THE CANADIANS WIN EASILY. Chicago, Ill., July 31.-The Canadian cricketers won again today with far more ease than in the two previous contests with Chicago players. The St. George's team, against which the visitors played, was made up of two non-members, Cummings and Fraser, to make it more of a match for the crack players from Canada, and the score shows that Cummings made just half the St. George's runs in the first inning, besides bowling out four of th visitors. The score was 218 to 92 the first inning. Falling short of 126 to tie the Canadians, the St. George's eleven went to bat again, and when time was called their score stood 81 for three wickets down, but this was chiefly due to the fact that Capt. Hyman due to the fact that Capt. Hyman kept his crack bowiers for the game with Pullman tomorrow, and the rewith Pullman tomorrow, and the reserve men were hit freely. Terry's Merritt, Umpires—O'Day and McDonald. with Pullman tomorrow, and the re-serve men were hit freely. Terry's great inning for 76 runs—the top score of the series—was a brilliant feature of the game. Score: CANADIANS.

2:14 1-4. THE WHEEL

CYCLING AND POOR TEETH. Bicycle riding and poor teeth are about the last two subjects one would place together, but that an over-fondness for indulgence in exercise upon the wheel is developing a diseased condi-tion of the gums and teeth can be testified to by many unfortunate victims and their dentists.

It is caused by the extra effort necessitated in ascending hills or in running races, and the short, quick breaths of cold air that strike the open mouth develop a congestion of those parts. The face swells as with an ordinary toothache, pus forms around the teeth and loosens them, and in many cases leads to their extraction later, and the pain is equal to having all one's teeth ul-

cerating at once. A prominent dentist stated, when interviewed upon the subject, that he had had several cases of that kind. "It comes," he said, "from an abnormal current of air, from fast riding, striking the gums, and if the popularity of the bicycle continues, it will develop a new feature in dentistry. At a private meeting of several dentists the other evening, we found, upon comparing notes, that these cases were increasing. The only preventive is a difficult one to follow, and that is, always ride with the mouth closed. The same effect, however, is caused by an un-natural draft of air, as, for instance, sitting in front of an electric machine for a long period. I have had several cases of that nature from hotel stewards and their assistants, whose offices are generally situated in the basement, where a change of air can be brought by artificial means."—New York Herald.

SPOKES.

The Londons are looking forward to one of their largest and most pleasant club runs of the season tomorrow evening. The club will be entertained at the Kennels by the "Three Macs" (H. C. McBride, James M. McCormick and George Macbeth). The run will leave the club house, Dundas street, at 7:30 sharp. A photograph will be taken be-

Entries have already begun to come in for the Londons' big diamond meet the latter end of this month, and Secretary McCormick is kept busy answering correspondence in connection therewith. It promises to be the largest

meet ever held in London. At Listowel on Wednesday atternoon a blcycle race was run off between A. Ross and Harry Ackert, of Palmerston, for a purse of \$50, which resulted in a victory for Ackert. HOMING PIGEONS.

A 500 MILE TRIP. Buffalo, N. Y., July 31.-One of the longest speed trials ever given to pigeons was started in this city this morning. Six birds were liberated 7:01 o'clock, their destination being Boston, Mass., which is an air line flight of about 500 miles. The test was made by some Boston fanciers for the purpose of demonstrating in a practical way the utility of using birds of this kind in war. It is understood that the War and Navy Departments of the United States are interested in this experiment, and the outcome, therefore, is looked upon with much interest.

A GAME AT MIDNIGHT. A golf match at midnight in Great Britain sounds incredible, but at Lerwick last week (says Golf) four members of the Shetland Golf Club engaged in a foursome on the club's course at Annsbrae at that unusual hour. The players were Messrs, J. C. Manson and D. Morrison against Messrs. F. J. Smith and G. Kay. In these northern latitudes at the present time there is practically no night. The sun sets about half-past nine, but long after the hour of sunset proper the sun's rays are refracted above the horizon, and the northern sky is aglow with the most beautiful olors, which have scarcely disappeared before the rays of the morning sun are seen. A game of golf at this hour was. therefore, possible of accomplishment. The first ball was driven off from the tee at five minutes to twelve, and the full round of eighteen holes was played. The match terminated at 2:30 a.m.

#### GREY FARMERS DISTRESSED.

Toronto, July 31.-A deputation farmers from Grey county waited on the Ontario Government this afternoon to lay before it the distressed condition of the farmers of the county as a result of the plague of grasshoppers during the summer and the continued drought. The deputation dwelt at length on the condition of the different townships, and asked either a cash grant from the Government or leave for the county to pass a bylaw granting financial aid Hon. Mr. Dryden, who represented the Government, promised the matter should be carefully considered.

MOST INVALUABLE.

The New Specific Remedy Is BeingEx tensively Used at Ottawa.

