

Former SFU head Loney next CUS President

Martin Loney, CUS President-Elect, speaking to the CUS Congress.

GUELPH (CUP) — "Out of confrontation comes consciousness and out of consciousness comes action."

Speaking at the 32nd CUS Congress, Martin Loney, 24, president - elect of the Canadian Union of Students told of his plans to build CUS into a mass movement for Canadian students - the only way, he says, that students can "effect real change in the university."

"But the things that will bring change will not be determined by our resolutions, but by what people do with these resolutions on their campuses".

Loney, acclaimed midst thunderous applause, urged delegates to go back to their campuses and "turn people on to social change - then begin working to improve. Only then will we be able to return to future congresses as true representatives of the Canadian Student Movement and be able to talk of student changes."

"Student power is our constituency but, we can never forget our wider constituency is the world," said Loney. "I'm talking about liberating the people of the world. We must liberate those in Asia starving physically as well as those suffering from mental starvation."

"At the moment, North American education is irrelevant to world problems. We must make it relevant to the problems of all people - people who don't have the luxury of debating about student power. We must demand that our universities become relevant to the third world."

Reflecting on the future of CUS, Loney spoke of increasing radicalism stemming from the congress.

"But, we are still not a mass movement. Our fieldworkers must educate student councils to evolve from clique-like organizations with elitist tendencies to leaders of trade-like students unions."

If you're female and undraftable

WASHINGTON (CUP-CPS)—Finally somebody has come up with an answer for American girls guilty about having nothing to lose in protests against the Viet Nam war.

Speaking to a meeting of the National Student As-

sociation Congress two weeks ago, West Coast draft resister Dave Harris was asked what women could do to effectively protest the draft.

"Well," Harris answered, "you can refuse to sleep with anyone who carries a draft card."

Glendon students plan Registration Boycott

TORONTO (CUP) — The student union at Glendon College is organizing a student boycott of registration to replace the formal curriculum with "people generated classes" -- informal seminars and group sessions with faculty serving only as resources personnel.

The program, Liber-action '68, began Monday (Sept. 9) two days before registration was to start at the York University campus.

The administration of the 900-student college has asked faculty not to co-operate on the grounds that the plan could wreck the college budget.

The plan follows the Glendon College Student Union Manifesto, termed an "important document containing proposals that are very specific and very radical" by H.S. Harris, academic dean of Glendon.

The Manifesto calls for abolition of the Faculty Council, student council and residence council in favor of a single college government. It also demands formal courses created jointly by students and faculty, an end to examinations and a bill of rights "which grants to any individual the right to pursue his education in any manner which is deemed best by him."

Bob Waller, editor of the Pro Tem, newspaper at Glendon, was optimistic about the plan.

"We expect a great many students will enroll in the university and pay their fees, but will attend people-generated classes instead of registering in courses," Waller said.

An administration memo circulated by Dean Harris last week says: "The main reason why it is not a good idea for any student to delay his course registration past the regular time is that it is impossible for us to meet the wishes and desires of most of our students if we do not have adequate notice of what their desires are."

The memo also warns that students not registering on time may confound calculations of the government grant to the university. Dean Harris fears the government would not count unregistered students as enrolled at the college. Students replied that simple registration in a faculty rather than a course is sufficient for government purposes.
