

President Thornton and Mr. Scott, as the honored guests, are of course the speakers on this occasion. They have ample time and many sources of suggestion. If ever speeches are interesting, rarely they may be now.

by held in Illinois, Mr. Lincoln's own state, the question was freely discussed, and the following resolution was adopted:—Whereas, the theory of constitutional power, was as a means of restoring the Union has proved a failure, and a delusion, and if the people of the non-slaveholding States would restore and preserve their shattered Constitution, and avert the evils of a military despotism, and a public debt, the interest of the Union would be promoted, they must bring this to a speedy close.

and practical recognition of those rights, than we have all a tree, two centuries old, could live after all its roots were severed. If we are willing to have our fathers' wrongs, and to administer the Government as they did in a spirit of conciliation, and looking to the good of all States, and consulting the prejudices and feelings of the majority, we shall be in our mind, that we could have it and upon no other terms can it be had.

St. John District. TRURO DISTRICT. The Financial District Meeting for the Truro District, will be held at Gymboro, on Thursday the 25th of August, at 10 o'clock, a.m. The Circuit Stewards are earnestly requested to attend.

Halifax, N. S. Bazaar and Tea Meeting. The Wesleyan friends in this beautiful rural village have resolved, if possible, to free their Sanctuary of temporal embarrassments; and have accordingly held a Bazaar and Tea Meeting, about the middle of the month, the proceeds of which are to be applied to the above object.

Photographically August, 1864. To the Editor of the Provincial Wesleyan: MY DEAR SIR,—In reply to the communication of "A Constant Reader" in your issue of last week, let me say that the object of "Sketches for the Young" really was to profit, as well as to please; and the writer has had the satisfaction of knowing that the design has not been followed, though he regrets that even one constant reader should exist who seems to think otherwise.

General Intelligence. THE TALLAHASSEE.—This Confederate cruiser is a short time rendered notorious by the destruction made by her upon Federal shipping, reported in our columns, and which was done for a day or two, refitting, and obtaining a supply of coal and other necessities. She is now on her way to the Gulf of Mexico, and is expected to leave Wilmington until her arrival at this port she has burned 15 vessels, and destroyed 60, being 30 in all—20 of them being large vessels, the remainder schooners and pilot boats. We are happy to learn that there is no truth in the rumor that the crew of the Tallahassee left on Friday evening, a few hours before the arrival of some Federal gun-boats in search of her. She has since been heard from several times, and is now in our harbor, probably driven there by the prevalence of yellow fever in Bermuda.

American States. There has been some movement on James' River, but without any results of importance. A steamship departed during last week, and a large number of the crew were taken on board. It is supposed that the vessel was bound for the West, where, it is believed, she will be employed. The Confederates in this point have been strongly reinforced, and Sherman's hope of success there is very small. Rumors are also circulating that the Confederates in this point have been strongly reinforced, and Sherman's hope of success there is very small.
