

RUSSIA VERY PERTINENTLY EXPRESSES HER DISCONTENT AT METHODS OF THE POWERS

Contents She Is Alone Following Fundamental Ideas of the Cannes Resolutions.

GENOA INTERESTS ON NON-AGGRESSION PACT

Views of Lloyd George to Have a European Federation.

Genoa, April 27.—The powers were today discussing the details of a document, informing the Soviet delegates what the powers, on their part, were ready to do for Russia.

Their statement insisted that Russia would protect her sovereign rights as embodied in the Cannes resolutions.

After the meeting of the experts, which the Russian viewpoint on the first seven articles of the Cannes resolutions was presented in detail.

Such, indeed, constitutes the fundamental idea of the Cannes resolutions, and we believe that it is Russia alone which remains entirely faithful to the Cannes resolution in all their essentials.

Await Non Aggression Pact

The document of the powers, which is to be handed to the Russian delegates, was considered today by Premier Lloyd George, Signor Schanzer, M. Barthou, M. Janssen and Baron Rykaczewski.

At the Conference assumes broad aspects, certain indications of the surface that two distinct political waves, which, being contradictory, are difficult to reconcile.

While few statements dare to speak openly of the possibility of attaining some form of federation of the European States, it is learned that many of them secretly possess ambitions to bring about harmony between Nationalism and Internationalism, and the basis of this new European construction would be the principles of equity, justice and the fellowship of man.

Many conference circles remarked today on the coincidence that two leaders, so widely apart as Lloyd George and the Rev. Don Luigi Sturzo, leader of the Italian Catholic Party, should be extorting Europe that it must move along the lines of internationalism based on equity and self-restraint, as well as justice and charity.

It is understood that Mr. Lloyd George has a profound conviction that his non-aggression pact the precursor of a broad movement to bring all the peoples of Europe, including Russia and Germany, closer together perhaps as the first step towards some form of European federation.

BITTER EXCHANGES BETWEEN GRIFFITH, PRESIDENT OF DAIL, AND THE REPUBLICAN LEADER

Changes and Counter Charges of Responsibility for Disorders in Ireland Characterized Debate—Strong Language Used and Stinging Accusations Made on One Side and the Other.

Dublin, April 27.—Bitter exchanges between Arthur Griffith, president of the Dail Eireann, and Eamon De Valera, the Republican leader, more intense than any heretofore, marked the proceedings of the Dail Eireann today.

Griffith Warm Up. Mr. Griffith declared that in the last fortnight an attempt had been made against the life of Michael Collins. This was greeted with derisive laughter in some quarters.

References by Mr. Griffith to Children's services in England provoked angry protests from Children, and Mr. Griffith continued: "I know what is going on and what atmosphere is being prepared, and since to say to these people, to this Englishman Children and his backers, that if they think they are going to prevent the Irish people from expressing their views on this treaty they won't be able to do it."

De Valera Responds Invektive. After hotly replying, as an infamously insult, Griffith's allusion to him as a gunman, Mr. De Valera made his demand for the publication of all correspondence and the setting up of a judicial committee to examine all evidence, hear witnesses and pass judgment. He read a letter to the delegation in London objecting to Griffith's attitude and stating that if the alternative was war, the Irish people would face it.

The attitude of the President of the Dail was very determined. He warned the opponents of the Provisional Government that if they thought to prevent elections they would be disappointed.

The first division challenged disclosed some years ago, no transfer of votes on either side; there was still a majority of seven in favor of the supporters of the treaty. This division was taken on the report of Foreign Minister Gavan Duffy, which was adopted, 57 to 50.

LOYD GEORGE HITS OUT FROM THE SHOULDER

Has No Desire to Conceal His Opinion on the Alarmist Situation.

SEES POSSIBILITY OF EUROPEAN WAR

Warns of Danger of Hungry Russia Being Equipped by Angry Germany.

Genoa, April 27.—The British Prime Minister's address to the British and United States press representatives yesterday has evoked a great deal of interest here, and an official stenographic copy of it was issued this afternoon. It was understood before the address that Mr. Lloyd George was not to be quoted, but when he had concluded he remarked:

"After all, you can quote me if you wish; it is better that my thoughts be published."

