FINANCIERS OPTIMISTIC.

The Dry Goods Economist in the current number gives the following excellent summary of the financial situation of the country:

A change as remarkable for its rapidity as it is gratifying in its results has come over the financial situation. The magnates who, a couple of weeks ago, professed to regard the outlook as black with thunderclouds now find that it has cleared, and if among those at the head of great interests pessimism has not entirely given place to optimism, at any rate the latter is apparent in a degree which far outweighs the former.

During the present week several features have come to the surface which indicate an improvement in feeling in financial circles. Thus, the new \$10,000,000 issue of New York City bonds, which a few weeks ago met with no response, has been oversubscribed not less than four and a half times, a factor which in itself shows that there is in reserve a substantial amount of investment money awaiting only a favorable opportunity. The money market has eased off, and although the situation in this regard has not entirely cleared in fact, it could not be expected to in so brief a period—it arouses considerably less anxiety than was the case but a very short time ago.

The change for the better seems to be clearly recognized by those who are familiar with conditions throughout the country, financially and otherwise. A few days ago Secretary of Agriculture Wilson, on his return from a tour through the West, scoffed at the talk of an impending panic, declared the whole country, and especially the West, to be immensely prosperous, and asserted that so well off financially was the West that the East was borrowing money from that section. This last statement the Secretary has since confirmed by the exhibition of circulars sent to an Iowa banker by Eastern banks which desired to raise money on high-grade industrial and railway securities. "Financiers are learning at last," says Secretary Wilson in this regard, "that if they want money they must go to the men who produce the most of it—the farmers. Our crops last year were worth \$6,500,000,000, and this year they will be worth \$500,000,000 or probably \$1,000,000,000 more."

Paul Morton, chairman of the Board of Directors of the Equitable Life Insurance Company, when interviewed this week in London by a New York Times representative, described the business situation throughout the country as good, and attributed the recent decline in securities not to any alarm, but to the great industrial activity, which had created an unusually urgent demand for money. He described the railroad outlook in the United States as not at all bad, saying that so long as we had good crops we would have good tonnage, and adding that there was no over-production of any kind.

Still more significant is the statement of E. H. Harriman, to the effect that conditions in the West and the business outlook there were as good as could be expected, the main thing to be wished for being freedom from frost between now and October 1st. Mr. Harriman, as might be expected, found some anxiety existing on the part of the money interests, due to the recent agitation against the corporations. He denied, however, that there was any business depression, and said that at the present time everything was still running at the top notch.

Within the dry goods trade, although the season is somewhat late, the great majority of merchants and manufacturers are optimistic and confident of an excellent fall and winter season. To those, if there now be, who take a less favorable view we commend the foregoing statements for thoughtful consideration.

\$30,000 FIRE IN TORONTO.

Defective Electric Wires Cause Blaze In Early Morning.
Toronto, Sept. 30.—Defective electric wires are blamed for a \$30,000 blaze, which broke out in the Carter-Crume Co.'s premises in the four-story brick building at 447 West King street, on Saturday morning.
Type-setting machines, presses, type and paper were severely damaged, the loss being heaviest on machinery.
The fire started in the fire department, under Deputy Chief Noble, had a hard time of it for a while, owing to the dense smoke.
The fire apparently started in the southeast corner of the flat and swept by a southeast wind, soon played havoc with the interior. The loss to the stock is fully covered by insurance.
Sixteen men and as many women were thrown out of work, and it will be a week or more before the company is able to resume operations.
State of Ohio, City of Toledo, Lucas County.
Frank J. Cheney makes oath that he, senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of One Hundred Dollars for each and every false statement made by him or by any agent of said firm in connection with the use of Hall's Catarrh Cure. Frank J. Cheney.
Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1888.
(Seal) A. W. Gleason, Notary Public.
Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free. F. J. Cheney & Co., Toledo, O.
Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.

London Election Date.

Ottawa, Sept. 30.—On account of some delay in arranging for the municipal election, the London House bye-election will not take place until Oct. 29. All three bye-elections take place on the same day.

For Life.

Chicago, Sept. 30.—Frank J. Constanine, recently convicted of the murder of Mrs. Louise Gentry, on Saturday, was sentenced to life imprisonment at Joliet.

OH, FOR A CLEAR COMPLEXION!

A clear complexion is the outward evidence of inward cleanliness. In bad health the face becomes a sign-board, telling of disease within. If yellow, bile is not properly secreted; if pallid, the kidneys are faulty; if skin is murky and dark circles beneath the eyes, look for constipation. Whatever the cause, no remedy compares with Dr. Hantson's Pills, which are mild, safe, purifying and vitalizing in their action. They give a marvelous rosy tint to the cheeks, brighten the eyes and establish health that defies age and disease. Sold everywhere in 25 cent boxes.

