The Eskimos of Labrador

It is suggested by Dr. S. K. Hutton, who spent five years in Labrador, that the progenitors of the Labrador Eskimos come from Siberia, and that they are physically related to the Mongolia. So far as is known, they are the aboriginal owners of the Labrador coast, and their territory extends inland more than a hundred miles. Two hundred years ago they occupied the whole length of the coast from north to south, about 600 miles, and their numbers were greater. Now they are confined to that part which lies between Makovik and Killinek, between latitude 55 degrees and 60 degrees 30 minutes north. In that area there are now fewer than 1,300 people, practically all that remain of the Labrador branch of the Innuit race. They are all professing Christians and live such orderly, quiet and regular lives that there is no policeman or even a resident justice of the peace in their country. At present there is little for the white man to covet in the country of the Innuit, and therein lies the principal safety of the Eskimos. — Chicago News.

Child's Sad Death

Toronto, June 2.—Six year old Annie Reta Godkin was strangely suffocated while playing alone. The child was found hanging by her dress from the top of a rough picket fence and hurriedly released and carried to her parents. The tightening of the clothes about the frail chest evidently checked the breath and stopped the heart action.

MINARD'S LINIMENT LUMBERMAN'S FRIEND.

No Compensation for Bandsmen

London, May 31.—Secretary Williams of the Amalgamated musicians' union, in a letter to the Daily Mail deals with the question of compensation to families of the Titanic bandsmen. He says that bandsmen as a rule sign ships' articles. The Titanic's musicians for some unexplained reason booked as passengers. Claims of compensation have been made against the White Star Line, which repudiate liabilities on the ground that the musicians had not signed articles.

"This, I presume, is a strict matter of business," says Mr. Williams. "On the other hand if the musicians were passengers, they would of course be entitled to the same consideration as other passengers. On this point I venture to give an extract from a letter I have received from the father of a French musician who was lost.

"While in Paris, I paid a visit to Marichal, the aviator, who was rescued from the Titanic. Marichal declared that the musicians received an order to play all the time without stopping so as to avoid a panic. They were placed on the deck, that is to say, between decks. Marichal specially noticed that none of them had life belts. He being convinced that in giving the orders their lives were to be sacrificed to avoid disorder on board."

Children Killed.

Two Boys Bitten by a Rattler, and Baby Drowned in Tub.

Grenville, N.C., June 1.—Three children were killed yesterday as the result of an attack by a rattle snake on a hen house on the farm of George Adams, near here. Two boys, the eldest 8 years old, were bitten by the snake, and a third child, one year old, was drowned in a wash tub. The mother of the children was washing clothing in the yard and ordered the older boy to quiet a disturbance in the hen house. He tried to throw a hen from the nest and was bitten. The second boy followed him, and he too was bitten. When the mother discovered that the snake had bitten the boys, she hurried to help them, and while she was busy the baby fell into the wash tub.

Treated Like a Man.

Binghamton, N. Y., May 31.—Mrs. Mary Dubal, of this city, is believed to be the first suffragist in the United States to be given a penitentiary sentence for husband beating. She was arrested on a warrant obtained by Mr. Dubal, who complained that in a fit of rage she gave him a sound beating. City Judge Albert Hotchkiss found her guilty and declared that if women desired men's prerogatives they should have men's punishment when found guilty of violation of law. He always dealt severely with wife beaters, he said, and accordingly he sentenced her to three months in the penitentiary.
