TO OUR CUSTOMERS.

We have just put in, at great expense, a WONDERFUL MACHINE, heated by steam, work only passing through the rollers once - the result - WORK IS EASIER, WITH NO BACKS, and will last much longer than when fired by the old method, heated by gas, which has to pass through the rollers eight times.

P.S. - We have also added a newly invented machine to iron the edges of Collars and Cuffs.

DIDN'T SEE THE JOKE.

At a dinner given recently in London, one of the guests proposed a conundrum, "What goes around a button?" After the problem had been given up by the party he gave the answer. "A goat." There was a moment's silence. Finally one of the women spoke up.

"Why," she said, in a puzzled tone, "I didn't know they ate buttons."

A REMARKABLE RECORD.

Chamberlain's Cough Remedy has a remarkable record. It has been in use for over thirty years, during which time many millions of bottles have been sold and used. It has long been the standard and main reliance in the treatment of croup in thousands of homes, yet during this time no case has ever been reported to the manufacturers in which it failed to effect a cure. When given as soon as the child becomes hoarse or even as soon as the croupy cough appears, it will prevent the attack. It is pleasant to take, many children like it. It contains no opium or other harmful substance, and may be given as confidently to a baby as to an adult. For sale by All Druggists.

ECONOMICAL.

Our landlady is getting more economical every day.

What has she done now? She gave me the wishbone of the chicken we had on Christmas.

OWES HIS LIFE TO A NEIGHBOR'S KINDNESS.

Mr. D. P. Daugherty, well known throughout Mercer and Sumner counties, W. V., most likely owes his life to the kindness of a neighbor. He was almost hopelessly afflicted with diarrhoea; was attended by two physicians who gave him little, if any, relief, when a neighbor learning of his serious condition, brought him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured him in less than twenty-four hours. For sale by All Druggists.

Stanstead Junction, P. Q., August 12th, 1893.

Gentlemen, - I fell from the bridge leading from a platform to a loaded car while assisting my men in unloading a load of grain. The bridge went down as well as the load on my back and I struck on the ends of the sleepers, causing a serious injury to my leg. Only for its being very fleshy would have broken it. In an hour could not walk a step. Commenced using MINARD'S LINIMENT and the third day went to Montreal on business and got about well by the use of a cane. In ten days was nearly well. I can sincerely recommend it as the best Liniment that I know of in use.

Yours truly, C. H. GORDON.

IMMORTAL JOAN OF ARC

ROUEN'S MONUMENT TO MEMORY OF WARRIOR MAIDEN.

Three Week Year the City Honors Her Deeds - Festival in Without Parallel, for French and English People Stand on Common Ground to Commemorate Her Faith, Courage and Determination - Calm and Dignified.

The historic town of Orleans annually celebrates in May the day when Joan of Arc entered the town as a victor. The fête lasts during the evening of the 7th and the whole of the 8th. In many ways the festival is without parallel, for it is a day when French and English people stand on common ground to do honor to the unfortunate maid whose faith, courage and determination played so conspicuous a part in the deliverance of her country.

The town of Orleans is a very aristocratic, ecclesiastical and conservative one; "un peu morte," but the influx of people from other parts of France and the Continent on this occasion, together with the decorations, gives the town an unusually animated appearance. It is said that in no other town could the fête preserve its calm and dignified character. On the evening of May 7 the most interesting part of the whole ceremony takes place. It is known as "La Remise de l'Etendard."

The original standard carried by Joan is carefully preserved during the year in the Hotel de Ville, but on the eve of the fête it is carried by

MONUMENT TO JOAN OF ARC AT ROUEN. The mayor, accompanied by all the chief civic and military dignitaries of the town, to the steps of the great cathedral, which stands a little to one side of a square, where the soldiers who are to take part in the torchlight procession which precedes and follows "La Remise de l'Etendard" are massed. The standard is confided to the care of the Bishop of Orleans and left in the cathedral for the night.

The moment the mayor reaches the steps, three minutes of silence ensue and these are the signal for the illumination of the facade of the cathedral. The prelates salute the members of the Municipal Council, a benediction is pronounced, and the clergy re-enter the cathedral with the standard. The military torchlight procession then marches to the Hotel de Ville.

At sunrise next morning one is awakened by the gun salute and the ringing of the cathedral bells. At a quarter of ten o'clock all the functionaries, civil and military, assemble in the cathedral to take part in the religious ceremony which precedes the procession through the streets. At ten o'clock the musical part of the service begins. This is followed by the paenegyric on Jeanne d'Arc, which is generally pronounced by one of the bishops.

A procession forms in the great square in front of the cathedral. The route followed is as nearly as possible that followed by Jeanne d'Arc, starting from the cathedral and ending at the Hotel de Ville.

Air in a Subway.

An English physician has made an analysis of the air in the underground railway of London with astonishing results. The amount of oxygen in the atmosphere was only 20.60 parts in volume, while in the worst courts in London it was never found lower than 20.86. Pure air contains 20.94 per cent of oxygen.

And with a proportionate increase in the carbonic acid gas. The normal quantity is .037 in 100 parts, but the expert found that in one of the Metropolitan Railway tunnels the carbonic acid gas was .338 per cent. This is excessively high when it is taken into consideration that whenever the carbonic acid gas in the atmosphere exceeds 100 per cent the air is much too polluted to be breathed with safety to one's health.

Jap Soldiers Waded to Land.

One of the big military feats of the Japanese was the landing on the Liaotung Peninsula. Owing to the boats not being able to approach within 1,500 yards of the shore the troops had to plunge into the water and wade to land. They did this in

spite of the bitter weather without the least hesitation, and reached the shore without a single casualty. Our illustration of the event is taken from a sketch by Mr. Frederic Villiers, the special war artist of The Illustrated London News.

Juliana Sandburg Suffered Six Years with Dyspepsia and was Cured by One Box of Dodd's Dyspepsia Tablets.

"For over six years I was troubled with Dyspepsia and Headache," says Juliana Sandburg, of 221 John street, North Hamilton, Ont. "Nothing I ate would agree with me."

"I tried several remedies but could not get any relief. Then I was advised to use Dodd's Dyspepsia Tablets and I bought one box. After taking part of it I found relief and by the time I had finished the box I was completely cured."

That was a case of long suffering quickly cured. Just think of suffering for six years with permanent relief within easy reach all the time. How many other Canadians are still complaining of Stomach Troubles? They too can find a lasting cure in Dodd's Dyspepsia Tablets.
