FASHIONS.

Great Width Across the Forehead In Hats and Bonnets-Jeweled Pins.

Never were there more radical shanges in the millinery world. We are be made only in one way. The coffee accustomed to upstanding aigrets and to must be of the best quality and must be bread bows at the back of the head, roasted, ground immediately and used but now extraordinary width carried as quickly as possible. Connoisseurs in scross the forehead promises to be the coffee assure us that it is out of the quesfashion in both hats and bonnets. As tion to make this beverage absolutely wings are the prominent feature in perfect out of factory roasted coffee that these front trimmings, the new models has been allowed to stand in the open are suggestive of bees and other insects. air any number of hours, and, in addi-Those who have made a raid against tion, one might say that such a thing as the wearing of feathers need not be a cup of good coffee from that which is alarmed. These wings are formed of purchased ready ground is quite an impaillettes, jet paillettes in preference, possibility. The fine aroms of the berry for the reign of the sequin would seem | evaporates in a very short time. Given to have only just begun. They are the freshly roasted and ground coffee, worked into a semblance of wings on an earthen coffeepot heated very hot by net or on chiffon, the patterns general- being filled with boiling water, which

STRAW HAT AND TOQUE.

ly sufficiently open to show the groundwork. The hats are gigantic. There is a disposition for hats to assume the square form, and a curious instance of this is an open black straw, the brim formed of one broad box plait on either side over the ears. It is covered with green velvet. Wreaths of lilies of the valley and foliage cover the back and front, while underneath are three green roses, one in the center of the back and one on either side. No flower is so much in favor as roses, but they are

used in Paris in most unnatural colors. Wonderful as are the trimmings of the front of the hat, equal attention has been paid to the back. Admirable, but eccentric, is a lace hat, with some four gigantic loops on either side of dahlia satin ribbon, sash width, softened by a mixture of black lace. The crown is gold and black, and roses are introduced

apon it outside and in of the dahlia tone. There is a new straw called "satin which is not only used for the plait, but is formed into rosettes and might easily be mistaken for baby ribbon. Many of these straws are shot to resemble the ribbons used with them. More foliage is in demand this season, and black violets are frequently used. Large rosettes formed of white or butter colored lace, which are plaitings rather than rosettes, are placed at the back of crowns, while lace ends fall down by the side of the coil at the back.

Large ornamental jewel pins are used and jewels appliqued on to the material. Toques are broad across the face, like the hats, and liberally trimmed with roses or foliage at the back.

Crowns seem higher and assert themselves rather more.

The cut shows a hat in fancy pink straw. The brim is cut away at the back and replaced by a cluster of roses shaded from pink to crimson. There is an under brim of plaited black lace and a shaded pink glace silk bow in front en the crown. The ornaments are in jet. The toque is in burned straw, trimmed with chine ribbon, cerise roses, cream lace and buckles.

Is It a Forerunner of Coming Style?

This sleeve is quite a novelty. It shows the shape of the top of the arm and is full above the elbow. The frills. of course, can be omitted.
