Chris-tie has extended invitations to the listowel Oddfellows and to a number of his friends in this town and in Brussels, to visit his place in the 2nd concession of Elma, this (Friday) evening and par-ticipate in a strawberry social to be given by him. Mr. Christie has several acres of this luscious fruit under cultivation, and his liberal invitations are evidence that he intends to treat his friends sump-tuously. Grand have been engaged. QUERY.—Who looks after the interests of bands have been engaged. QUERY.—Who looks after the interests of Listowel at the County Council Board? With our Reeve off in Muskoka filling his lucrative appointment, and our Deputy-reve's name not appearing on the division list of the Council proceed-ings, it would be inferred that this town had been left to take its chance in matters of County legislation. In the event of any question arising at the County Council in which Listowel was interested, it would certainly not be very creditable to us to have no one there to look after our rights BOYDARY LIFFORMENTS.—The town-

L., held in Listovel on Saturday last, it was re-solved to celebrate the anniversary of the Battle of the Boyne at St. Mary's this year. The meeting was nearly equally divided as to wether St. Mary's or Hamilton would be the most desirable point to go to; the expectation of having the brethren of South Perth join them in celebrating in this town next year, however, decided the matter in favor of the "stone town." Wallace District Lodge has been invited to accompany them, and it is probable the invitation will be accepted. The meeting at St. Mary's promises to be a very large one, as it will include the district lodges of South Perth; North Perth, with the ex-ecption of Mornington District, which has concluded to celebrate this year at Millbank; and a considerable contingent from the neighboring County of Huron. Messrs. S. S. Rothwell, Dr. Burgess and A. M. Morrow were appointed at the Elma District meeting as accummittee of management. Kennedy, deputy-reeves of the respec-tive townships, went over the road on Tuesday last for the purpose of ascertain-ing the amount of work required. The improvements which they intend making will include grading and graveling where exceeded. The townships are sensible in expending money for the maintenance of this road, as it is of great service to both of them. Turget has been an unusual amount of

This "land of promise," as it has been termed, doubtless has its drawbacks as well as its advantages; but we firmly hold to the opinion that it offers a fair field to the persevering tiller of the soil who possesses a little capital to give him a start.