Ottawa, July 29 .- The marvelous recovery of Mr. G. H. Kent, of this city, from Bright's disease, by the use of Dodd's Kidney Pills is still fresh in the memories of Ottawa people, and the remedy is being freely recommended both by druggists and private citizens. The similar wonderful cures of Dr. A. G. McCormick, of Richmond, Quebec, and of Mr. Arthur Coley, of Somerset. Manitoba, to say nothing of many others, are generally quoted in favor of the assertion that no remedy of modern times has gone so successfully through a severe trial, and has been so efficacious in all cases of kidney trouble. It is also proving itself invaluable in the milder forms of sickness which appear during the summer.

A \$500,000 FIRE.

Marietta, Wis., July 31.-Fire in Menominee this evening destroyed a number of saw and planing mills, and 25,-000.000 feet of lumber. The loss will reach nearly half a million dollars.

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly, and causes a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc., in the market. "Do you know, Miss Suste," said young Mr. Van Braam, "there is enough electricity about me to stop a watch." "Are you sure it is elec-"Are you sure it is electricity, Mr. Van Braam?" asked the guileless girl.

"Miss Mabel is a very bright girl," said young Mr. Dinwiddle to Miss Jumonville, "True: she is always casting reflections," was the reply of the latter, who regards Mabel as a rival. RHEUMATISM CURED IN A DAY-

THE WEATHER TO-DAY: Fine and a little warmer.

### TIME IS MONEY.

Very true. Because we realize the truth of this saying we have made our premises commodious and added numerous popular departments in order to save our patrons as much time and inconvenience as possible. We sell hosiery, and we thought that the ladies who buy hosiery for their own and children's use would just as soon take the elevator and patronize our shoe department, which is without doubt the most private in the city. Nothing but the guaranteeable kinds of footwear are kept, and we don't keep men's sizes at all. Just a well-selected stock at close prices for the ladies and children. You might as well save time and money by placing your order with us

### STYLISHLY DRESSED.

To be stylishly dressed costs a woman no more now than to go about with ill-fitting clothes. It's simply a question of buying of a dealer who knows what proper garments are and who is unwilling to sell the slouchy sorts at any price. That is our position, and we save you every possible cent of cost, but only on worthy goods. No matter what your requirements in dress goods, millinery, underwear, etc., we are in business to secure and to keep your custom.

### RAIN

# COATS.

In Heptonettes we have a cloaks is well protected from dust, rain or cold. It's a most serviceable garment for traveling. You cannot buy Heptonette anywhere else in London. It's a good thing, so we control it.

Write for what you want. A letter or even a postal card will command the resources of the house. Orders of \$5 or upwards delivered free to any place in Ontario reached by railroad or express.

149=151 Dundas St.

DEANERY OF MIDDLESEX.

Convention of Church Helpers at Byron.

A union meeting of the Sunday School Association of Middlesex Deanery and the Lay Workers' Association of London was held in St. Anne's Church, Byron, on Tuesday afternoon and evening. A large number went by steamer to Springbank, and thence those who desired to ride were conveyed in carriages to the church, where they were received by the Rev. A. H. Rhodes, Messrs. Kains and others of that congregation.

The Rev. Canon Smith presided, having associated with him Mr.C. H. Armitage, vice-president, and after de-votional exercises and reading of the minutes by the clerical secretary, Rev. G. B. Sage, the programme was taken up. The reports of officers and committees showed the associations to be free of debt and in good active working order. The first address was given by the Rev. J. H. Brown, of Delaware, who took for his subject "What parents and teachers can do for the school,' The address was very favorably received and contained much that was helpful to the workers.

Rev. Canon Richardson opened the discussion, urging the duty of both parents and teachers working together in the good cause. Mrs. Thorpe, Mrs. Mason, Rev. Messrs. Sage, Moorhouse and Rhodes, and others took active part in the discussion.

Rev. G. W. Racey, of Belmont, followed with a paper on "What shall we do with unruly scholars?" This per-plexing question was dealt with very fully and judiciously, and in a con-vincing manner, which was much appreclated.

The discussion was led by Mr. Armitage, who gave instances of the results of different modes of treatment of unruly boys. Miss Gower, Rev. Messrs. Moorhouse, Sage and Brown, Messrs. Hannah, Fax and Kains discussed the subject from various standpoints, and while it was conceded that the question could not be considered as finally settled, yet much light had been thrown upon it, which would be useful in the good government of the school. The question drawer was then opened and answers given by the vice-president, Mr. Armitage, to the satisfaction of all. This proved, as usual, an attractive feature of the programme.

At 8 o'clock the meeting adjourned for recess, and at the invitation of Mrs. Griffith, repaired to her house, near by, when the spacious rooms were thrown oren and a cordial welcome was accorded. Refreshments contributed by the teachers of Byron school and brought by the visitors, were then partaken of, after which an hour was spent in walking about the lawn and by many of the company in an exhil-

arating game of baseball in an adjoining field.

At 7:45 the evening programme was taken up, many others having come from the city and from the neighbor-hood to attend the evening session. After the opening hymn and prayer, an admirable paper was read, prepared by Miss M. McMillan, entitled, "Spiritual, or heart power in Sunday school work." In the unavoidable absence of Miss Mc-Millan, her paper was read by her brother, Mr. Wilmot McMillan, and gave evidence of careful thought and

experience.