Among the significant statements voiced by the Prime Minister were the following:

"We have gathered here to see whether it was not possible to find a settlement that will be acceptable to common sense and to the conscience of the peoples of Europe."

Referring to the contested frontier lines in Europe, he said:

"Every one of these lines involves, in itself, the possibility of a terrible conflict in Europe. Sometimes the complications are the result of the terrible middle of races which you have surging like a cauldron in the centre of the last war brought America in."

"You have the racial lava surging right through the centre of Europe, and unless you settle the line there which will be accepted by everybody, there are possibilities of future conflicts that will engulf the whole world and whether America wills it or not she will inevitably be brought in as the last war brought America in."

"You have Germany and Russia who are in a condition of semi-anarchism to the rest of Europe. There is a state of suspended, and barely suspended, conflict. That means two-thirds of Europe, and anybody who imagines that can permanently, by any combination keep down two great peoples representing two-thirds of Europe, must be either blind or bilious."

"It is an impossibility. It is a folly, it is an insanity, it is a madman's dream, an understanding which will include the whole of these peoples."

Must Be Careful

After warning of the danger of a hungry Russia being equipped by an angry Germany, Mr. Lloyd George said that Europe will be before Europe is devastated, if that represents the permanent policy of any combination in Europe?

"For the moment we belong to the dominant group, but if there is a feeling in the conscience of mankind that we have abused the triumph which was handed to us, we must be prepared to follow as it followed in the wake of the act which outraged the moral sense of the world on the part of Germany."

"I do not think I am unduly alarmed if Genoa fails. I want Genoa to end in a real pact of peace. Without that Genoa will have accomplished nothing. It may address exchanges; it may improve currencies, but it will not have accomplished the main purpose for which it was summoned."

"It is a gathering of the nations of Europe to take counsel and see whether they cannot clear up difficulties which are full of menace to the peace of the world and to the peace of Germany."

"I am alarmed at the storms which are gathering on the horizon and rising higher in the firmament over Europe. They may break immediately but they will inevitably do so unless by some means the atmosphere can be cleared and we can get a fairer day."

MOST BEAUTIFUL GIRL IN JAPAN BRIDE OF AMERICAN PROFESSOR

MRS. T. CONROY.

Tokyo, April 27.—"East is east and west is west and ne'er the twain shall meet," once remarked the well known and justly celebrated Rudyard Kipling.

But Rudyard reckoned and wrote, at least in this particular instance, without the wiles and work of one Daniel Cupid, who has a habit of upsetting staid conventions.

For such met with Kipling to the contrary notwithstanding, and now the reputation for truth and veracity of the author of Gunga Din is in danger.

Because when west, in the person of Professor T. Conroy, met east, the comely Kikuko Terao, he succumbed without a struggle and now Kikuko is Mrs. T. Conroy, wife of the professor of English at Keio University, Tokyo.

Cupid experienced considerable difficulty in impeaching Kipling's veracity for Kikuko, "Little Chrysanthemum" in Japanese, was of a high family in Japan, her father being a Senator of Chiba prefecture and more recently an official of the department of justice in Muroan.

Many obstacles hindered Conroy's courtship but Cupid worked overtime while Conroy was giving Kikuko English lessons and Cupid as usual has his way.

Mrs. Conroy is regarded as the most beautiful woman in Japan.

ESTIMATES PUBLIC WORKS AFFECTING THE SEA PROVINCES

Appeals for Public Buildings in Various Parts of Maritime Provinces Made During Thursday's Session of Commons—Edmundston's Wants Brought Up By R. B. Hanson of York-Sunbury—\$35,000 for Partridge Island Quarantine Station.

Ottawa, April 27.—(By Canadian Press)—Appeals for public buildings for different sections of the Maritime Provinces were made in the Commons today, when the estimates of the Department of Public Works were under discussion.

