders in the spokesman in the House of Commons of the Government of the Government in the House of Commons of the Governmen of faith by the Liberal party leaders in having so long refused to allow a parliamentary vote to be taken.

In America the condition of the suffrage movement is very different. Here in no State Legislature, as yet, has it secured so overwhelming and persistent a majority. Nor does there exist, either in Congress or in State Legislatures, on the part of political leaders, an organized conspiracy to prevent a vote being taken. Martyrdom in a just cause is always noble and inspiring. It is a time-honored maxim that "the blood of the martyrs is the seed of the church." But it is always a last resort. In this country, the alternative has not ment.

In the course of this great passage in the is a thorough democrat. He has no conception of a political action apart from the mass of the people, their movements, their wants, their hopes and passions. In this respect he is the precise opposite of Mr. Balfour, whose personality is aristocratic, and concerns itself with the preservation of those interests, social and intellectual, which are bound up with the government of the many by the few.

But his intellect, though plastic, has its cautious side, and it has probably been an advantage to him that, like Mr. Gladstone he has spent his early years in the Tory camp, and learned both the strength and the weakness of oth the strength and the weakness of the case for things as they are. Withal, he is a born fighter. He knows the value of combativeness when to meet an attack with a counter-attack. This is the secret of a successful warfare or peace, but it is ene which the commonplace and the

At the Princess

We wish to call your attention to the show that is being put on today at the Princess. Presidential Possibilities is the best picture ever shown in St. John and was secured with much difficulty, as Mr. Taft objected to being photographed. His duties as secretary of war called him to Fort Myer, to review the cavalry stationed at that post and through the contrivance of General Bell the man with the camera was planted where he could get the best view of the secretary during the man-oeuvres and of the Rough Riders while they were going through their wonderful feats of horsemanship. In addition to the pictures of the secretary, and of the soldiers, the picture shows Mrs. Taft, who is the financial backer of the secretary in his presidential campaign, and Mrs. Chas. P. Taft. It is said that President Roosevelt took a hand in the plot to get the secretary himself is done. She has on board 157 whales, and after bunkering will continue her fishing up the Gulf.
