This, it is now claimed, has been virtually accomplished by the Russians driving a wedge into the Austro-German positions along the front of Kovel-Valdimir-Volynski.

The view here is that if the Germans have thus accepted severance from the Austrians the most decisive result of the whole of the Russian Gen. Brussiloff's strategy will have been obtained, it being argued by the military observers that without German support the Austrian armies will become demoralized and collapse.
