The Harbor board met at City Hall at four o'clock yesterday and dealt with matters of routine.

The board at yesterday's meeting opened the tenders for piling No. 1 wharf at Sand Point to prevent it sliding out into the harbor. The tender of G. S. Mayes was the only one received and the matter was laid over to be taken up at a special meeting The same was done with the matt of berth allotment for the winter port business. The Allan Line mad application for berths 1 and 2. Canadian Pacific Railway applied for the berths used before by their steam

ers, berths 1, 2 and 3. The contract for placing a roof upon the warehouse used by th Dominion Atlantic Railway was awarded Magee and Co., whose tender was lowest. G. H. Hamilton also ten dered.

A claim of \$100 against the city b Francis Kerr was cancelled by a con tra account.

The request of the provincial govern ment that the frostproof warehous next the D. A. R. warehouses, which had been originally built for the ap-ple export trade, be used in the Cuban otato trade was favorably consider ed. The board decided that the ware house in question should be given for the purpose mentioned from the preent time until May 1, and that no rent I be charged. The city, however, wi not make any repairs to the interio

of the warehouse. The application of George Dick for a lease of the Quinn wharf at an an nual rental of \$209 was refused on th recommendation of the City Engineer who estimated that it would cost \$2,000 to rut the wharf in a state of repair The report of F. E. DeMille to the effect that he had seen several scow loaded with mud dredged below Sand Point dumped near the breakwater was heard. The board decided to call the attention of Engineer Scamme to the matter.

100.00 NEW YORK, Aug. 31-That seven, little children, inmates of St. Malachi's Home for Children at Rockaway Park, L. I., were suffocated in a fire which destroyed a portion of the home last night, was discovered today by firemen digging in the ruins of the burned building. There were 750 chilareh in the institution which is conducted by the Sisters of St. Joseph of Brooklyn. Most of them marched out of the buildings in good order last night, when the fire alarm was sounded and it was supposed that all had escaped until the little bodies were found in the smouldering embers today. Nearly all of those burned death were under five years old. The portion of the dormitory in which they slept was directly over the laundry where the fire originated. How they were overlooked in the work of reserve last night or whether there were other bodies remaining in the ruins could not be determined this morning, as, most of the records of the institution ; were destroyed or inaccessible. The names of the burned children ware unknown.

.The fire was discovered in the laundry in the north wing of the home at 8 o'clock last night. Three hundred and fifty small children were in 'heir ccts' on the third and fourth floors of that wing and some of the older children were attending evening prayers in the chapel, As the alarm sounded the cider children marched from the chapel to the board walk along the seach and
