

GOSSIP.

Dr. R. C. Coates, Thamesville, advertises in this issue a handsome trotting stallion. In interested, look up the advertisement, and correspond with, or call upon, Dr. Coates.

CORRECTION OF ADDRESS.—Please note that the address in Mr. W. J. Mead's advertisement of Shorthorns should be Ceylon, not Ayton as in former issues.

See the new advertisement in this issue of the Way Bar Drum. If you know of anyone that has difficulty in hearing, have him send to the above named firm for booklet, explaining the simple device that relieves the difficulty.

Parties desiring to attend the dispersion sale of Mr. Geo. Herrington, to be held Wednesday, Feb. 28th, 1906, will note that morning trains will be met on day of sale at both Brighton and Colborne Station (G. T. R.).

Note the special thirty-day offer of Bogardus & Co., Chemists, Guelph, Ont., to send, free, one regular pint size of New Zealand Dip and Disinfectant with every bottle of Worthington's Stock Tonic ordered at regular price. See their advertisement.

Seaford Sentinel (11524) is an imported Clydesdale stallion, bred by Robert Somerville, Seaford, Bathgate, Eng., sire Montrave Sentinel (10094). He is offered for sale by Robert Anderson, Salford P. O., Ont., five miles from Ingersoll Station. Inspection or correspondence invited.

Attention is again called to the great combination sale of straight-bred Scotch Shorthorns, announced in last week's issue. The date of sale is March 14th, 1906, and will be held on the farm of Mr. Stephen Nicholson, 4½ miles southwest of the town of Parkhill (G. T. R.). Further announcement next week.

Ontario readers should not overlook the advertisement of Joseph Fletcher, of Oxford Mills, Ont., Kemptville Junction Station (C.P.R.), who announces a dispersion auction sale, on March 6, of his entire herd of 50 registered Holstein cattle, imported Shire and Coach horses, work horses, colts and pigs, also his dairy utensils and 300-acre farm. For terms and further particulars turn up the advertisement, or write Mr. Fletcher, mentioning this paper.

Douglas Thomson, Woodstock, Ont., writes: "Trade in Berkshires has been very good. I have shipped pigs to most all parts in the Dominion, also to Quebec and the United States, and have received many complimentary letters from my customers, expressing their satisfaction with the pigs they bought from me. I wish to thank 'The Farmer's Advocate' for the business it has brought me."

TO OWNERS OF SAWMILLS, ETC.

If you require anything in the line of sawmill machinery, sawmills, planers, matchers, wood saws, power axes, gasoline engines, boilers and engines (portable or stationary), grinding mills, etc., write before purchasing to the American Sawmill Machinery Co., 114-118 Liberty St., New York, for their catalogue of up-to-date machinery. You are likely to find in it exactly what you want.

P. D. EDE'S HOLSTEINS.

Everybody who follows the records of the Advanced Registry tests of the Canadian Holstein-Friesian Association is familiar with the name of P. D. Ede, Oxford Centre, Ont., whom we welcome to our advertising columns, this issue. Business is good in Holstein circles these days, and the progressive breeders who have gone in for official testing deserve the good things now coming their way. But even Advanced Registry men need to advertise; in fact, it pays them best of all, for they have something worth offering, and Mr. Ede has got into the swim by putting his announcement in the paper that reaches the men who want good dairy stock. For particulars of offerings, see his advertisement.

DON'T THROW MONEY AWAY

THE SETTING HEN—Her failures have discouraged many a poultry raiser.

You can make money raising chicks in the right way—lots of it.

No one doubts that there is money in raising chickens with a good incubator and brooder.

Users of the Chatham Incubator and Brooder have all made money. If you still cling to the old idea that you can successfully run a poultry business using the hen as a hatcher, we would like to reason with you.

In the first place, we can prove to you that your actual cash loss in eggs, which the 20 hens should lay during the time you keep them hatching and brooding, will be enough to pay for a Chatham Incubator and Brooder in five or six hatches, to say nothing whatever of the larger and better results attained by the use of the Chatham Incubator and Brooder.

If you allow a hen to set, you lose at least eight weeks of laying (three weeks hatching and five weeks taking care of the chickens), or say in the eight weeks she would lay at least three dozen eggs. Let the Chatham Incubator on the hatching, while the hen goes on laying eggs.

Our No. 3 Incubator will hatch as many eggs as twenty setting hens, and do it better. Now, here is a question in arithmetic:—

If you keep 20 hens from laying for 8 weeks, how much cash do you lose if each hen would have laid 3 dozen eggs, and eggs are worth 15 cents per dozen? Ans.—\$9.00.

Therefore, when the Chatham Incubator is hatching the number of eggs that twenty hens would hatch, it is really earning in cash for you \$9.00, besides producing for your profit chicks by the wholesale, and being ready to do the same thing over again the moment each hatch is off.

Don't you think, therefore, that it pays to keep the hens laying and let the Chatham Incubator do the hatching?

There are many other reasons why the Chatham Incubator and Brooder outclasses the setting hen.

The hen sets when she is ready. The Chatham Incubator is always ready. By planning to take off a hatch at the right time, you may have plenty of broilers to sell when broilers are scarce and prices at the top notch. If you depend on the hen, your chicks will grow to broilers just when every other hen's chicks are being marketed, and when the price is not so stiff.

The hen is a careless mother, often leading her chicks amongst wet grass, bushes, and in places where rats can confiscate her young.

The Chatham Brooder behaves itself, is a perfect mother and very rarely loses a chick, and is not infested with lice.

