## S. S. ASSOCIATION

A meeting of the City Sunday School Association was held last evening at the home of the president, Mr. Ranton. Reports were heard from the superintendents of the different branches of work, and the outlook in Sunday School work is very bright.

Mr. Chrysler reported on his baseball league among the boys this summer. The Eagle Place boys succeeded in taking first place, and as winners each boy received a fob. Another encouraging feature was the report given by Mr. Gordon, teacher of the Institute, as to the number of schools preparing to enter in this phase of the work. Triumphant leadership will mean better Sunday schools and there is nothing more important than Sunday school work. During the meeting it was moved, that from henceforth, the secretary of the Y. M. C. A. and two secretaries of the Y. W. C. A. be asked to attend Associational Executive meetings.

## MOTORIST MUST PAY

"I have an automobile and pay an auto license. Should I have to pay poll tax too?" was the anxious query that came over the telephone into the city tax collector's office this morning. ## TWO FULL MOONS

Not since 1899 has the distinction of possessing two full moons fallen to the lot of any month. The moon's wanderings have again brought its position up to a point where it appears, in the present month, in two full phases, one on Saturday, Sept. 1, and the other on Sunday, September 30. The time required by the moon to complete its cycle from full moon to full moon is 29 1/2 days. This period is called its synodic revolution, and is what we ordinarily speak of as the lunar month. This period is liable to slight variation. It sometimes amounts to a little over half a day one way or the other. A complete revolution of the nodes takes place every 18.6 years. After the lapse of this period the motion is repeated in the same manner.

working behind the lines and at hostile batteries, machine guns, on transports. During the day, 68 bombs were dropped on the Ledgeham railroad station, 96 on two airdromes northeast of Lille and 103 on billets and ammunition dumps in the battle area. At night, in spite of the most unfavorable weather, bombs were dropped on two towns, on the Ledgeham, Roulers and Menin railway stations.

"In the middle of the day, the German craft became very active, attempting to interfere with our artillery and our bombing and low-flying machines.

"In evening when the weather improved they kept well to the east of the lines and were not inclined to fight. Ten hostile machines were destroyed and six were driven down out of control. Ten of our machines are missing."

## Are YOU Missing Something that Millions Enjoy?

Why do you suppose the majority of men on this continent who can afford the money for shaving satisfaction, are using the Gillette Safety Razor?

Why is the Gillette a treasured item of equipment in the kit of practically every officer and of tens of thousands of men in the Canadian Overseas Forces?

Only one reason could possibly hold good with so many level-headed men. It's this—the Gillette gives a shave, day in and day out, that no other razor in the world has ever equalled—and does it handily in five minutes or less. That is why over a million more men everywhere are adopting the Gillette every year.

YOU would appreciate this as much as any other man! The saving of time—the independence of barber shops—the resulting economy—and above all the matchless comfort of the clean, quick Gillette shave—these are real, personal advantages which you must not longer miss.

The Gillette Safety Razor is a leading specialty with Hardware, Drug and Jewelry Dealers everywhere. "Bulldogs", "Aristocrats" and Standard Sets cost \$5.00—Pocket Editions \$5 to \$6.—Combination Sets \$6.50 up.

## SAYS THE DRUG IS AN ETHER COMPOUND

Just a few drops loosen any corn so it lifts out without pain.

You simply say to the drug store man, "Give me a quarter of an ounce of frezone." This will cost you little but is sufficient to remove every hard or soft corn from one's feet. A few drops applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, can be lifted out with the fingers without pain. This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that while frezone is sticky it dries in a moment, and seems to simply shrivel up the corn without inflaming or even irritating the surrounding tissue or skin. Don't let father die of infection or lockjaw from whitening at his corns, but cut this out and make him try it.
