what trouble really is.

### THREE DEAD AND \$1,000,000 LOSS

Disastrous Hurricane Swept  
Certain Portions of  
Ontario

Toronto, June 26.—Owing to the  
crippled state of communications the  
full effect of last night's storm is  
still unknown, and there is apprehen-  
sion that the complete reports will  
increase the death list, which now  
stands at three. Property damage  
will not be less than \$1,000,000.

The towns located in the track of  
the hurricane have large gangs of  
men at work to-day tearing away the  
debris, and it is expected that a  
week will elapse before streets and  
highways will be cleared of uprooted  
trees, broken telegraph and tele-  
phone poles and parts of shattered  
buildings.

The dead are: Mrs. John Ellis,  
eighty-two, Marsden; William Far-  
relly, seventy-three, Pilkington, and  
Isabel Louise Brodman, fourteen, Pil-  
kington. Mrs. Ellis, who lived with  
her son, was near the barn when the  
storm broke. The building was un-  
roofed and a timber fell on her,  
breaking her leg. She was taken to  
hospital, but owing to her advanced  
age she succumbed to-day.

William Farrelly was almost in-  
stantly killed when thrown or blown  
from a manure spreader when his  
team became frightened by the  
storm and ran away. His neck was  
broken.

Isabel Brodman, the daughter of  
Mr. and Mrs. Andrew Brodman, ran  
to the close the drive shed door  
when the storm broke. Just as she  
reached the building a portion of the  
roof was ripped off and a flying piece  
of scantling struck her on the head.  
She died later.

The velocity of the wind is said  
to have reached 100 miles in some  
districts.

### HUMANE SOCIETY ON CARE OF DOGS

Always Permit a Dog to Swim  
Whenever It is Pos-  
sible

Chicago, June 27.—Meals twice  
daily, with not too much meat, plenty  
of exercise without muzzles, cold baths  
a dip in creolin to combat fleas, a  
cool, shady place to sleep, and a body  
clip in extreme southern portions  
makes up the formula for summer  
treatment of dogs as suggested by the  
Illinois Humane Society.

"If every one will take care of his  
pets during the warm months, there  
will be no fear of hydrophobia or  
rabies in any American city," accord-  
ing to the society. "It should be re-  
membered that a dog does not per-  
pire like a human being, and that the  
only way he can relieve himself of the  
excessive heat is by opening his mouth  
and panting. Frequently a person  
sees a dog lolling its tongue trying to  
expel heat and exertion and a cry of  
'mad dog' goes up. The original cause  
of the trouble, with very few excep-  
tions, was that the dog was making  
himself comfortable.

"Regulations requiring a dog to be  
muzzled, so he cannot pant, is enough  
to drive a dog mad and goes to make  
any animal peevish and ready to snap.  
In hot weather all dogs should be al-  
lowed to run where they can open  
their mouths and pant as freely as pos-  
sible.

"A dog enjoys a cold bath. Always  
permit them to swim wherever pos-  
sible, or wash them at least once a  
week. He likes a cool, shady place to  
sleep, and a kennel that is dry and  
well ventilated.

"Fleas are the worst pest of dogs in  
summer. A tablespoonful of creolin or  
similar disinfectant dissolved in a  
quart of warm water makes a good  
washing solution against this pest.  
This operation should be repeated as  
often as necessary because the solu-  
tion does not kill the eggs. Never ap-  
ply kerosene or gasoline to the skin  
of a dog.

"Feed your dog twice daily, and not  
too much meat. Under no conditions  
should dogs be fed hares, liver, veal,  
chicken, raw fish, oatmeal, cornmeal,  
rice, potatoes, cooked eggs, cakes and  
candy."

### FRENCH COMMERCIAL MISSION IN RUSSIA

Moscow, June 27.—All except two  
of the members of the French com-  
mercial mission which has been in  
Russia for some time left for Paris  
yesterday. The delegation informed  
the local newspapers that it came to  
this country chiefly to obtain oil con-  
cessions, in the interests of which  
the two delegates have gone to the  
Caucasus fields.

#### THE TANGIER PROBLEM

London, June 27.—The conference  
of Spanish, French and British ex-  
perts regarding the Tangier question  
will begin Friday. The discussions  
will be purely informal.

#### SEIZED WINE

New York, June 27.—The French  
liner Paris was deprived of her excess  
beer and wine yesterday.

On a lonely country road in a  
sparsely populated section of Wis-  
consin county, Md. teams sprang up  
like magic, loaded with strawberries,  
and all attempting to be the first to  
reach the railroad platform at Mar-  
ion so that their crates could be ship-  
ped. The result was a genuine traf-  
fic jam, which could not be untangled  
until an experienced traffic officer  
was called in. Sixty carloads of  
berries were shipped in a single day.

### SEVERAL DEAD IN ELECTRICAL STORM

Hurricane Sweeps New York  
District and Does Great  
Damage

New York, June 26.—A violent elec-  
trical and hail storm swept Brooklyn  
to-day.

The brief storm was the climax of  
a sizzling day fraught with tragedy.  
Mrs. Emily Elsworth, wife of a re-  
tired stock broker, died of heart fail-  
ure superinduced by the heat, while  
she sought relief by lying in a bath-  
tub in her Riverside Drive apartment.  
Unbalanced by the heat, Mrs. Dora  
Katz, mother of three children, leaped  
six stories from the roof of her apart-  
ment and was killed.

Mrs. Beattie Kessler held police and  
firemen at bay with an axe and knife  
while they prevented her from throw-  
ing her two small children from a fire  
escape of her fourth floor apartment.  
She was taken to a hospital suffering  
from heat prostration.

Lack of rain and an extraordinary  
consumption of water have depleted  
reservoirs in northern New Jersey, and  
many towns were practically without  
any supply to-day.

