Mt. Allison Endowment Fund

SACKVILLE, N. B., Dec. 14, 1920.-That the Board of Regents of Mount Allison intend to throw all of their energies into the proposed endowment campaign was evidence at a joint meet-ing of the Board of Regents and their Zone Chairman held at the University

oday. The most minute details of the plan of campaign were discussed and it was decided that the plan of organization should be carried into every Methodist Church in the Maritime Provinces, for, while Mount Allison Institutions are not restricted to stu-dents of Methodist faith, it is the only Methodist University in the British Empire with the power to confer degrees. In addition, it is to Mount Al-lison that the great majority of Meth-odist Ministers of the Maritime Provinces have received their theological

training. At a joint meeting here today, practically every quarter of the Provinces was represented, the following members being present. Col. Frank M. Black, Coneral Campaign, Chairman B. C. Borden, D. D. D. C. L., President; Hon. J. Wood, Treasurer; Dr. J. M. Palmer, Secretary, Saciville; J. T. Burchell, Sydney; Rev. Robt. Ful-ton, Halifax; R. B. Early last Spring a gentleman drove into our Battery Service Station with an inoperative battery, the result of Winter neglect. He had reached the conclusion that "the battery was no good."

We of course had to explain that the battery hadn't been properly cared for during the long months of Winter inactivity; depreciation had been rapid and the battery was practically worthless. But the owner remembered the home-made "care" he had given his battery, and said: "Why I took the Battery off the car, brought it to the house and put it in the cellar behind the furnace. What more could you expect?"

The Service Man then explained in detail how a battery must be stored and cared for during the cold months-how it must be recharged to keep it in condition to resist cold weather and prevent internal injury while idle. "Of course, I see my mistake now." replied the owner, "but if I were a car dealer or garage, I'd warn my customers about such things."

May we suggest this be YOUR WARNING to insure yourself against unnecessary battery expense next Spring, by leaving your battery with
