Some Great Bargains In Fine Waist and Dress Materials

We bought a clearing line of these goods from a manufacturer's agent and they are here at half-price.

WHITE AND CREAM SILK STRIPED BOLENESE, regular price \$1.00 a yard, ON SALE AT 50 CENTS. 40 inches wide, of a light, rich, soft texture and a material that will wear well. Suitable for dainty waists or the evening dress.

CREAM AND PASTEL SILK CREPE DE CHENE, regular \$1.20 yard, ON SALE AT 60 CENTS A YARD. 44 inches wide. It is a light weight with a lustrous finish and would make a very pretty waist or dress.

JAPANESE TAFFETA SILK, 27 inches wide, regular 60 cent quality on sale at 30 CENTS A YARD. This is a silk that is woven in Japan and is sent across to France to be dyed and finished. It has the same finish as the European taffeta but will wear much better. Its extra width enables one to get a waist made out of three yards, consequently \$1.00 pays for a nice silk waist.

GREAT BARGAIN IN SHANTUNG SILKS, natural shades, 27 inches wide, 37 1/4 CENTS A YARD, regular 55 cent quality. 23 INCHES WIDE IS 45 CENTS A YARD.

Good Honest Values

We believe that it is best for us as well as best for our customers to give good honest values.

And by that we mean suits that are as good as they look—well made ALL THE WAY THROUGH, and consequently much more lastingly elegant than suits that are made merely to sell.

The patronage we have enjoyed for all these years has come to us almost entirely because our clothing gave complete satisfaction to the wearer.

Why shouldn't you buy a Gilmour suit this spring—and so be sure to get good honest value for your money?

Suits of guaranteed excellence, \$10 to \$25.

Overcoats, including topcoats and shower proofs, \$10 to \$27.

Trousers and fancy vests in great variety.

Raincoats, absolutely waterproof, \$5 to \$15.

PRICE OF FLOUR SOARING

The result of the corner in wheat which is at present the leading feature on the exchange, has already begun to affect the St. John flour dealers, and may soon affect the consumers.

There was a rise of 35 cents in the price of Manitoba flour yesterday in the local market and today came a rise of 25 cents on Ontario brands. Prices are quoted now as \$3.35 for Manitoba flour and \$3.15 for Ontario. It is understood that some of the smaller millers have made larger raises than this, but their action has not so far affected St. John prices. Further increases are expected, however. At present the price of flour is not on the same basis as the price of wheat, and if the corner holds out longer, and it looks as if it will, the price of flour is bound to soar.

A full stock is held by the local jobbers, but a few days will be sufficient to make large inroads on the stock.

W. G. SCOVIL NOT QUALIFIED TO RUN

Personally Assessed on Only \$800.

No Other Incidents of Interest in the Nomination Day Proceedings at City Hall.

The fact that W. G. Scovill could not qualify for an alderman candidate was the chief sensation of the nomination proceedings today.

Mr. Scovill applied to have his name filed but was met with the objection that that his assessment was not high enough to allow him to qualify. An examination of the books showed that while the firm of which he is president is assessed on \$38,000, he personally, was only assessed on \$800. To settle the dispute which arose Recorder Skinner was called in and he decided against Mr. Scovill.

This with the withdrawal of C. A. Clarke and Charles H. Ramsay brings the list of possible candidates down to thirty-three.

The papers for seven of the candidates were filed yesterday and this morning another seventeen came in. The other nine are expected before four o'clock when the lists will be closed.

Up to the time of going to press papers had been filed for the following candidates:

SEVERAL SALOON KEEPERS MAY LOSE THEIR LICENSES

Commission's Interpretation of Act May Bar Those Whose Premises Do Not Front on the Street.

Some of the saloon keepers of the city may find themselves up against a difficulty which they had not been expecting when their applications for renewal of licenses are under consideration.

A meeting of the License Commission will be held in their rooms on Prince Wm. Street this afternoon and the first business taken up will be a discussion of the new licensing act. It is understood that some of the Commissioners take the view that under the meaning of the new act licenses should not be granted to premises which are so situated that a full view of the interior cannot be obtained from the street.

If this idea is carried out several rooms will be disqualified. Before issuing any licenses it is understood that the Commissioners will inspect the various premises and ascertain what arrangements the proprietors are going to make in order to come within the new law. If they refuse to make the necessary alterations or if their shops are so situated that they cannot do so it is likely that they will be forced to go out of business.

A NEW SECTION FORMED

On Monday evening in the town of Sussex S. B. Logan, chairman of the Grand Temple Junior committee, assisted by Sterling W. Stackhouse, G. W. U., Cyril G. Hanson, worthy archon, of Fairville Section; Kenneth Carleton, worthy usher of La Tour Section, instituted "Champion Section No. 8" with a charter membership of thirty-one. This section bids fair to be a strong one, as the boys who compose it are intelligent, manly-looking fellows. The initiatory work was done by Sterling W. Stackhouse, G. W. U., assisted by Cyril G. Hanson.

The section elected a good staff of officers who were installed by S. B. Logan, deputy G. W. U. The section will meet every Monday evening. An effort is being made to secure a room in the old school house, which is now lying idle. The boys believe they can fix it up and make an ideal section room. The matter is now before the Sussex school board. The section has the support of the best thinking people of the town. Many of them have offered to aid the section in any way possible, because they believe it to be a place where the boys will be taught to live good moral temperance lives.

AN UNBREAKABLE SET OF TEETH

There is a class of patients who do not object to paying a fair price for artificial teeth, if they can really secure comfort, usefulness and naturalness.

I have a set of teeth, such as is unobtainable in any other office in this city, to my knowledge. It is out of the ordinary line and unlike the teeth in general use. Its beauty is at once apparent and it is practically unbreakable.

It will pay those who are desirous of obtaining the best to be had in the dental line to call and inspect this for themselves. I will gladly demonstrate its superiority over other plates, even if you have no immediate intention of investing.