Bert Savoy, of the vaudeville team  
of Savoy and Brennan, and Jack O.  
Grossman, both of New York, were  
struck and killed by a bolt of light-  
ning late this afternoon. Two other  
men were injured by the same bolt.

Grossman also was well known in  
the vaudeville world, playing in musi-  
cal skits under the name of Jack Vin-  
cent. Webb and Haley also were con-  
nected with well known vaudeville  
teams.

### STEAMER AGROUND OFF FLORIDA COAST

Pensacola, Fla., June 27.—The Mal-  
lori line steamer Altamaha, bound  
from Tampa to Mobile, with a general  
cargo, is aground just outside Santa  
Sofia Island, it was learned here late  
last night.

The engine room is filled with  
water, two members of the crew who  
handed at the quarantine station re-  
ported.

Struck by a 70-mile gale early on  
Tuesday, the ship was brought to-  
ward the mainland until it struck  
ground. The wireless was broken  
and nothing was known of the vessel's  
condition until last night. Several  
tugs are being rushed to the stranded  
ship's assistance.

An ounce of mirth is worth a pound  
of sorrow.

### PLANE REFUELED WHILE IN FLIGHT

California Aviators Planning to  
Remain Aloft for Four Days  
and Nights

San Diego, Calif., June 27.—An air-  
plane in flight was refueled for the  
first time here yesterday. Rushing  
through the air at 90 miles an hour,  
Lieutenants Hines and Seifert guided  
their craft above that flown by Capt.  
Lowell Smith and Lieut. John F. Rich-  
ter, ran down a 40-foot steel wire en-  
cased rubber hose and within two  
minutes filled the tank of the lower  
plane. The tryout was in preparation  
for the attempt of Capt. Smith and  
Lieut. Richter to attempt to smash all  
air records for endurance.

To-day they plan to go up and re-  
main aloft four days and nights. Only  
by refueling in the air could they  
hope to keep their powerful craft fly-  
ing for anything like that period.

### HOUSE BURNED IN CHARLOTTE COUNTY

St. Stephen, June 26.—The resi-  
dence of Thomas Campbell on the  
Moore's Mills road, about two miles  
from this town, was completely de-  
stroyed by fire about ten o'clock last  
night. Both Mr. and Mrs. Campbell  
were out of town. Parties going by  
noticed the fire, broke in and worked  
hard to extinguish the flames, but  
without avail, and to-day where one  
of the most beautiful residences in  
this vicinity stood is now a heap of  
ashes.

Mr. Campbell had just completed  
his home this spring. The loss is  
estimated between five and six thou-  
sand dollars, partly covered by in-  
surance.

#### FOUR BARN BURNED

Moncton, June 26.—Fire at Bridge-  
dale, Albert county, between 5 and 6  
o'clock this evening destroyed four  
barns and a pigery belonging to A.  
W. Garland. Mr. Garland places his  
loss at \$7,000 and he had only a few  
hundred dollars insurance. The house  
was saved after a hard fight.

#### CHIC

MIDSUMMER MODELS  
Featured in hair and lace, hair and Vene-  
crope de chene and tagal, trimmed in  
the new ripple, ostrich, flowers,  
and fancy feathers, etc.  
MRS. F. STEVY,  
88 York St.

### HARD COAL MINERS ARE IN CONVENTION

Sentiment of Delegates Points  
Toward a Demand for  
Wage Increase

[Associated Press by Leased Wire]  
Scranton, Pa., June 27.—Four hun-  
dred delegates, representing the 150,  
000 anthracite miners of the Penn-  
sylvania hard coal field, opened their  
wage convention in the town hall yes-  
terday. Wage and other demands  
will be formulated by the convention  
to be used as a basis in negotiating a  
new working agreement with the  
operators. The present agreement ex-  
pires on August 31. The general senti-  
ment of the delegates points toward  
a demand for an increase in wages.

The convention devoted most of the  
day to organization. Thos. Kennedy,  
president of District No. 7, presided,  
but will give way to International  
President John L. Lewis, who will  
arrive to-day.

### WORKMAN KILLED IN LUMBER MILL

Grand Falls, June 26.—A very sad  
accident, which cost the life of Ralph  
Sirols, of this town, occurred at  
Burgess' mill on Grand River on  
Wednesday. Mr. Sirols was engaged  
in adjusting a belt when a piece of  
lumber struck him in the side. He  
was taken at once to the hospital at  
St. Basile, but nothing could be done,  
and he lived less than twenty-four  
hours. "He leaves a wife and eight  
young children," Mrs. Sirols was  
able to reach her husband in time to  
see him before his death. The body  
was brought here on Friday and  
the funeral on Saturday morning  
was conducted by Rev. Thomas Al-  
bert at the Church of the Assump-  
tion.

The Studebaker Light-Six Sedan \$2225

### —But You Can't Ride on the Paint!

Imitation diamonds can be made to look so real  
and sparkle so brightly that it is difficult to tell  
them from the genuine.

But try to sell one and you will find out its real  
worth in a flash.

Same with automobiles. Weaknesses of construc-  
tion in a closed car can be hidden, for a time, with  
paint and varnish and fancy fittings. But all is not  
quality that glitters.

You can't ride on the paint. And when you place  
such a car in the second hand market, you suffer a  
heavy depreciation, because it lacked real intrinsic  
value at the outset. Use will never improve a  
mediocre product.

Motor car owners tell us that the trade-in value of  
any Studebaker car at the end of three or four or five  
years of useful life is greater than on any other car  
built to-day—the percentage of depreciation is the  
lowest.

No wonder the Studebaker Light-Six Sedan is the  
fastest selling quality Sedan in the world!

The name Studebaker stands for quality, dura-  
bility, comfort and integrity.
