Dreaded Meal Time.

The Story of a Dyspeptic who has Found a Cure.

THERE IS AN INTIMATE CONNECTION BE TWEEN GOOD HEALTH, HAPPINESS AND GOOD DIGESTION-DR. WILLIAMS' PINK PILLS BRING ABOUT THESE CONDITIONS From the Tribune, Deseronto.

Without good digestion there can be neither good health nor happiness. More depends upon the perfect working of the diges ive organs than most people imagine, and even slight functional disturbances of the stomach leaves the victim irritable, melancholy and apathetic. In such cases most people resort to laxative medicines, but these only further aggravate the trouble. What is needed is a tonic : something that will build up the sys tem, instead of weakening it as purgative medicines do. For this pur pose there is no medicine equal to Dr. Williams' Pink Pills. They enrich the blood and strengthen and stimulate the digestive tract from first dose to last. In proof of this assertion the well known genial proprietor of the Oriental Hotel, Deserento, may be quoted. To a reporter of the Tribune who mentioned the fact that he was suffering from dyspepsia, Mr. Stewart said-"Why don't you take Dr. Williams' Pink Pills?" Asked why he gave this advice Mr. Stewart continued : "Simply because they are the best medicine for that complaint I know of. For years I was a great sufferer from indigestion, and during that time I think I tried a score of medicines. In some cases I got tem porary relief, but not a cure. I fairly dreaded meal times and the food that I ate gave me but little nourishment. On the recommendation of a friend I began using Dr. Williams' Pink Pills a little over a year ago. I soon ex perienced relief and no longer dread

house, and my digestive organs work like a charm. I may also add that my general health was greatly improved as a result of using the pills." "Do you object to my publishing this in the Tribune?" asked the re-

ed meal time, but as I was determin

pills in light doses for several months. The result is every vestige of the

Do You Fear Beart Failure

No death comes so suddenly and unexpect edly as that caused by heart failure, but the trouble had its beginning: months or perhaps years before when the blood became this and watery and the nerve exhausted. Grauduslly the waste has become more rapid than the process of repair, the tissues of the heart have become diseased and finally some over exertion or shock hes caused the beating to cease and life to depart Dr. Chase's Nerve Food prevents heart failure and all similar diseases by creating new, rich bood and nerve force. and building

SIR CHAS. TUPPER HONORED

House Remembers the 45th Anniversary of His Public Life.

Members of the Opposition Decorated His Desk With a Bouquet of Roses and Sir Wilfrid Laurier Made a Nice Little Speech in His Honor-Ottawa Fire Was Discussed-Several Meaures Advanced.

Ottawa, May 23.—Forty-five years ago yesterday Sir Charles Tupper, leader of Her Majesty's loyal Opposition, entered public life as M.P.P., for Cumberland in the Nova Scotia Legislature. In the general election of 1855 he defeated the Hon. Joseph Howe, who afterwards became Lieut-Governor of Nova Scotia. Members of the Opposition remembered the day, and wore g red rose in his button-hole. Sir Charles' desk held a mammoth bouquet of roses, red, yellow and white, that filled the House with their perfume. A white silk ribbon tied the stems together, and a note told the aged and honored leader that his friends had not forgotten the dawn of his political career. Ottawa, May 23 .- Forty-five years

career.
When the House opened and Sir Charles was about to take his seat he was given an enclusiastic ovation by the members on both sides of the House. The Conservative members stood while he took his seat. Sir Charles bowed his acknowledgements

cally. Charles' vitality was never Sir Charles' vitality was never more in evidence than yesterday. Eighty-one years of age, and having spent nearly half a century as an active public man, he still appears as the most vigorous and magnetic man on the Opposition benches. Yesterday he was embodied of good nature, and the honored head of his

sir Wilfrid Was Generous.

Sir Wilfrid Laurier paid him a generous tribute. He was sure that he voiced the sentiments of the whole Canadian people. Then he said he was glad that he was able to see this day and to congratulate Sir Charles upon his career. It was one of the blessings of political life in Canada that it was possible for politicians to forget that they were divided in opinion — it was a blessing that though the strife of parties was often keen and bitter, yet times come when members of Parliament cared to show that nobler sentiments actuated them. Sir Wilfrid Was Generous.

Then Business Came on. The business of the House was then

begun.

The City Council of Ottawa or Monday night, by a vote of 12 to 11 Monday night, by a vote of 12 to 11, and with the approval of Mayor Payment, decided to hold by the old modes of constructing buildings and piling lumber.

Mr. Foster brought the matter to the steeting of Sir Wilfrid and store.

Afr. Fisher's bill relating to cold storage accommodations on steamships, was taken up in committee, reported and given a third reading.

The bill respecting the marking and inspection of packages containing apples and pears for export came next. Dr. Sproule gave the House the benefit of correspondence he had received regarding the bill, and suggested that every shipper should brand his apples

over his own name.

After recess, Mr. Fisher said, owing to his communication with apple pro-ducers and shippers, he could not say that on the whole they were favor able to the bill. There was no differ able to the bill. There was no difference of opinion that something should be done for the apple trade. It was urged that the bill should deal with the import as well as the export trade. But this would bear heavily trade. But this would bear heavily upon the stall dealer. TO BLOW UP BRITISH WARSHIPS. Boer Emissarief Were Sent Out for That

Durban, May 20. - The story the plot to blow up the British warship Forte in Delogoa Bay is confirmed and the conspiracy appears to have been much more extensive than at fitst believed. An explanation of the proclamation issued a month ago that boats approaching too near warships without ships without permission would be fired on, is that the admiral com-manding the South African station thus gave an early intimation to Boer emissaries who had been appointed to visit Durban and Cap Town and attack the warships with infernal machines that a strict sur-veillance would be maintained on all men-of-war
