

# Save one ton in seven

**L**ET us send you this Book. It tells how to heat your home comfortably—and save one-seventh of your Coal Bill. ¶ The Hecla-steel-ribbed fire-pot makes this saving. With three times the radiating surface of any other furnace, it sends more heat to the living rooms and less to the chimney. ¶ Everyone who is building a home, everyone who has a worn-out furnace or one that is wasting coal, will value the suggestions and information contained in "Comfort & Health."

## Hecla Furnace

FOR COAL AND WOOD

Healthful heating is not possible with a leaky furnace. Coal Gas is not only unpleasant—it is a menace to health. The Hecla will supply your whole house with pure warm air because it cannot leak gas or dust.

Every point where a leak might otherwise occur is fused by our patent process absolutely tight. Time and use cannot loosen the Hecla Fused Joint.

Is 1/7 of your Coal bill worth saving? Do you want more healthful heat?

Write for "Comfort & Health," a book on the sane heating of homes.

## Seed Time and Harvest!

So quickly the seasons come and go that the up-to-date farmer must save time by employing all modern aids to scientific farming.

A telephone on the farm is the greatest of all time and labor savers. No long tie-up of the work through an accident is possible on the farm with telephone service.

The Bell Telephone Company of Canada has over 190,000 stations in Ontario and Quebec, many of these serving farmers. It has direct connection also with 475 Independent Companies serving over 50,000 farmers.

More than 9,000 pole miles of Long Distance line connect Bell subscribers with all points in Eastern Canada and the United States.

If you have no telephone, consult our nearest Local Manager before Spring construction starts.

Every Bell Telephone is a  
Long Distance Station.

Co. of Canada**

Pump annoyances never worry the farmers who are fortunate enough to be using the

## Imperial Anti-Freezing Pump

The "Imperial" is the pump best suited for all farm purposes.

It has a large air-chamber, extending to top of stand, containing 127¼ cubic inches. Has 1¼-inch plunger-pipe instead of stuffing-box. The advantage over the stuffing-box is that it has three plunger-buckets which are self-expanding, and therefore require no attention. Can be used on any sized pipe from 1¼ to 2 inches in diameter, tapped for 1¼, 1½ or 2-inch pipe. On tubular wells, the plunger can be withdrawn without removing the pump.

Get our illustrated catalogue with prices—sent postpaid. This interesting catalogue sent to you on receipt of post card. Send us your address to-day.
