ORDERED TO SUBMIT A NEW SCHEDULE

Minister of Railways Peremptorily Refuses to Accept Tariff Sheets Prepared by the White Pass and Yukon Railway - New Rates Must Be Made by Which the Charges Now Being Exactd Will Be Reduced at Least Fifty Per Cent. - The Government Is in Earnest and Will Compel the Railway Company to Make a Radical Change in Its Policy Towards the People in the Yukon Territory.

OTTAWA, NOV. 22.—THE WHITE PASS AND YUKON RAILWAY HAS BEEN ORDERED FORTHWITH TO SUBMIT A NEW TARIFF SHEET FOR THE APPROVAL OF THE MINISTER OF RAILWAYS AND CANALS. THE PREFERRED RATE CARD OF THE COMPANY HAS BEEN PEREMPTORILY REJECTED. IT IS STATED PLAINLY IN THE MINISTER'S COMMUNICATION THAT THE RATES MUST BE CUT AT LEAST FIFTY PER CENT IN ALL CASES.

MAY BE RECOVERED.

Ottawa, Nov. 22.—The freight and passenger rates as contained in the tariff submitted by the White Pass and Yukon Railway Co. to the department of railways and canals for approval is indeed a fair raise. On all classes of freight the company seeks authority to charge from \$1.25 to \$1.55 per hundred lbs. for a hauling distance of 30 miles and proportionately so that the charge runs from \$3.75 to \$4.50 per hundred lbs. for 90 miles. Passenger rates run from 30 cents per mile on short distances to 19 cents for longer distances. Thus the fare to Log Cabin is \$3.50, to Bennett, \$6; to Caribou Crossing, \$10.00, and to Whitehorse \$18.

E. E. JESSUP ALIVE AND SAFE ON THE LOWER RIVER

E. E. Jessup, the former employee of the Dawson Club who has been missing since September 26 and whose mysterious disappearance has given rise to much speculation as to possible foul play, is alive and now located somewhere down the river on the American side. Constable Hawkins and Special Constable Wright, who were dispatched to the Sixteen-mile road house a few days ago to ascertain the authenticity of the hills addition light upon the cause of Jessup's sudden disappearance. When there Jessup seemed pursued with the sole idea of putting as great a distance between himself and Dawson as quickly as possible. After executing the bills of sale, he took a small boat at Halfway, continuing his journey alone.

Why Jessup should have chosen such an extraordinary way of leaving the city remains as much of a mystery as ever. The wages due him from the Dawson Club still remain uncollected for and so far as the police have been able to ascertain he was in no way implicated in any criminal matter.

acted are contrary to law and that it will be necessary for the company to put itself in proper relation to the laws regulating the conduct of the railway business without delay, failing which the government would be forced to the drastic course of suspending operating rights and privileges in the public interest.

AT VANCOUVER OFFICE.

Vancouver, Nov. 23.—Inquiry at the local offices of the White Pass Company here this morning revealed the information that no orders have as yet been received from the government at Ottawa, but the re-adjustment of classification of freight tariff is under consideration, although no definite action is expected for some time. For the present it is not believed any great alteration of passenger tariff will be insisted upon as it is mainly of the freight tariff that complaint is made.

WOULD-BE CONSPIRATOR

Formerly Engaged in Business at Bennett.

It is believed that the head of the conspiracy to overthrow the Yukon government, visited Dawson last summer for several weeks. Grehl was located at Bennett two years ago, where he conducted a real estate business. While here he met a number of Bennett's acquaintances but so far, as known he took none of them into his confidence regarding his scheme to upset affairs of state in this country. Those who know him say he is a visionary sort of fellow in whom but little credence can be placed.

SNAP SHOTS DURING AND AFTER LAST NIGHT'S ALLEGED CONTEST.

NO DANGER EXISTS

To Country in Section 41 Say Governor Ross.

The press dispatch published in the News of Wednesday evening last and which was commented upon under a four-column head the evening following, the fear being expressed that the new order in council amending section 41 of the mining regulations would be again the closing of all ground lapsing to the crown from further re-location, does not prove such a sugar-bait after all, at least so it is being interpreted here by Commissioner Ross. The wire in question, which had such an agonizing effect upon the mining editor of the News was as follows: "Ottawa, Nov. 13.—Section 41 of the regulations governing placer mining in the Yukon territory, passed last March, has been amended. The minister of the interior can now dispose of any mining claim which may be forfeited under the provisions of the said section. Heretofore no provision existed for the disposition of claims forfeited under the terms of section 41."

had such an agonizing effect upon the mining editor of the News was as follows: "I am satisfied in my own mind it was never the intention of the order in council to do away with re-locations and have so expressed myself to Mr. Senkler, though on account of the apparent ambiguity in the dispatch I have wired the minister of the interior for further and more complete instructions. I feel sure that the trouble lies in the misinterpretation of the order as understood by the reporter who filed the message. Such an act as that of withdrawing all ground from relocation would be very detrimental to the best interests of the country, a policy I am sure it is not the government's desire to pursue."

No official information has yet been received concerning the new order.
