Why Gordon is Cocky—David Mills in the

Gordon Brown, when he learned that here was to be an attempt to remove him, took legal advice. The result was that he forced the board of directors to discharge him, thereby securing to himself one year's salary, viz, \$5000, which he will draw monthly for the next twelve months. He is thus enabled to be cocky toward the party should they offer him an office. The directors were in negotiation with John Cameron several days before the depo-

man of high abilities, has been mentioned a good deal in connection with the editorship of the Globe. Mr. Johnston, so his friends say, could not see his way to accept the say, could not see his way to accept the position, as his prospects in his profession, and they say further that had he gone in he would have insisted on writing off one-half of the capital stock. To pay ten per cent. the Globe must earn \$50,000 a year clear of rent, floating debt, etc. This is where Mr. Cameron is to have trouble. He won't be able to do it. His salary is to be \$3500 a year, and some say a per centage on profits.

all these works are so well known that it is needless to comment on them. The Leisure Hour is known at almost every fireade, and pronounced to be a journal most interesting and instructive. The Boys' Own paper is tast taking hold of our Canadian boyish readers, who always look forward to its publication with delightful anticipation. The December number has for a frontispiece a very fine colored plate descriptive of a pirate vessel decoying a merchantman. This journal narrates, in a way which interests every boy, the different sports in which boys delight, and is very useful, in that it diverts their mind from the wild ideas contained in rougher literature. The Girls' Own paper, besides the interesting tales it contains, is peculiarly suited to a girl's taste, contains much valuable information for ladies, and is a complete fashion journal. As for the Sunday at Home it supplies the want long felt for a journal totally given up to reading suitable for Sunday, discarding everything of a secular totally given up to reading suitable for Sunday, discarding everything of a secular nature. The principal cause of the failure is said to be the continued illhealth of Mr James Paterson, the head of the firm. It is understood that the matured liabilities are not pressing, but a large amount of paper will fall due during the next three months, which also helped to bring about the failure.

Separate School Trustees. The nominations take place to-day. It is reported that the contractors of the school board who were discomfitted last winter are making an effort to oppose Mr Wm Petley in St Thomas' ward. They think he is the backbone of the present board. The electors, however, appreciate Mr. Petley's efforts too well to allow of his retirement and if an opponent is induced to take the field he will be badly cut to pieces.
