"3 FEEDS FOR ONE CENT"

DAN PATCH RESTORED TO HEALTH IN SIX WEEKS.

DAN PATCH GIVEN UP TO DIE

Office of the Kansas City Veterinary College, 120-26 East 26 Street.
ROBERT C. MOORE, D.V.S., Pres. HENRY C. BARNOCK, M.D., D.V.S., V-Pras.
BERNARD F. KELLY, D.V.M., V-Pras. ELMER HERRICK, M.D., V.M.,
H. W. BAYARD, Missourian, Min. They are Trainers and Boss of Faculty.

Two days I first saw your horse Dan Patch about 10:30 a.m. April 12th 1904. He was suffering severe pain in the abdominal region caused by impaction of the bowels probably caused by failure to "clean." His pulse rate was 70 per minute and the temperature 104. The character of the pulse was weak. The condition gradually grew worse during the afternoon until about 4 p.m. his pulse rate had reached more than 100 and his temperature was 105. The heart grew so feeble that the pulse could not be taken, and the eye and the pads could not be distinguished by flexing the head but almost insensibility. The visible mucous membranes were highly injected, which with the high temperature showed unmistakable evidence of the inflammatory condition existing in the abdominal cavity. At this time owing to the inflammatory condition and the extreme weak heart, the prognosis was very unfavorable. From 4 to 6 p.m. I had little or no hope of his recovery. About 7 p.m. a slight improvement was noticeable and his condition gradually improved.

Refrigeration in abdomen. Very truly yours, E. C. MOORE, D.V.S.
E. C. Moore, President & Editor.

HIS WONDERFUL RECOVERY

In four days from the time he was given up to die by the three high-class Veterinarian Surgeons we shipped Dan Patch from Toronto to our "International Stock Food Farm" at Farview, Minn., and commenced feeding him three times the usual quantity of "International Stock Food" and gave him his four times per day. He recovered his strength very rapidly and in three weeks from the first day of his sickness he became a milk-producing cow in 500. This was in the best of conditions. We decided to keep him in the shape for extreme test milk. Dan was shipped from Farview to be used by the University of Minn. without cost. Dan was shipped from Farview to be used by the University of Minn. without cost. Dan was shipped from Farview to be used by the University of Minn. without cost.

Two weeks ago for \$20.00. Since that time Dan has broken 7 weeks' records and has been victorious and vigorous. Owing to his great constitutional strength he was able to withstand his severe sickness. You could not ask better proof of the superior merits of "International Stock Food" which you can feed at a cost of

3 FEEDS FOR ONE CENT.

INTERNATIONAL STOCK FOOD CO., TORONTO **BEGGIE RIVER SCHOOL OF AGRICULTURE, BEGGIE RIVER, MINN.**
Dear Sir— I thank you for your letter of the 12th, and for all the trouble you have taken to bring the "International Stock Food" to notice. The merits of the food for horses in a poor condition were not unknown to me before your communication came to hand, but I had not given it close attention as a possible medicine for other animals in trouble. A recent trial of the food with one of my suffering horses had disclosed its "Triple-Action" character and I had decided to give it to the remainder, all of which had refused to eat the ordinary food and were sick. On the fourth day of this trial, but the remaining four rapidly recovered and are now well. I thank the preparation for food "International Stock Food" to all the pig the farm and its adjoining ponds during this outbreak, and quite believe have saved myself from serious loss by using your remedy. I am, dear Sir, yours faithfully, J. H. HARRIS, Director.

YOUR MONEY BACK IF THEY FAIL TO CURE

If "International" Preparations were not up to the standard we could not afford to make such an offer. We hereby agree to forfeit \$2000.00 if
