Diseases of Woman's Organism Cared and Consequent Pain Stopped by Lydia E. Pinkham's Vegetable Compound

"It seems as though my back would break." Women utter these words over and over again, but continue to drag along and suffer with aches in the small of the back, pain low down in the side, "bearing down" pains, nervousness and no ambition for any task.

They do not realize that the back is They do not realize that the back is
the mainspring of woman's organism,

Dear Mrs. Pinkham:

"I suffered a long time with ovarian trouble, having intense pains in the back and abdomen and very sick beadaches every month. I was tired and nervous all the time and life looked very dreary to me and I had no desire to live until I began to take Lydia E. Pinkham's Vegetable Compoint and to get some relief. My recovery was abew but it was sure, and I have never regretted the money spent for the Compound as it brough me back to good health.

"It seems to be a medicine' especially adapted to the ills of our sex and I am glad to say a good word for it.—Mrs. Albert Mann, 154 Gore Vale Ave., Toronto, Ont.

FIALA'S FAILURE Story of the Rescued Ziegler, Arctic Expedition Explorers' Trials in Long Polar Winter.

Anthony Fala and thirty-seven members of the Ziegler polar expedi-tion, rescued in Franz Josef land after their steamer had been crushed by the tee, arrived at Honningsvaag, Norway, on the 10th August. Capt. Fiala and his men reached 82 degrees and 32 minutes north lati-

During its eighteen months' enforced stay in the polar regions while waiting for

rescue, the party lost but one man, a Norwegian sailor, and he died from natural causes.

Their rescue was affected by William S. Champ, secretary of the late William Ziegler, who twice went into William Ziegier, who twice weak his the polar seas in search of the lost party. His first effort, in 1904, failed because of unfavorable weather con-ditions. Early in the present year Mr.

Anthony Flals, who succeeded Evelyn Baldwin as commander of the Ziegler Arctic expedition after Baldwin's notable failure as a leader in 1901, is the youngest man who ever led a party of explorers into the frozen regions. He is only 35 years old and has lived all his life in Brooklyn. N.Y. He is a mad of athletic build and a natural commander of men. He accompanied the Baldwin expedition in 1901.

Fiala sailed for the Arctic regions Frank saded, Norway, on June 23, 1903, on the steam whaler America. The crew under Capt. Edwin Coffin of Martha's Vineyard, consisted of or martna's vineyard, consisted of fourteen officers and men, but in the expedition altogether were thirty-six men. Capt. Coffin had seen twenty years of experience in the ice, and the two mates had chosed where in the two mates had chased whales in Arctic waters for fifteen years. All the crew were experienced whalers. This last stage of the adventure-some journey was to be made by boat and by sleigh, with the hope of returning to the base at Franz Joself kad in midsummer. Thus it was planned to be back in Norway before the lieg of early winter began to form.

One message was received from Fiala after his departure from Archanged, Russia where he put in for supplies after layling Frondhjem on June 23, 1903. The letter, which was brought in by a whaling vessel that had sighted the America in Barentz sea, was dated July 20. In it Mr. Fiala said that the America had encountered immense quantities of ice.

"We have indeed, struck a peculiar season," he wrote. "Numbers of dead birds strew the cakes of ice and and only a stray seal once in a great while. It either indicates immense neits of ice north or lots of open meter—let us hope for the latter."

After that all was a blank so far as the world had knowledge of Fiala, until the recent dispatches announced his safe return.

PERIL IN THE HAND-SHAKE.

PERIL IN THE HAND-SHAKE.

Met long ago Dr. J. N. Hirsch, of Chicago, said? The most delicate perfume upon the hands is not a sign of freedom from germs, and the most refined are not free from discasse of lungs or throat, and the germs, are rapidly spread by touching the hand, that has landled the hand kerchief of one afflicted, with a cold, catairth or consumption. The breath one inhales from the lungs of another may contain germs of discase." You will not only be able to resist the germs of consumption, but many thousands of cases have been known where persons who were suffering from incipient phthisis, or the early stages of consumption were absolutely curad by Dr. Pierce's Golden Medical Discovery. It maintains a person's nutrition by the boling him to eat retain, digest and assimilate food. It overcomes the gastrie irritability and symptoms of indigestion, and thus the person is saved from those symptoms of fever, night-sweats, headache, etc., which are so common.

An alterative extract like Dr. Pierce's Golden Medical Discovery, made of roots and herbs, without the use of alcohol, will assist the stomath in assimilating or taking up from the food such elements as are required for the blood, will assist the liver in throwing off the poisons in the system.

Do not permit some designing druggist to insult your intelligence by offering you a remedy which he claims is "just as good" because he made is up himself, or ten chances to one you will get a medicine made up largely of alcohol, which will only weaken the system.

Dr. Pierce's Golden Medical Discovery is heartly recommended by every person whe has even used it and it has stood the test of thirty-eight years of approval from people all over the United States.
