Horses From Nfld. Shipping horses from Newfoundland by a long way shipping coal from St. John's to the North Sydney wharf of July 27. At any rate a ship arrived here by the last trip of the steamer Kyle, and another lot of horses is expected to arrive Saturday making a total of 72 to be shipped from the ancient colony via North Sydney. The animals are all of the draft variety, and are taken from the woods at Grand Falls. Owing to the continued strike of the paper printers at the latter place, it was expedient to cut down the unnecessary heavy expense of feeding and caring so many animals, and a company decided to send a portion of the horses to the Montreal market. Should the strike be effected, there is no doubt horses will be forwarded to Montreal to take the place of those arriving here. But the present situation is none too promising for a shipment of the difficulty between the company and the men.

He left for Newfoundland by the Kyle at night, and after spending a week there will sail from St. John's to return to the Old Country. Dr. Syme, who is a native of Newfoundland, is one of the most distinguished medical authorities of Great Britain, and came to Canada in order to read a paper at the convention of the Canadian Medical Association recently held in Halifax.

USE YOUR HEAD. A woodpecker pecks out a great many specks of sawdust when building a hut. He works like a nigger. To make the hole bigger—He hammers it more if the cutter won't cut. He don't bother with plans. But there's one thing. Can rightly be said: The whole excavation has this explanation. He builds it by using his head.

USE YOUR HEAD.

Do use your head when you require good logic and nerve builder by taking Dr. E. J. Stafford's Cod Liver Oil. Tastes like a lemon. For sale by Dr. E. J. STAFFORD & SON, Wholesale and Retail Chemists and Druggists, St. John's, Newfoundland.