THIS TONIC BUILDS UP.

Many medicines stimulate, break down, leave you worse than ever. Ferrozene is different—it's a blood-former, a nerve-strengthening, a body builder. Pale anaemic girls are given color and vigor. The tired and sleepless are strengthened and restored. Better than all tonics I found Ferrozene," writes Mrs. F. F. Castleton, of Woodstock. "I was completely run down, cheeks were blanched, lips white and had every sign of anemia. Ferrozene added to my weight, gave me strength, ambition and good health." Nothing better; try Ferrozene yourself. 50c. per box at all dealers.

The women who are sure she is beautiful like to be told of it as often as her friends feel so inclined.
A Sample of What V.S.C. does.—Mr. Merrifield, "I was so severely stricken with Joint Rheumatism that I was confined to bed for a long time with swollen and stiff joints; it even affected my stomach. I gave up all hope of ever being cured. The doctor finally told me he could 'ease my pain but could not cure me.' My sister heard of your 'Veteran's Sure Cure,' and sent for a bottle. I took half of a \$1 bottle. This enabled me to walk about as usual. This was about six years ago, and I have had no return of Rheumatism. Mrs. H. Privat, Williamsford, Ont., Sept. 11th, 1907.

TOM GROVES IN CHATHAM

He Tells The Planet About His Trip Home—Is Feeling Fine

Looks the Picture of Health—Now Ready For Duty

Tom Groves, of this city, who has been enjoying himself for the past two months in the Old Country and incidentally providing interesting reading matter for his friends through the columns of this Planet, returned to his home in this city last Saturday night.
Mr. Groves paid a visit to The Planet editorial rooms yesterday afternoon. He is looking in the very best of health, and he claims that his trip has done him untold good, both in mind and body. His trip was made primarily to visit his relatives, and especially to see the country. Mr. Groves saw more than he can describe, but he does fairly well when he gets going, and the listener has no trouble in keeping interested in the conversation.
He tells a very amusing incident which happened to him just after his arrival where his relatives are. He was standing on the station platform looking around for his sister who was going to meet him there. It was twenty years since he had seen her, and as both had naturally changed very much in that time, neither was sure of the other.
"I was standing there looking around for my sister," said Mr. Groves, "when I saw a woman who seemed to be much interested in me. I thought it looked very much like a relative of mine, but I was not sure. I didn't want to be seen walking up and embracing some one else's sister, so I decided to walk around and keep my eyes open. The woman kept walking around, too, and finally we met face to face, and I decided to make a break anyway. As soon as I spoke, she knew who it was, and then everything was all right."
"The trip home was very rough for a couple of days," continued Mr. Groves. "There was one man trip seemed to be effected by the weather. He was taking his horse over, and when it got rough, he became despondent and threw himself overboard. The Captain lowered boats and tried to save him, but the poor fellow never came up. There were several other deaths on board. One was a stoker. He was working at the furnaces and came up to get some fresh air. He commenced to drink a lot of water, and he fell ill. He died a few hours afterwards and was buried almost immediately."
"We started from Liverpool at five o'clock on Friday, a week ago, and landed at Quebec last Friday. I was a home bird when we got started time all right, but when it was over I was anxious to get home. Coming back we had a concert on board the ship, and I was forced to keep up Chatham's reputation as a musical centre, by singing a solo. Judging by the applause I must have made a hit. I am glad to be home again, and I am ready for work again."
When Mr. Groves was walking down the street yesterday morning, he saw a drunken man who was so paralyzed that he couldn't speak. Instead of running him in Mr. Groves felt so good after his trip that he decided to be lenient. He was not on duty, but he took the man into a store, where he was still sleeping it off when last heard from.

GERMAN EMPEROR'S RECEPTION.

Channel Fleet Will Meet Him at Sea—London's Cordiality.

