tion. I have visited several sections of the county and to put it tersely, everything is O. K. Thus did James Robinson, the conservative candidate of the county of Northumberland briefly sum up the views of the local situation to the Sun's correspondent today. Last week Mr. Robinson vis-ited the down river parishes of Almurek, Glenely and Hardwicke, and everywhere he was accorded a most enthusiastic reception. On Saturday he paid a visit to Rogersville, and there met with a very cordial greeting. There is every indication that the parishes of Glenely and Almurek will coll up very substantial majorities for the popular conservative candidate and Hardwicke will likewise show a good majority in favor of the supporter of R. L. Borden. In the up river par-ishes Mr. Robinson will carry everything in sight by overwhelming majorities. Meetings are being arranged 'n the conservative interests. The principal speakers are Donald Morri-30n, M. P. P., R. A. Lawlor, J. L. Stewart and R. T. D. Aitken. It is the intention to cover the important

points in the county as far as time will permit. From all sections of the county from Escuminac to Bolestown and from Rogersville to Bartibogue comes the one cry-"Robinson."

## THERE ARE OTHERS.

Say So Publicly, Will Vote for **Daniel and Stockton.** 

The interviews which the Sun has regarded and claims long overdue are lately published with leading liberals, who are dissatisfied with the government's transcontinental scheme, do not by any means complete the list of former supporters of the liberal adminernment is entitled to the political istration who are violently opposed to building up Portland at the expense of St. John and Halifax. Sale of Property in Which Former St. John Men Are laterested.

NEWARK, N. J., Oct. 24.-James Smith, jr., receiver of the U.S. Shipbuilding Company, as special master, sold at public auction at the office of the Federal Trust Co. today all that portion of the property of the United States Shipbuilding Company which had been adjudged to be mortgaged to the Mercantile Trust Co. and the New York Security and Trust Company.

The sale was made under a decree of the United States circuit court and incinuded everything owned by the company outside of the stock and plant. There was only one bidder. He was George R. Sheldon, who represented the Sheldon reorganization company. Mr. Sheldon's bid was \$50,000. This bid was accepted by Mr. Smith, subject to confirmation by the courts.

Mr. Smith, as receiver, then offered for sale all the capital stock of the seven subsidiary companies. I'he only bid which amounted to \$200,000 was the individual bid of Mr. Sheldon, but as the price offered was not satisfactory. Mr. Smith refused to sell the stock. He then adjourned the sale wantil Thursday next at 12 o'clock at the same place.

N. B. MAN BUILDING

PEARY'S VESSEL.

H. S. Newcomb of Hopewell Hill, is Superintendent of Construction.

HOPEWELL HILL, Oct. 23.-ED eedingly warm weather for the time of year has prevailed for the past week or more, the temperature on some days being that of summer. Rain fell in torrents all day yesterday, and made heavy freshets in the streams.

The funeral of the late William Cairns of New Ireland took place on Friday, the services, which were held in the Church of England there, being conducted by Rev. Allan W. Smithers. Many will be interested to know that the superintendent of construction on the new ship being built at Bucksport, Me., for Lieut. Peary's Arctic exploratempts to work public service for tions, is Herbert & Newcomb, a former Hopewell boy, and son of Robt. Newcomb of that village. Mr. Newcomb, who has been living in the States by the present government in the ef- for several years, is a shipwright and fort to retain power. Rights long dis- draughtsman of exceptional ability, and also an inventor of mechanical appliances that have been pronounced of being attended to on the very eve of great merit. The Peary ship is over the election in a manner intended to 180 feet long, schooner rigged, with convey the impression that the gov- 'auxiliary steam power, and is built of oak covered with steel plates. The vessel is to cost \$400,000. The being support of the recipients of its tardy placed in charge of the construction of such a craft is pretty good proof of Mr. opposition in parliament protested' Newcomb's skill in marine architec-
