

SCHOOL-BOOKS.

THE ENGLISH GRAMMAR, by Lindley Murray. 1s. 8d.

The high price at which former editions were sold, alone prevented this standard English School Book from coming into general use. The publishers having procured stereotype plates, are enabled to offer it, strongly half bound, at 1s. 8d., a price which, considering the style in which it is produced, and the fact of its extending to nearly 350 pages, it will be allowed is remarkably cheap.

DICTIONARY OF THE ENGLISH LANGUAGE, Johnson's with Walker's pronunciations. It contains also a Vocabulary of Greek, Latin, and Scripture proper names, a list of Americanisms, Gallicisms, and other words to be avoided in speaking or writing, and Fulton and Knight's pronunciation of certain Scripture names, full bound. 2s. 6d.

In a few months after publication, the first edition of the Dictionary was disposed of, and the present one called for.

WALKINGHAME'S SYSTEM OF ARITHMETIC, new edition. 2s.

The best test of the popularity of this School Book is to be found in the extensive sale which it has met with for many years past. It is now retailed at 2s., substantially bound.