The discussion was opened by Mr. Walter Crawford in an earnest address, which emphasized the various points in the paper read. Mr. R. Kirkpatrick, Mrs. Smith, Calon Richardson. Rev. Mersrs. Moorhouse, Brown and Sage, continued the discussion in the same strain, and warmly commending the sentiments contained in the paper. Mr. Harry Softley followed with a paper on "How to secure and retain the interest of the class." The subject

was ably handled and evinced much thoughtfulness, and the paper was well received.

Miss Gower opened the discussion in a neat address, giving pleasing instances of different methods adopted to secure the interest of the scholar. A number present followed with expression of their views, when the subject

was brought to a close. The question drawer again proved a pleasant and profitable feature, and the questions and answers were much

enjoyed. Very hearty votes of thanks were passed to Mr. and Mrs. Griffith, Mrs. Merriam, to the lady organist and choir, to the rector and workers, and to those who reed papers. A very enjoyable convention was brought to a close with devotional exercises. Capt. Foster, with his usual kindness, detained the boat until the meeting was over, and the party from London reached home in due season.

#### LABOR MATTERS.

A New York State Labor Law that Is Unconstitutional.

Pennsylvania Iron Workers' Wages Increased-New York Tailors' Demands Conceded.

Buffalo, N. Y., July 31.-A city ordinance and a state law prohibits the employment by contractors on municipal work or state work of persons not citizens. Judge White today decided that the law was unconstitutional, when the state or municipality enters into a contract with private individuals. uals it relinquishes its sovereign character, and as a general rule can claim no exemption from the rules of law applicable to private parties under like circumstances. The judge holds that the state has a right to enact and enforce such law when the work is done by the state direct, but cannot compel contractors to become a party to it. York, Pa., July 31.—Notice was posted at the York rolling mill today that on and after Aug. 12 the price of puddling will be \$3 per ton, instead of \$2.75, as at present, with a proportionate advance in other mill work. This will be the second advance within a short time, making an increase from \$2 50 a ton to

number of the very latest to hand. A lady in one of these of the striking Brotherhood of Tailors returned to work this morning as a result of the signing of an agreement by nearly 100 contractors. This and other indications point to an early close of the strike.

CLOUDBURSTS AND FLOODS

Result in Serious Loss of Life and

Property. Denver, Col., July 31.-A telegram from Cripple Creek reports a serious landslide and washout along the line of the road between Russell and Adelaide yesterday afternoon. A succession of cloudbursts occurred near the head of Eight Mile Creek, and swept the track for six miles, catching a de-railed freight train. Engineer Reub Gore and Brakeman James Dolan were drowned in the terrible rush of water along the track. The damage is report-

ed at \$100,000 Albuquerque, N. Mex., July 31.—A special from Socorro says: Late yesterday afternoon a heavy rain from the east met a cloud from the west near Snake Ranch, eight miles west of Socorro, causing a disastrous flood. A wave twenty feet high came down in the arroya and submerged Chihuahua and Cuba, two small suburbs, washing down houses and rushing through others. The arroya also broke at Spring street, in the northern part of the town Several bodies have been recovered and several persons are missing. Forty houses were destroyed, and 100 more will fall, while others are badly damaged. Hundreds of people are in dis-tress. The damage to the town is estimated at \$700,000.

CURIOUS AND INTERESTING.

Mr. David H. Wyckoff recently wrote that a million horse power could not produce the effect that a single flash of lightning has been known to accom-He believed that we have yet hardly begun to utilize the forces of

nature. By actual experiments it has been ascertained that the explosive power of a sphere of water only one inch in diameter is sufficient to burst a brass vessel having a resisting power of 27,000 pounds.

Bicycle weddings are increasing in popularity in France. At the close a wedding ceremony recently the bridal couple started off on their honeymoon on a "bicycle built for two." A sporting Boer in the Transvaal has. according to the Cape newspapers, two racing ostriches, one of which has a

stride of fourteen feet, and can go 22 miles in an hour. According to Aristotle women in some Grecian cities owned a great deal of real estate, voted, held office and enlisted in the army. The "new woman" was so unpopular in Athens that a play was written satirizing her desire to con-

trol the city. Firemen's clothes in England are in the future to be made of asbestos, or mineral wool. The efficiency of suits composed of this material depends on three facts. It is non-combustible, a non-conductor of heat, and in no way injured by water.

ADVISED TO LEARN ENGLISH. Some Roman Catholics of foreign birth recently appealed to the Bishop of Hartford, Conn., for a priest of their own nationality. He declined on the ground that the assistant priest was of their race, and that others, including several teachers, spoke their language. They then appealed to Mgr. Satolli, who made the same general reply, and said that they could not expect more to be done for them in a country which did not use their language; and that as they voluntarily entered the United States with the intenion of becoming citizens, it was to the best interest of all to learn the national language as soon as possible and conform to the national customs, keeping up their native tongue out of reverence for their native land, but not out of contempt for their adopted country, nor with any desire to annoy their spiritual and civil superiors .- New York Independ-

ent.
