**A GOOD MEDICINE FOR THE SPRING**

**Do Not Use Harsh Purgatives—A Tonic is All You Need.**

Not exactly sick—but not feeling quite well. That is the way most people feel in the spring. Easily tired, appetite fickle, sometimes headaches, and a feeling of depression. Pimples or eruptions may appear on the skin, or there may be twinges of rheumatism or neuralgia. Any of these indicate that the blood is out of order—that the indoor life of winter has left its mark upon you and may easily develop into more serious trouble.

Do not dose yourself with purgatives, as so many people do, in the hope that you can put your blood right. Purgatives gallop through the system and weaken instead of giving strength. Any doctor will tell you this is true. What you need in spring is a tonic that will make new blood and build up the nerves. Dr. Williams' Pink Pills is the only medicine that can do this speedily and surely. Every dose of this medicine makes new blood which clears the skin, strengthens the appetite and makes tired, depressed men, women and children bright, active and strong. Mrs. S. E. Stephen, Ponoka, Alta, says: "I suffered severely from headaches, and was badly run down in health. I had tried several remedies with no benefit, until I was advised to try Dr. Williams' Pink Pills, and these have fully restored my health, and I can recommend them with confidence to all weak women."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**Improve the Streets**

Mr. Editor: It will soon be time to received notice of our road taxes, with the announcement that may be liquidated in cash or statute labor. As far as the village of Hartland is concerned the statute labor is one of the biggest farces that could be perpetrated on a civilized community.

A few men and a couple of teams will take the mud that is being dug from some man's cellar and dump it promiscuously on the roads where with the first rain it is quickly converted into muck through which pedestrians and teams must plough. Then when it dries up stores and dwellings suffer from the dust blown about by every wind that blows. The result is that the roadway is in a worse state each year than it was the year previous.

Now, if the money that is represented by "statute labor", to-

gether with the appropriation the village is entitled to, was placed in the hands of a competent road-maker who would have gravel hauled from the shore of the river, placed properly on the roadway and rolled in, we would have in the course of a year or two a highway that would not only be clean, but solid. The roadway should be rounded to both sides so as to carry the water to gutters at the edges of the sidewalks, which could easily be made with cobblestones. A little care in the construction of these would cause the water to flow to points where it would find its way to the river.

There again, a certain portion of the sidewalks should be treated each year with a coating of asphalt or cement until the portions of the village where there is the most traffic would have clean, dry walks. Main street from Maple to the school house might be treated first, then the other thoroughfares as funds would permit. As it is at present the so-called "statute labor" and what ever appropriation is allotted to the village is utterly wasted—in fact as I said at first, used for the purpose of making the roadways worse each succeeding year.

This is a matter that our councillors should carefully look into and the taxpayers of the village should give them no rest until this evil is remedied.

PROGRESS

**BORDEN AND FLEMING**

Sir Robert Borden, when leader of the opposition delivered a speech at Halifax in the course of which he said:

"Let there be no party funds, the details of which may not be known and the expenditure of which cannot be made public."

J. Kidd Fleming is a loyal supporter of the party led by Sir Robert but he failed to take heed of the injunction of his leader. With the help of one W. H. Berry a government official, Mr. Fleming when premier of New Brunswick, collected a fund from the holders of crown timber lands which amounted to the very respectable sum of \$72000. Although it was claimed that this fund was for party purposes, Mr. Fleming's friends and colleagues disclaim all knowledge of it. The details were carefully concealed from the public until exposed by F. B. Carvell, M. P., before a Royal Commission. This same Mr. Fleming who so flagrantly disregarded Sir Robert's warning is now seeking election to the House of Commons as one of his supporters.