Altogether, there is absolutely no reasonable reason for continuing the use of a hen as a hatcher and every reason why you should have a Chatham Incubator and Brooder.

We are making a very special offer, which it will pay you to investigate.

Small Premises Sufficient For Poultry Raising.

Of course, if you have lots of room, so much the better, but many a man and woman are carrying on a successful and profitable poultry business in a small city or town lot. Anyone with a fair sized stable or shed and a small yard can raise poultry profitably.

But to make money quickly, you must get away from the old idea of trying to do business with setting hens as hatchers. You must get a Chatham Incubator and Brooder.

To enable everybody to get a fair start in the right way in the poultry business, we make a very special offer which it is worth your while to investigate.

We can supply you quickly from our distributing warehouses at Calgary, Brandon, Regina, Halifax, Chatham. Factories at CHATHAM, ONT., and DETROIT, MICH.

The MANSON CAMPBELL CO., Limited, Dept. No. 1, CHATHAM, CANADA

Let us quote you prices on a good Fanning Mill or good Farm Scale.

The Chatham Incubator and Brooder has created a New Era in Poultry Raising.

The setting Hen as a Hatcher has been proven a Commercial Failure.

The Chatham Incubator and Brooder has always proved a Money Maker.

A Light, Pleasant and Profitable Business for Women

Many women are to-day making an independent living and putting by money every month raising poultry with a Chatham Incubator.

Any woman with a little leisure time at her disposal can, without any previous experience or without a cent of cash, begin the poultry business and make money right from the start.

Perhaps you have a friend who is doing so. If not, we can give you the names of many who started with much misgiving only to be surprised by the ease and rapidity with which the profits came to them.

Of course, success depends on getting a right start. You must begin right. You can never make any considerable money as a poultry raiser with hens as hatchers. You must have a good incubator and brooder, but this means in the ordinary way an investment which, perhaps you are not prepared to make just now, and this is just where our special offer comes in.

If you are in earnest, we will set you up in the poultry business without a cent of cash down. If we were not sure that the Chatham Incubator and Brooder is the best, and that with it and a reasonable amount of effort on your part you are sure to make money, we would not make the special offer below.

WE WILL SHIP NOW TO YOUR STATION FREIGHT PREPAID

A CHATHAM INCUBATOR and BROODER

You Pay us no Cash Till After 1906 Harvest

No. 1—50 Eggs
No. 2—100 Eggs
No. 3—200 Eggs

THE CHATHAM INCUBATOR—Its success has encouraged many to make more money than they ever thought possible out of chicks.

Every Farmer Should Raise Poultry

Almost every farmer "keeps hens," but while he knows that there is a certain amount of profit in the business, even when letting it take care of itself, few farmers are aware of how much they are losing every year by not getting into the poultry business in such a way as to make real money out of it.

The setting hen as a hatcher will never be a commercial success. Her business is to lay eggs and she should be kept at it. The only way to raise chicks for profit is to begin right, by installing a Chatham Incubator and Brooder. With such a machine you can begin hatching on a large scale at any time.

You can only get one crop off your fields in a year, but with a Chatham Incubator and Brooder and ordinary attention, you can raise chickens from early Spring until Winter and have a crop every month. Think of it!

Quite a few farmers have discovered that there is money in the poultry business and have found this branch of farming so profitable that they have installed several Chatham Incubators and Brooders after trying the first.

Perhaps you think that it requires a great deal of time or a great deal of technical knowledge to raise chickens with a Chatham Incubator and Brooder. If so, you are greatly mistaken. Your wife or daughter can attend to the machine and look after the chickens without interfering with their regular household duties.

The market is always good and prices are never low. The demand is always in excess of the supply and at certain times of the year you can practically get any price you care to ask for good broilers. With a Chatham Incubator and Brooder you can start hatching at the right time, to bring the chickens to marketable broilers when the supply is very low and the prices accordingly high. This you could never do with hens as hatchers.

We know that there is money in the poultry business for every farmer who will go about it right. All you have to do is to get a Chatham Incubator and Brooder and start it. But perhaps you are not prepared just now to spend the money. This is why we make the special offer.

IS THIS FAIR?

We know there is money in raising chickens. We know the Chatham Incubator and Brooder has no equal.

We know that with any reasonable effort on your part, you cannot but make money out of the Chatham Incubator and Brooder.

We know that we made a similar offer last year and that in every case the payments were met cheerfully and promptly, and that in many cases money was accompanied by letters expressing satisfaction.

Therefore, we have no hesitation in making this proposition to every honest, earnest man or woman who may wish to add to their yearly profits with a small expenditure of time and money.

This really means that we will set you up in the poultry business so that you can make money right from the start, without asking for a single cent from you until after 1906 harvest.

If we know of a fairer offer, we would make it. Write us a post card with your name and address, and we will send you full particulars, as well as our beautifully illustrated book, "How to make money out of chicks." Write to-day to Chatham.

ADVERTISE IN THE ADVOCATE.

CLEARING THE LAND.—Every farmer who clears his land is simply avoiding waste and saving money. Every stump left standing is using valuable space, which should be raising money-producing crops. An up-to-date and easy way to get rid of the stumps is by the use of Swensen's Malleable Stump-puller. This splendid machine is made in different sizes by the Canadian Swensen's, Limited, Kent St., Lindsay, Ont., who will supply you with their excellent catalogue if you ask for it. All farmers with stumps on their land should learn about this stump machine.
