The row between C. H. Ebbetts of the Brooklyn club and Barney Dreyfuss of the Plittsburg club over the 168 game schedule which the National League voted to adopt last month became decidedly interesting yesterday. Dibets and Dreyfuss are members of the schedule committee. The former sumitted a tentarity schedule of 168 games to Dreyfuss a week ago and the Positions are reversed now. Three Meadows again at 12 miles at Guelph in two wecks' time. Positions are reversed now. Three did not communicate with Ebbets as Guelph in two wecks' time. Positions are reversed now. Three did not communicate with Ebbets as 181 games schedule was the better arrangement because kt did not postpone the playing of a world's series until atting. To Meadows' careful it may be said that he is willing to accommedate the vanquished Englishman on Teasonable terms. Slipubb wants to run on the tan bark in Guelph Winter fair building, and Meadows will likely to accommedate the vanquished Englishman on the playing of a world's series until atting. To Meadaws' credit it may be said that he is willing to accommedate the vanquished Englishman on Teasonable terms. Slipubb wants to run on the tan bark in Guelph Winter fair building, and Meadows will likely give him the chance. On tan berk the race will be a terrific one, for "A. Alfred" can step lively yet, and don't you forget it.

Fancy my going to the joint schedule meeting in Pittsburg on January 24 and having seated with me as committeemen President Lynch, who acknowledges he knows nothing of schedule making; Mr. Dreyfuss, who is opposed to something he has been requested to prepare, and the members of the American League committee, who are firm advocates of the 154 game schedule. I prefer to have as an associate on the committee a man who is speciate on the committee a man who is prepared. sociate on the committee a man who is favorable to the matter before us, as he should be if he adheres to the instructions given him by the National League and for which he voted him-

Teams representing Brock and Patterson and Macaulay Brothers bowled on the Victoria Alleys last night, with the result that the B. and P. team captured two strings and the total pinfall. The first string went to Macaulay Brothers by the narrow margin of 13 pins. The second went to B. and P. by 9 pins, and the same team took the last string by 40 pins.

Masters, of B. and P., was high man, with an average of 87 2-3. McLean, of Macaulay Brothers, averaged 86.

One of the first danger signals that announce something wrong with the heart is the irregular or violent throb. Often there is only a fluttering sensation, or an "all gone" sinking feeling; or, again, there may be a most violent beating, with flushings of the skin, and visable pulsations of the arteries.

There may also be experienced a emothering sensation, gasping for breath, and feeling as though about to die.

In all such cases the action of Milburn's Heart and Nerve Pills in quieting the heart and restoring it to its normal beat, is, beyond all question marvellous, as our thousands of testimonials will show.

Mrs. Martha Mascn, Marlbank, Ont., writes:—'Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I have been troubled with weakness and palpitation of the heart, would have severe choking spells and could scarcely lie down at all. I tried many remedies but got none to answer my case like your pills did. I can recommend them highly to all with heart or nerve trouble."

The trawler's skipper gave a graphic account of the sufferings endured on board the vessel and afterward in the small boat.

It appears that the Monarch, of Cardiff, burst her cylinder when eighty or ninety miles west of the Kerry coast, and four of the crew were severely scalded by the escaping steam.

All four were in a critical condition and suffering intense pain. To add to their distress there was no food on board.

ST. PETERSBURG, Jan. 17—General Shulman, one of the most active members of the Russian Society for Psychical Research, introduced lately the young Count Tryvdar-Burshinsky, who says that he sees continuously his own "astral double." The count is a normal looking young man of about 23. He alleges that since the age of 17 he has always seen his own wraith. He first noticed it in a mirror, quite close to himself, but later the wraith, became much more independent. During a ball given by the governor-general of Kieff the wraith, the count says, remained in a room close by and seemed much interested in the dancing. It was noticed by several of the guests.
