Whooping Cough

"The disease I most dread is Whooping Cough, for children are often permanently injured by the awful straining of the cough. You should never neglect it, and treatment should be started at the first symptom. You cannot mistake the symptoms: protracted coughing, worse at night; peculiar whoop; labored expectoration of mucus; apparent suffocation after coughing."

Chamberlain's Cough Remedy

is a positive remedy for this disease—repeat the dose frequently, for if given freely it liquefies the tough mucus, makes it easy to expectorate and counteracts any tendency toward pneumonia. There is no danger whatever from Whooping Cough when Chamberlain's Cough Remedy is freely given.

Yours for Health — Geo. J. Chamberlain

POTATOES CONTINUE TO INCREASE IN PRICE.

Potatoes are still going up, to use a market phrase. In Boston sales are being made by retail markets and grocery stores at 50 cents a peck or at about \$5 a barrel. The restaurants and hotels in Boston are planning to make an extra charge for potatoes.

In St. John the wholesale prices range from \$2.50 to \$3 a barrel, according to quality. At retail they are selling here at from \$3 to \$3.50 a barrel in small quantities. There is every indication of a further rise in this city.

Woodstock quotes potatoes at \$2.75 a barrel at first hands. In Westmorland and Kent counties potatoes are scarce and many of them are of inferior quality. At Shediac the prevailing prices are \$1.50 and upward. Prices in Cuba are still advancing.—St. John Standard.

British Patience With U. S. Protest Short, Says Standard

London, Jan. 17—Accepting as authoritative cabled quotations from American newspapers to the effect that President Wilson is about to demand a modification of the British methods of restricting maritime trade, the Evening Standard asserts such a demand has "no chance of success." It continues:

"The patience of the British public is exhausted. The ministers are going to be forced to stop the loop-holes through which Germany is getting supplies from neutrals, and (to our shame) from this country. So if the American Government believes its demand (prompted by Berlin) for more loop-holes is likely to be successful, Washington is making a big mistake."

Somebody has said: "Any newspaper is the companion and friend of the family, but the local paper is the one identified with the interests of the home. It is conducted by those you know. Its columns are filled with what is of special value to you. In its prosperity you have a vital interest and to its prosperity you can best contribute by giving your patronage and support. It is your neighbor."

Donald Keith, one of the best known and most highly esteemed citizens of Halifax, passed away recently in that city, after a brief illness. Heart trouble was the cause of death. The deceased was 86 years of age, and he had a long and successful business career in Halifax. He leaves a widow and five children. The sons are Wilfrid, of Winnipeg; William L., of the Bank of Nova Scotia; Donald, barrister, of North Battleford; another son, Roydon, was killed in France at the battle of Loos. He was attached to the First Battalion of the Coldstream Guards. The daughters are Miss May, Mrs. George Henderson, and Mrs. DeB. Carritte. The late Donald Keith was a director of the Academy of Music, and the Acadia Fire Insurance Company. He was also a shareholder in many of the large corporations in this Province.

The old pensioner who blew the bellows for the organ had a most exasperating failing. In spite of frequent admonitions he would continue blowing after the music had stopped, thereby producing most undesirable sounds. One day the organist could stand it no longer. The congregation had been set tittering by the old man's forgetfulness, and during the sermon the organist seized the opportunity to write him a note on the matter and hand it to the choir boy to deliver. Misunderstanding the whispered directions, the lad handed the note to the vicar, who astoundedly read the following:

"Will you stop when I tell you to? People come here to listen to my music, not to your horrible noise."

RUSSIA IS BUYING \$2,000 MACHINE GUNS.

Rumor is Heard of an Order for 10,000,000 Shells.

New York, Jan. 16—Announcement that the Russian buying commission in the United States has approved contracts for \$2,000,000 worth of machine guns with four American companies was made yesterday after war departure for Russia of General Germonius, head of the commission. The contracts call for 32,000 machine guns, which is said to be the largest order of its kind placed here by any of the belligerents since the beginning of the war.

It was stated today that Russia is endeavoring to place contracts in this country for 10,000,000 high explosives and shrapnel shells.

Prohibition to be Taken Up in Federal Parliament

Ottawa, Jan. 16—A request for the declaration as to their stand on the question of a federal measure for prohibition of the manufacture, sale and importation of liquor throughout the dominion for the duration of the war, and for a three-year reconstruction period after peace is declared, has been mailed to the members of the government and to every member of parliament on behalf of the Citizens' League, which originated the movement. It is causing a considerable amount of uneasiness and political uncertainties to the government and the members of the house. The issue is bound to come before parliament this season, and it is understood that the replies of each individual member as to his stand on the question are to be made public by the league.

Sir George E. Foster, as acting premier, has given his reply. In effect, he says that if it is made clear to the government that a sufficient majority of the people of the dominion desire such legislation, it will be the duty of parliament to pass it.

The general opinion of members of parliament is that while there will undoubtedly be a large proportion of the members in favor of a general federal prohibitory measure, the whole question will probably be shelved after a non-conclusive discussion has been engaged in and that prorogation will come with the resolution still on the order paper.

MONTENEGRO BETRAYED BY ITS KING

Nicholas Secretly in League With Austria
 (Halifax Herald)

Rome, Jan. 18—Reports that the Montenegrins were heroically fighting the Austrians were false. On the contrary, they were secretly aiding them. They even informed the Austrians of the arrival of ships conveying provisions and munitions from Italy, thus enabling the Austrian submarines to sink the vessels.

King Nicholas has been secretly leagued with the Austrians since October, and practically solicited invasion of his country which he betrayed with the object of concluding a separate peace.

This explains and fully justifies the attitude of the allies, who knew that to aid Montenegro would be worse than useless. Had they supplied guns and ammunition to the Montenegrins they would simply have fallen into the Austrians hands.

King Nicholas alone is responsible for betraying his country. The majority of the Montenegrins, including his sons, are opposed to a separate peace which is bound to lead sooner or later to the dethronement of the king.
