of Central Market this morning recalled the bustling summer days of immense markets. The supply this morning was as large as, if not larger than, any mar-ket this season, and as buyers were numerous, a brisk trade was done. The meat market was well stocked, but prices were steady. Grains were strong, and many advances took place. Wheat has again reached the \$1.05 mark; bar-ley went up from 56 to 60 cents. Peas, chopped corn, ryc, and buckwheat were a few cents higher. The undertone of the market was steady, and, with the excep-tion of the changes quoted above, prices were steady. vere steady

Standard prices at 8 a. m. were: Dairy Produce.

week ago and not much increase in the turn-over is expected until spring retail trade opens out. It is now seen that the millinery opening brought a fair volume of business, although individual orders were by no means large. Toronto—Trade here has held fairly steady during the past week, and there has been some further slight improve-ment in the number of orders for whole-sale lines. Retail business is moderate both here and in the country and col-lections are no better than fair. Dry goods houses report that orders are mostly for small parcels, but that they are fairly numerous. The millinery trade was well up to expectations. Hard-ware business is steadily opening out and the month's shipments are expected to be heavy. Paints and oils are meet-ing a fairly brisk demand. Prices are generally well maintained. Winnipeg—Up to the present the wholesale sorting trade has kept up very werl, and excellent orders are coning for-ward for spring and summer lines.

## DEATH BY INCHES.

Some Tissues of the Body Live After What is Called Death.

To the unscientific citizen it is something of a surprise to learn that large parts of the body are alive and useful after the phenomenon popularly known as death has taken place.

as death has taken place. Few of us suspect, for example, that our kidneys and hearts after we have died ourselves can in most cases be re-suscitated and that if by some surgical miracle they could be transplanted in-to another body they would quickly re-sume their functions. This, however, is a well demonstrated medical fact

Dining With the Hangman. In "The Comic Side of Crime" in the February Strand Magazine, Harry Furniss tells a somewhat startling story of the Hon, Lewis Wingfield, a well-known figure in Bohemian society in London some thirty years ago. Wingfield was a man of a particularly morbid turn of mind and made quite a friend of Marwood who was at their friend of Marwood, who was at that ne the official hangman. He once nvited this interesting character to ake dinner with him at Powerscourt, its beautiful Dublin estate; and as take dimension of the state; and his beautiful Dublin estate; and Wingfield was anxious that his don tics should not discover who his gr was, the conversation did not t was, the conversation did not turn, during dinner, on criminals or hang. Wingfield was careful to refer only Wingfield was careful to refer only which he and his guest had met to dis-cuss. But to the host's horror, the hang-man kept looking at his watch, and once or twice, when the butler was in the room, he would say: "Ah, they're giving it to them now. Yes, yes; it's about time now it was all costs the

NOTES. The Toronto mining market was fair-ly strong yesterday. There was a gen-eral movement in all the issues, and the tone of the market was good. Peterson and Nova Scotia had a mark-ed advance and there did not prove to be much in sight.

ed advance and there did not prove to be much in sight. Chambers-Ferland gained five points vesterday. It is reported that a strike has been made on this property. A large amount of Temiskaming changed hands, but it was principally by professionals, although from good sources, it is claim-ed; 10,000 shares are said to have been taken from the market. Nipissing held strong, and some are inclined to think that it will go high-er.