A vote of \$5,000.00 for drill hall, grading, etc., at Amherst, provoked some questioning. Answering R. B. Hanson, (Conservative, York-Sunbury) the Minister of Public Works, Hon. J. H. King, said the vote last year for this purpose had been \$25,000.00. Contracts had been entered into, J. D. Chapin (Conservative, Lincoln), said a similar item last year had been objected to by all of the opposition members. Dr. King stated that contracts had been signed in 1921 and the work was partially completed. T. I. Church, (Conservative, Toronto), asked the Minister if the Government had yet made up its mind whether or not it was going to discontinue drill halls. Dr. King replied that he was not building new drill halls.

In New Brunswick, votes for St. John quarantine station at Partridge Island, repairs and improvements, \$35,000.00 and \$5,000.00 for improvements to public buildings at Sussex were provided for. R. B. Hanson, said he regretted that no provision had been made for a post office, customs buildings, etc., at Edmundston in Madawaska County. The existing facilities were entirely inadequate. R. W. Grimmer (Conservative, Charlotte), said the people of St. George, Charlotte County, had been promised a post office previous to the war. They were willing to wait till the war ended but now they asked that the promise be carried out and a post office and customs house be erected.

Dr. M. MacLaren, (Conservative, St. John and Albert), said he was satisfied that the needs of Edmundston were urgent and he supported the requests of Mr. Hanson and Mr. Grimmer. The Minister said that consideration would be given to both projects. T. W. Caldwell, (Progressive, Carleton Place) also supported Mr. Hanson's plan for a post office at Edmundston. Mr. Hanson referred to the fact that this was not in his county but in the constituency of Pius Michaud (Liberal, Restigouche and Madawaska) who was not in the chamber at the time. Mr. Michaud entered the chamber and added his request for a public building at Edmundston to those already made. He stated that he had taken the matter up with the Minister and received the assurance that his request would receive careful consideration. The item carried.

The next vote to be considered was one of \$38,000.00 for improvements and repairs to Dominion public buildings in the Maritime Provinces. Mr. McLaughlin observed that it seemed to him the Minister was simply grouping a whole lot of items under one miscellaneous appropriation which should have been dealt with separately. It might be that the exigencies of political complexion of the locality would cause him to place the money where it would do the most good. The item carried.

McLACHLAN NOW FLIRTING WITH NICKY LENINE

Asks Soviet Ruler if He Would Accept \$15,000,000 Distress Loan from Canada.

HAS FAITH IN HIS ABILITY TO SECURE IT

Says Wheat Is Going to Waste in Canada That Might Feed Russia's Starving.

Glouce Bay, N. S., April 27.—J. B. McLachlan, secretary-treasurer of the United Mine Workers of Nova Scotia, tonight sent to Nikolai Lenine, head of the Russian Soviet Government, the following cablegram:

"Will Russian people guarantee repayment when possible of \$15,000,000 distress loan by Canadian Government, loan to be spent in Canada, to buy wheat seed and food for Volga, and distributed under Nansen agreement?"

Cape Breton miners, despite a great amount of local destitution, are exhibiting great interest in the Russian situation, and their local unions are passing resolutions demanding that the Federal Government immediately make a \$15,000,000 loan to the starving Russians.

Speaking here tonight, Secretary McLachlan said that the miners in asking that this loan be made, were not acting as Bolsheviks, but because they believed that such a measure to help save the lives of the Russians would start an industrial activity which would do much to help relieve the suffering of the unemployed in Canada.

Plenty of Wheat.

"In 1921," said Secretary McLachlan, "the wheat production in Canada was eight bushels per head of population; in 1922 it was 4 1/2 bushels. In this situation the farmers have a surplus and the proposed loan would provide them with a market which would enable them to pay their debts to the bankers. Incidentally, it would give the railways more work and increase the demand for coal, which would help the miners. It is said that in the West some farmers are burning wheat for fuel."

"If the Canadian Government adopts this humane measure, it will give a boost to a wide class of Canadians which would help the unemployment situation all over Canada. We are going to put this loan over if I have to campaign Canada from coast to coast," concluded Secretary McLachlan.