London, Sept. 30.—Every possible nerve is being strained to give the German Emperor and Empress a reception the like of which they have never experienced outside of their own country when they came to England in November. The court officials are co-operating with the civil, naval and military authorities to insure a cordial reception, and the result will probably be such as even to impress the Imperial visitor and his consort. Not very much can be done to impress the Emperor in a military way, but he is to be honored with a naval welcome of imposing dimensions. The whole channel fleet, under Lord Charles Beresford, will go out to sea to meet him, and more than a hundred pennants will fly at Spithead to salute their Majesties on their arrival.
There is no doubt this royal visit is intended to mark in a dramatic and picturesque way the better understanding between England and Germany, on which this country is now congratulating itself. Since the Kaiser or last made a state entry into the City of London many things have happened, including the notable limitation to his own influence in the field of European diplomacy. The Kaiser has kept the peace through everything, but so long as he remains the dominant figure in European politics the world had an uneasy feeling that it was too much at his mercy. When he comes back to London a few weeks hence the popular welcome will be all the more enthusiastic because by force of circumstances this feeling has faded away.
"The city is going to exceed itself in the cordiality and splendor of its hospitality. The main reception to the Emperor and Empress at the Guildhall will be on familiar lines, but the details will be filled in with quite exceptional solicitude and lavishness."

Most of us get what we deserve, even if we do not want it.
A gold-filled watch isn't as good as real, but a gold tooth may be.
The man who has his temper kept in the most readily mortified.

PATERSON'S COUGH DROPS
Made by an old recipe that has cured coughs and colds for two generations. Approved by doctors as sure remedy for all throat irritations. They loosen the phlegm, soothe the inflamed membrane, and in the end the cure is complete. THEY WILL CURE.

BIGAMIST CAPTURED.

Hintonburg Girl Returns Home Broken-Hearted.
Ottawa, Sept. 30.—Charles Gagne, who had a wife and children in Ottawa, surreptitiously courted and won the approval of Irene Schau of Hintonburg.
The pair eloped to Montreal and married there a few days ago. The man called himself Russell.
The girl's brother-in-law, hearing of the elopement, went to Montreal, quietly spotted their lodging and called in a detective, who placed the bigamist under arrest.
Gagne owned up to his deed.
Miss Schau did not know he was married prior to the ceremony with herself. She has returned home heart-broken.

GREAT DISTRESS IN HER THROAT.

Not an uncommon experience was that of Miss S. W. of Shuler, N. S. Doctors failed, still a quick cure was found in Catarrhoxone. Notice this statement: "I have been a most dreadful sufferer from bronchial trouble and asthma. On damp days I would hawk and suffer great distress in my throat. I used all kinds of medicines, but didn't get permanent relief till I used Catarrhoxone. It has strengthened my throat, cured my cough and made me entirely well." Refuse substitutes for the one reliable bronchial and throat cure. All dealers sell Catarrhoxone in 25c. and \$1 sizes.

Bonaparte After Railways.

Washington, Sept. 28.—United States attorneys yesterday were instructed by Attorney-General Bonaparte to institute suits against several railroad companies to recover penalties incurred by them for a total of 287 alleged violations of the safety appliance law.
The lines made defendants, together with the number of violations charged against each company, include: Buffalo, Rochester and Pittsburgh, 10; Erie Railroad, 9; Grand Trunk, 31; Lake Shore & Michigan Southern, 2; Michigan Central, 1; Pennsylvania Railroad, 1; Philadelphia & Reading, 2; Pittsburgh & Lake Erie, 2; Rutland Railroad, 2; Wabash Railroad, 5.

LIKE A THIEF IN THE NIGHT.

That's how pain comes. We sit near an open window, get stiff neck or sore back. Perhaps cool off too quickly after exertion—rheumatism develops.
Spend what you may, but money can't buy anything better than Polson's Nerviline. It's penetrating power enables it to reach deep tissues—that's why it cures aches that all else can't touch. For outward application we guarantee five times more strength than in any other liniment. Inwardly it's harmless and as sure as the hereafter to ease at once. Don't accept a substitute for Polson's Nerviline, which is the one great household panacea of today.

Italian Vigilance.

Kingston, N. Y., Sept. 30.—Giosuina Morana, an Italian, was indicted on Saturday by the grand jury for murder in the first degree. He was convicted of crime in Westchester County several years ago upon testimony offered by Luigi Pica, and upon his release from prison early this year began searching for him. While in New York City he killed another Italian and fled to Ulster County, where in June he discovered Pica. After finishing a card game, Morana walked behind Pica, drew back his head and cut his throat. Emotional insanity will be his defence.

Minard's Liniment Co., Limited.

Genta.—A customer of ours cured a very bad case of dysteria by the use of MINARD'S LINIMENT.
Yours truly,
VILANDIE FRERES.

Those interested in hunting should call at C. P. R. city ticket office, corner of King and Fifth streets, and secure copy of booklet on Hunting or Game. Hunters excursion rates will be on sale by the C. P. R. from Oct. 8th to Nov. 5th. Call and get particulars.
